GIVES TO STATE IMMENSE VALUE

**Freight Rate Decision Marks the
Administration of Gov. Craig
as Remarkable—J. W. Bailey
Points Out Its Effects and Pays
Tribute to Craig and Others**

"The decision of the Interstate Commerce Commission in favor of North Carolina in the matter of freight rates is of itself sufficient to make the administration of Governor Craig memorable," said Mr. J. W. Bailey to a reporter on yesterday. "When Governor Craig took the oath of office he declared that the last atom of his power should be exhausted if necessary, in correcting the discriminations against North Carolina by the great carriers. He staked his administration on the issue. He has made a masterful fight and won a victory that will never be forgotten. He showed his mettle in two ways, first in standing up against the big carriers and second in standing up against the big mass-meeting at Raleigh and preventing an extreme course."

"The immediate effect of the new rates will be to save about \$2,000,000 per year to North Carolina commerce. But far greater will be the effect by way of stimulating the business of the state. Merchants and jobbers and distributors will not have to compete with Virginia merchants. This will inevitably tend to the upbuilding of our cities. Raleigh is one of the best distributing points in the South, having an immense population within a radius of fifty miles and most of it in touch with railroad facilities. Every foot of land in Raleigh has been increased in value by the Governor's victory. And this is equally true of other cities and towns."

"Of course due credit should be given to the Just Freight Rate Association and its leaders, and to our Corporation Commission—very great deal to the Corporation Commission, and especially to Chairman Travis. He mastered the subject in hand, gave himself to the cause with great enthusiasm, and when he gets started at anything that way he can do as much as any man I have known. He has earned the right to a unanimous renomination, and I believe it will not be challenged."

"But it was Gov. Craig who put the vigor in the movement at the outset, and it was he who directed it all the way with 'cool head and lion heart.'"

"I believe that this triumph will be followed this year by the ratification of the amendments to the Constitution, the revision of our system of taxation, the establishment of closer business methods in the management of our institutions, and the enactment of a legalized primary law. If so, President Wilson will have nothing on Governor Craig when his term has expired, we will have all the progress that the most progressive could desire."
—News & Observer.

When one finds he is out of sympathy with his town and can only say a good word for it coupled with an apology, he ought to get out. Many people fall into a sort of unconscious habit of growling. But it's a miserable habit.

CLEAN UP AND KEEP CLEAN

Clean up and keep clean—and don't spit.

All the time is clean-up time. Keep a scrubbin'.

A city is as clean as its people.

Your back yard reflects your habits of cleanliness.

Got your back yard cleaned up? Looks better doesn't it?

A grocer's best advertisement is cleanliness.

A dirty neighbor is a menace to neighborhood health.

Dirt is deadly.

Don't buy food where filth and health never make good bed fellows.

Civic uncleanness kills civic pride.

No filth—no flies.

Flies on the table are worse than bugs in the bed.

Flies breed and live in filth.

"Who for the public has no better use Than to smear clean walks with tobacco juice, Expecting others to clean his muck, Can justly be called a dirty cuss."

Watch the men spit on your main streets!

—Gleaned from Health Bulletin.

If you want a prosperous town where people can come who are disposed to make homes, then do away with and bury 'em sight all jealousy and spite work; move for common prosperity and mutual benefit. Wake up, rub your eyes, roll up your sleeves and go to work, and don't forget to take some stock in the Farmville Building and Loan Association.

By killing 103,493 rats, Hancock county in Ohio figures that it has saved 73,000 bushels of corn, worth \$11,000. The computation is based on government statistics showing the ravages of rats which are credited with the destruction of millions of dollars worth of foodstuffs annually. It appears from this that the rat is a factory in the high cost of living. Swat the rodent.

Some men in our town are always figuring and scheming to outwit our merchants on a trade, any as they say, "Save a nickle." They pull together, make out a list of their wants, and then with an order for half a wagon load of goods, say to Mr. Merchant of some foreign port, "How much for this bill, spot cash?" This makes the blood tingle to the toes of the merchant, and thus he figures and soliloquizes: "I don't make much, but what I do I'll have, sure pop." The merchant shows a saving of five cents on every dollar's worth of goods.

way you have been charged by your home merchants, and you chuckle to yourself, "So much saved." Now did you give your home merchant equal chance? Did you go to him with your fifty or one hundred dollars and say, "How much to fill this bill, for the cash?" Or did you not send in your fifty cent and one dollar with directions to "charge and deliver," and then find you have actually paid twenty-five or thirty cents more on five dollars worth of goods brought to your door and charged to your account, good for six months or a year when you might have saved that much by spending a day going off to some other town and paying the cash? Now, is not this about the case? Give our home merchants an equal chance; tender them the cash for your wagon load of goods, and if they don't save you money, all things considered, we'll not say "trade at home." Bear in mind the money left at home, the profits are spent at home and every dollar invested abroad is that much against the interest of your town and community.

Pie Party at Walsenburg.

The teachers of the Walsenburg School invite you to attend a Pie Party to be given there, Friday evening, March 27, 1914, for the benefit of the School, beginning at 7:30 o'clock. Everyone interested in the cause of education is especially invited.

B. & L. STOCK- HOLDERS MEET

Meeting Held in City Hall Tuesday Night—Constitution and By-Laws Passed On—Officers Elected and Association Will Begin Operation April 1st.

At a called meeting of the share holders of the Farmville Building and Loan Association, which was held in the city hall Tuesday night, and which was well attended, the constitution and by-laws governing same was read and approved and the following Board of Directors and officers were unanimously elected to serve the Association for the ensuing year; the association to begin operation on Wednesday, April 1st, 1914.

The Board of Directors is composed of Jno. T. Thorne, President; B. A. Joyner, Vice-President; T. C. Turnage, Secretary and Treasurer; McD. Horton, W. J. Turnage, C. C. Townsend, T. E. Joyner, R. E. Belcher and B. S. Smith.

The Association as above stated will begin operation April 1st, 1914, with a subscribed stock of about seven hundred shares, to \$70,000.00.

The charter for the association has already been received, and these stock holders, who have paid 25c. on the \$100.00, are requested to hand same to the Secretary and Treasurer, Mr. T. C. Turnage, at once.

The weekly installments will be due and payable only to the Secretary and Treasurer each Saturday from April 1st, 1914, until stock matures. The hours for the paying of such dues are from 10 to 12 a. m. and from 2 to 8 p. m. Those failing to pay his or her dues as above stated will be subject to a fine of 5 cents on each share for each week.

The establishing of a Building and Loan Association for Farmville speaks in highest praise of its citizens and no doubt will mean one of the best agencies it could have through which to continue to grow.

Those of our citizens who have not already done so, should take a few shares at once in order to go in on the first series. You have until April 1st, to do so. Get busy.

Government statistics shows that the American people drank 7,000,000 gallons of whiskey, smoked 1,090,300,000 cigars and puffed 8,711,000,000 cigarettes during the six months ending December last. The revenue collected from distilled spirits amounted to \$85,862,812, the whiskey tax being \$16,142,584; tobacco, \$41,296,503, corporation tax, \$3,110,706; cigarettes, \$10,899,000, and cigars \$12,270,000. The total collection of taxes for the six months totaled \$167,647,905, increase of \$4,175,630 over the corresponding period for 1912. And yet some people wonder why the cost of living is so high.

Abraham Lincoln never said "Hello, Central," never dodged an automobile, never held a strap in a trolley car, never pushed a button for a light, never heard a phonograph and never posed for a motion picture, and yet Abraham Lincoln died only forty-eight years ago.

\$100 Reward, \$100
The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Cataract. Hall's Cataract Cure is the only positive cure now known to the medical fraternity. Cataract being a constitutional disease, requires a constitutional treatment. Hall's Cataract Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
