

The FIGHTING Battery

for YOUR Car!

If you are one of the motorists who will need a new starting-lighting battery this spring, which shall you buy? Some will serve you better and longer and more economically than others. No two makes are alike. And unless you are the exception, a technically trained man, you have just one basis for intelligent comparison. It is your judgment as to the relative values of the features wherein various batteries differ.

The "U. S. L." Battery

For example has a distinct and fundamentally different feature. The rugged power and tenacity of the life of the "U. S. L." is worth remembering.

"IT COST AS MUCH TO MAKE BUT LESS TO USE"

FARMERS ASKED TO TAKE BONDS

Special Appeal on Behalf of Liberty Loan Issues is Sent Out by Washington Representative of National Grange.

Every farmer in America is expected to support the Victory Liberty Loan, says Thomas O. Atkinson, the Washington representative of the National Grange, National of Husbandry, who has sent the following letter to the offices of every farm grange in the United States.

the loan. The drive is to begin April 1, for the purchase of \$100,000,000 in Victory Liberty Bonds. These two words visualize all that is best in American spirit. American farmers must respond to this appeal.

"What the farmers of America did in sacrifice and in accomplishment, in food production and in bond buying during the war is a part of the record. It is a war record of which any close may be proud. It must be made good now by meeting the obligations which result from the expiring of Liberty Loan strength which conquered the enemies of Liberty and civilization. Time to Get Ready.

"It is time to get into the Victory Liberty Bond campaign. No appeal of the war has gone unanswered to the full limit when brought to the attention of the farmers. Men, money, wheat, other food—no matter what the obstacles or the difficulties—the answer has been full and certain. The

answer must be the same in this campaign. Thousands of sick must be cared for, thousands of wounded and maimed must be made ready for future usefulness. We armed a nation and mobilized its resources into a war machine of such tremendous potential power that our enemies surrendered rather than face it, and thereby months or years of fighting and thousands of lives were saved. Now we must pay the obligations created by this effort. Who can neglect to pay his just part for that which prevented so great a sacrifice of life and blood. Work Wins Products.

There lies just outside the doors of the American farmer a hungry world's world which needs all our products. American farming rests on the safe basis of food and service. The investment of the hard earned dollars of American farmers in Victory Liberty Bonds is a safe investment with a certainty of full return, and the money will come back into circulation making more business, increasing the market and the demand for farm products, and increasing prosperity. Buy the Victory Liberty Bonds. They will make farmers Victory Liberty Prosperity men. Do your part to put the Victory Liberty Loan over the top.

"Make your investment in Victory Liberty Bonds the pleasure of your confidence in American institutions and that democracy for which you are offered the insurance against a tyrant of your own government that the war shall not have been fought in vain; an offering of thanksgiving to peace."

SAVING BEATS EARNING: TOO BAD BEAU DIDN'T LIVE TO ENJOY IT ALL

If Beau and Jacob who lived some six thousand years ago were still alive, and Beau had saved \$10 every day, and had saved it all, he would have \$36,500.00. On the other hand, if Jacob had deposited \$1 at 1 per cent interest, compounded every 365 days, he would have \$36,500.00. The difference is \$36,500.00. Beau would have had had he purchased the 10 War Savings Bonds, which pay interest at the rate of 4 per cent, compounded four times every year. There is an idea in it. How much would every man save if he purchased \$10 worth of 10 War Savings Bonds every year? It would be a \$10 stamp, and the amount of the interest

NOTICE!

I will on Monday, the 5th day of May, 1919, at 12 o'clock M., in front of the Town Hall of the Town of Farmville, offer for sale to the highest bidder for cash the following property, the same being situated in the Town of Farmville, N. C. The purpose of said sale being to satisfy the unpaid taxes for the year 1918.
