### Donkeys Defy Nature

A rarity-of-nature has taken place on the farm of Mr. Richard Foster near here. Two donkeys, who ordinarily can not mate and produce another donkey, have defied nature. Mr. Foster bought the male and female donkeys at a sale about a year ago, and he says that they are just pets of which he is very fond. Donkeys are mentioned in the Bible as "Beasts of Burden" and were used for work as well as travel. The baby donkey is now several months old and has grown a lot since birth. Ordinarily it takes a horse and a mule to produce a donkey. (Photo by Barringer).
