Little Harper Sheppard, Son of Mr. and Mrs. B. S. Sheppard, Died Wednesday of Acute Indigestion.

The little spirit of Harper Sheppard, the only child of Mr. and Mrs. B. Streeter Sheppard, was called on to that beautiful and happy land above Wednesday morning at the hour of four. The little fellow, who was only 2 years and two months of age, had recently suffered a light stroke of paralysis and was in a very feeble condition when attacked with acute indigestion. Every possible effort was put forth to offset the attack, but the little body had grown too weak.

The remains were placed in Rarest Hill Cemetery Thursday afternoon; the funeral conducted by Rev. John R. Mathews of Greenville, assisted by Rev. B. F. Huske, of New Bern, using the Episcopal service.

While the little body was placed in mother earth, the little spirit ascended through the fragrance of the lovely floral designs to the outstretched arms of the Heavenly Father who was waiting to receive it.

A NEW DISEASE.

Here is a new disease to which attention has been called: Morbus Sabbaticus, or "Sunday Sickness," is a disease peculiar to church members.

First—The symptoms vary; but the disease never interferes with the appetite.

Second—It never lasts more than 24 hours.

Third—No physician is ever called; the pastor, however, is often blamed for not calling during the week.

Fourth—The disease always proves fatal in the end—to the soul.

Fifth—It is becoming fearfully prevalent and is destroying thousands every year.

The attack comes on suddenly, but only on Sunday; no symptoms are felt on Saturday night—the patient sleeps well and wakes up feeling well. He eats a hearty breakfast, but about church time the attack comes on violently and continues until the services are over for the morning.

Then the patient feels easy and eats a hearty dinner. In the afternoon he feels much better and is able to talk and walk and read the Sunday papers. He eats a hearty supper, but about church time in the evening he has another attack and stays at home. On Monday morning he is entirely able to go to work and does not have any symptoms of the disease until the following Sunday. Selected, St. Paul's Cleveland, Calender.
