HURRAH FOR OLD PITT.

(Daily News)

Well old Pitt county did her duty yesterday and rolled up a handsome majority for hard surface roads.

From the very first we had the utmost confidence in the wisdom and foresight of her citizenship, believing all the time that when the test came it would be met in the right way for the right cause.

Pitt county said by its vote yesterday that hard surface roads must come and when they do come we trust that those who saw fit to oppose this bond issue will discover that they made an error and in the future do what they can for good roads.

The majority while a creditable one, would doubtless have been much larger had those residing in the rural districts been more intelligently informed as to the conditions under which they were voting for bonds. They simply did not understand the proposition. Quite a number changed their opinion yesterday just before going to the polls and voted for bonds because some one who was posted had foresight enough to inform them. Many a vote for bonds was cast in consequence of this little missionary work, but for this doubtless bonds would have stood a mighty poor show of carrying.

But they won by a majority of 396 votes and we are satisfied. When the question of more bonds rolls around again it is not going to require much work to carry them because the people will have seen what good results have been the outcome of the present bond issue of \$500,000. Hurrah for old Pitt county. Yesterday she published to the world that she too stood for progress and development. It was a glorious victory for roads and

we believe those who voted favorably for bonds will never regret their action and those who voted against them will not be guilty again. Now that the election has been decided let's all get together, both bond men and anti bond men and work together to make our great old county still greater.

Our vote yesterday was watched eagerly by the citizens of other counties, especially those contiguous to us, for if we had voted against bonds it meant dollars in their pockets while if we voted for bonds it meant that we would still keep what was rightfully ours.

We congratulate the citizens of Pitt county that a large majority of them saw fit to cast their ballots for hard surface

roads. We made history yesterday, a glorious history, history that we will never be ashamed of in years to come. Hurrah for old Pitt county.

Horse Sense About Tobacco

Good tobacco ought to be like a well-bred horse—all the kick taken out but all the spirit left in.

You see, half the secret of makin' a good horse is in the breedin' an' half in the breakin'. Selectin' tobacco that's grown right is only half of makin' Velvet. The agein' is the other half.

That's only one kind of agein' that gets the right results—Nature's own. Nature's no clock-watcher. She does a job right whether it takes two years or two thousand.

So when she gets through with the fine Kentucky Burley that we put away in wooden hogsheads for two years, it's just right.

It ain't been hurried none, or short-cutted. It's a Nature-done job.

All kinds of things are packed in tobacco tins, but your good neighbor will tell you "Velvet is the real pipe tobacco." Prove it for yourself.
