Men and wolves now are about the only game unprotected by law.

Never carry the whole world on your shoulders; trust the Eternal.

Have you noticed that when the weather just exactly suits some folks they are sure it will not last long?

When a man declares he hasn't any good neighbors and you wish to see the reason for it, just look straight at him.

The cost of high living is felt in the south as well as the north. A Mississippian has just been sued for \$17,000 for stealing a kiss.

If you can think of anything that can be done to beautify or build up your town, go do it. Keep your capital at home. Patronize home industry; help your merchants so they can sell cheaper; always get your work done at home if possible; subscribe and pay for your home paper; don't steal or borrow the reading of them. If you follow these directions and your town does not improve it is not your fault.

When a man abuses his town he owes it something. When ever he abuses his neighbor he probably owes his neighbor. Whenever he abuses anything, a withdrawal of the mystic curtain will quickly reveal the cause of the enmity or spite. If you can't say a good word of your neighbor, don't say anything, and if you can't say a good word of your town, move out of it. You help to make a community in which you live, and when you curse it, you curse yourself.

Especially worthy of remembrance at this time are words of Abraham Lincoln concerning regard for law: "Let every reverence of law be breathed by every mother to the lisping babe that prattles on her lap, let it be taught in the schools, seminaries and colleges; let it be written in primers, spelling books and almanacs; let it be preached from pulpits, and proclaimed in legislative halls, and enforced in justice; in short, let it become the political religion of the nation."

One pile of garbage left undisturbed a few hours in the summer time will be a roosting place for flies that can carry disease germs into scores of homes. A few disease germs properly placed by a dirty fly can cause illness which nets the doctor, the hospital and the undertaker a big sum. And a few cents expended in the first place would have prevented the infection. Insanitation is expensive, all right; but sometimes a lot of people fail to realize it even when the argument is so conclusive.

There are 40,000 known varieties of flies in the world. A single house fly lays 120 eggs in six or eight hours and the maggots become flies in five or six days. The life cycle of a fly in midsummer is ten days. So, a single fly may have 120 children, 14,400 grandchildren, 1,728,000 great grandchildren, 207,362,000 great great grandchildren within two months. What the married ones are capable of is too numerous to contemplate. The moral is, sweat the fly and in the fourth generation you have swatted over 200 million of it.

PAVED HIGHWAYS REUNION TRAVELS

Jacksonville Has Many High Class Roads to Points of Interest

Trips to Be Taken Over Them in Automobiles During the Reunion of Confederates May 6, 7, 8.

Jacksonville, Fla., April.—It is safe to say that hundreds, and possibly thousands, of visitors to Jacksonville during the week of the great Reunion of Confederate Veterans and Sons of Veterans, will make the trip from their homes in automobiles. Numerous inquiries have been received from all parts of the country concerning road conditions, and especially in regard to the practicability of reaching other points in Florida by automobile trips from Jacksonville.

For the information of auto owners, desirous of bringing their cars to Jacksonville at the time of the Reunion, attention is called to the fact that the city license books show that there are over 2,000 licensed automobiles in the city of Jacksonville alone, and during the past winter season more than 2,500 motor-driven vehicles have passed through Jacksonville en route to various places on the Florida peninsula. Unless there were fairly good roads, leading from Jacksonville to other sections of the State, there would not have been one-tenth as many cars in Florida this season, and the home people of Jacksonville would not have invested so heavily in motor vehicles.

Duval county, of which Jacksonville is the county seat, was among the first of the Florida counties to issue road improvement bonds and to begin the paving of its highways with vitrified paving brick and concrete. With a population of only 75,000 in 1909, this county issued road improvement bonds that year to the amount of \$1,000,000, and it was provided that not more than \$350,000 was to be expended in road construction each year for four years. The bonds were sold at a handsome premium and the money has all been expended on the roads of the county, with a result that this county now has some of the very best in the South, and these roads are a joy to the joyrider and to all persons who use them.

But this is not all; for the Board of County Commissioners is at the present time working up interest in a proposition to issue road improvement bonds for an additional road improvement bonds and construct a system of paved roads and highways throughout the county of Duval that will be a model for all sections of the country.

Jacksonville is only seventeen miles as a direct line from the Atlantic Ocean, where there is one of the finest beaches in the world, affording a speedy way four hundred feet in width and twenty miles in length. Here is the ideal automobile course and it is visited by thousands of cars every year.

From the city to the seashore the county has constructed a magnificent boulevard, paved with vitrified brick and with concrete for the entire distance. Hundreds of cars traverse this Atlantic Boulevard, as it is known, daily, and during the Reunion many thousands of visitors will make the trip by auto to the beach. Once on the seashore they will find much to interest them. Surf bathing will be at its best during the Reunion week and many visitors from interior points, who have never before had the opportunity to plunge into the big breakers of Old Ocean, will find the experience a novel and delightful one.

From Jacksonville to St. Augustine the distance by auto is 35 miles and the trip is easily made in two hours. In fact, the record for the trip is one hour and nine minutes, but that is almost too fast for a trip to the oldest city in the United States.

The road from South Jacksonville, on the opposite side of the majestic St. Johns river from the Reunion city, is paved with shell for nine miles and the going is good. Then comes six miles of brick paving over which the cars fairly skim along. The next four miles, to the Duval county line, have not yet been paved, but a temporary surface of shavings has been provided. From the county line to St. Augustine, a distance of 18 miles, the road is not yet paved, but shell has been placed to the wheel rate and good time can be made by the average car.

Still another attractive trip, on the south side of the St. Johns river, is that to Mandarin, a pretty little village on the banks of the river, about fifteen miles from the city. This road is well paved with shell for the entire distance and passes through some very pretty orange groves, which in themselves are an attraction to all. At Mandarin there are a number of attractive homes, surrounded by pretty gardens, groves and farms. This village is the site of the former home of the late Mrs. Harriett Beecher Stowe, the author of "Uncle Tom's Cabin."

The city of Jacksonville has many miles of paved streets and highways are now outstanding for several additional miles, work on which will start immediately after the reunion, so it is the desire of the city authorities not to have the streets torn up while the visitors are here.

Fix Up Your Liver And Feel Good

Why Risk Being "All Knocked Out" By Calomel? Dodson's Liver-Tone Takes Its Place And is Safe.

When you are constipated and your liver is sluggish it is no longer necessary to try to fix yourself up with calomel, which everyone now knows to be a poison that sometimes remains in the system and causes evil after-effects—and is often very dangerous to many people.

Dodson's Liver-Tone is guaranteed to take the place of calomel, to be a pleasant-tasting, easy-acting vegetable liquid, with no bad effects and causing no pain nor gripe nor interference with your regular duties, habits or diet. If you are not entirely satisfied with Dodson's Liver-Tone, go back to the store where you bought it and get your money back. It belongs to you and Dodson's wants you to have it.

[J. M.] Wheeler sells and recommends Dodson's Liver-Tone and they will cheerfully refund purchase price (50c.) instantly without question if the remedy fails to please you in every way. Its use has proved beneficial to many thousands and probably will to you. (Adv.)

It Always Helps

says Mrs. Syviana Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill."

I wish every suffering woman would give
