## REMEMBER THE ORPHANS THANKSGIVING

By Donating One Day's Income to the Orphanage of Your Own Choice.

To the Press of North Carolina: Relying on the generosity and public spirit of the Press of the State the undersigned are emboldened to ask of our newspapers such timely and telling help as they are able to give us in impressing upon every man, woman and child in the State of North Carolina the importance of contributing one day's income to the orphanage work of the State as a Thanksgiving offering.

The orphanages of the State are contributing largely to the enrichment of the life of North Carolina. They are gathering up the waste material and transforming it into valuable citizenship. They, more than any other institutions of whatever kind, are beginning at the beginning of things. They are moulding indigent childhood into useful manhood and womanhood exactly at the point where the process of training is vital; and they are doing this work for the most part without the cost of a copper to the State.

The movement to secure a contribution of one day's labor from every citizen was begun last spring. At a meeting held in Raleigh, Sept. 28, the Executive Committee met and formally launched the campaign. The editors of North Carolina were the men toward whom the members of the Committee first turned their eyes. We are counting on these men who, more than any others, shape and control our public sentiment to stand by us in this movement and make the next Thanksgiving notable in the annals of the State's history.

We are often called on to do honor to the dead and this is a sentiment that is creditable and worthy, but in this movement we are called upon to perform a service for the living at a time and place where that service will tell most mightily on coming ages. Thousands of children are safely sheltered in our Orphan Homes, but four times as many are as yet uncared for and left to shift for themselves in a world of temptation and peril without a father's counsel or a mother's care—without a home, a penny, or a friend!

It is primarily in behalf of these homeless ones that this movement is launched. We must enlarge our orphanages and admit more of the little ones on the outside, who are clamoring to come in. Each institution in the State is crowded to its utmost capacity, with a stream of children standing at the gates and crying for admission. If a wife of the citizens of North Carolina will give the price of one day's labor to the orphanage work it will mean the salvation of a thousand North Carolina children now on their way to the dogs and the devil. Is this work not worthy of the best efforts of every good citizen?

It is our hope that every North Carolina patriot will freely and cheerfully give his best efforts to the support of this movement.

We hope and believe that they will urge those of their congregations who have an income to sacredly set apart one day's work to this great cause, and send it forward to the orphanage of his choice on or near Thanksgiving Day—November 25th.

Fellow citizens, this is no child's play. It is a man's job. The pennies of the children are not to be despised. Every gift, however little, helps the object to which it is given, and helps the giver more; but we are not appealing especially to children in this movement, but to men and women who are busy in the world's work. And knowing the spirit and temper of our North Carolina people, we do not believe that we will appeal in vain.

## THE BEST Location For Your Home That Can Be Bought In Farmville Will Be Sold Next Week To The Highest Bidder

ON THURSDAY AFTERNOON, NOV. 18, AT 2 O'CLOCK,

I shall offer AT AUCTION all my Farmville property, consisting of 2 Seven room Cottages on Church street, one smaller 5 room cottage on rear of these, one very pretty corner lot 83x178 ft. adjoining these, and two lots adjoining Mr. Watt Parker on Pitt street, each 34 1-2 x 265 feet. The location of these houses and lots is the best that can be bought in Farmville today. The elevation of all these lots is noticeably above the lands adjoining them; thus making them well drained upon the surface.

The two new 7-room cottages are built on a most convenient and roomy plan. They will surprise you as they do everybody when you look inside at their arrangement. They were planned for the comfort and convenience of the woman who cannot keep a servant all the time. She can go from the parlor or front sitting room to the kitchen in the rear without going outside at all—either in the hall or porch. All rooms are connecting. Then at her pleasure she can take her guests through the hall and back porch to dining room. In the rear of her large bed-room, she finds a bath room which opens also on the porch. The steps to stairs which go up from the back hall are made on a 7 inch rise which makes the climb up stairs unusually easy. It doesn't hurt a woman to go up and down these easy steps.

The inside work is of the best materials, finished in stains of light and dark oak. Nice cabinet mantles in all three rooms down stairs. All rooms and closets are floored and ceiled mouse tight. In fact nothing was spared to make these cottages airtight for your home. They were planned and built for service and genuine comfort and Not For Show. They were made for LIVING ON THE INSIDE, and no money spent on fancy gables or decorative work to please the eye only. Furthermore, these houses are built upon solid heart pine sills with roof covered in best grade galvanized tin. In fact they were not built to sell but for my neighbors to live in.

The location is as good as anywhere in Farmville—good neighbors who live in their own homes, convenient to N. S. depot, just right distance from business section, but not too near. You don't have to surmise which way the town will build. It has already built all around you. The value of this property is going up every day.
