One Dollar the year—In advance.

Entered in the Post Office at Farmville, N. C., as second class mail matter.

FRIDAY, APRIL 9, 1915.

Villa announces that after peace is declared he will put all Mexico on the water wagon. More likely in the hearse.

The day before election every candidate swore he was sure of election. And the day following most of them swore on general principles.

There's a deal of peace talk floating around in this country, but apparently our voices fail to carry across the blue expanse of the briny deep.

What grouch says business is not on the pick-up? American agents are about to hook an order for 250,000 cork legs for European soldiers.

Here's to the man who pays his subscription! He's a gentleman—may he live to pay it many times. Hit the high places, fellows. Never mind the breeze.

Making Churches Sanitary.

While we are looking after the sanitary condition of our town, let us not forget to make our churches sanitary. In all churches, immediately after services, the floors should be disinfected by means of wood sawdust soaked in one-tenth per cent solution of corrosive sublimate. The floors should be frequently swept, after sprinkling with water so as to raise no dust.

Every week, and even oftener, the pews should be sponged with pure water. After every service the windows and doors should be thrown wide open and the pure fresh air allowed to sweep through and through the church, thoroughly cleansing it of the poisonous air, and filling it with pure oxygen. A church may become a very death trap for a congregation if it is not properly ventilated. The air becomes vitiated and filled with the carbonic acid gas breathed out by the people. Then the congregation goes home and the church is closed, the impure and polluted air is allowed to remain in the church throughout the week. The next time the people assemble they must re-breathe this same old dead air. If it is in the winter time, the air has been heated, making it that much worse. The windows are all closed. The people come in from the outdoor air and sit down to breathe this stuffy atmosphere. They become drowsy and fidgety and nervous. Their heads begin to ache. They don't know what is the matter with them. They never think of opening a window and letting in some fresh air. When they go out into the winter air again they take cold. They have tonsillitis, bronchitis, pneumonia, and they lay the foundation for consumption, all because the

church had not been ventilated. Brethren and sisters, let us look after the proper ventilation of our churches. Preachers, let your voice be heard in this matter.
