Seeds of Fortune.

Thoughtless spending is like eating so much of this year's crop that there is inefficient seed left for next year. Wise spending and sane saving are like eating enough of this year's crop to promote the highest degree of efficiency and saving enough for even a better crop next year.

It is good business to think of the next crop. The farmer who did not plan ahead might find, at the time to plant corn, that he had neither saved the seed nor prepared the land.

Are you saving the seed that makes fortunes? A small amount of money invested in Thrift Stamps each week will soon grow into War Savings Stamps—and you will not only have saved the seed for success but planted it. After that it doesn't need cultivation, but grows in good season and bad. And in 1924 your crop comes in.

Surprise the Family Tonight

Bake them some crispy, tasty, golden-brown biscuits made from OCCO-NEE-CHEE Self-Rising Flour. Then watch the way those goodies disappear—one, two, three, four—and every one as good as the last.

OCCO-NEE-CHEE Self-Rising Flour

Takes the Guess out of Baking and Saves you Money

With it you can make the same appetizing biscuits, waffles, muffins and cakes time after time. There's no more guessing. It has mixed with it, in the exact proportions, the very best baking powder, soda and salt. It's economical because it saves you the cost of these three materials. Buy a bag of OCCO-NEE-CHEE Self-Rising Flour today. Look for the Indian Head on the bag. At all grocers.

When you prefer to bake with plain flour buy Peerless—the best of its kind.

Overland

Showing the World What 600,000 Owners Know

A few days ago a *stock* Model 90 Overland touring car again proved its stamina by smashing completely the world's non-stop *high gear* record. The official records prove it to be one of the greatest reliability records ever made by any car. The distance covered was 129 miles better than the best previous showing.

This test was made in Oklahoma. It was not staged on boulevards. The daily average was over 600 miles through the severest weather, and over every kind of road from country highways to crowded city streets. The distance was equal to a trip from New York to Los Angeles, and back to Oklahoma City.

The car was sealed in *high gear* and the shift lever was removed. Not once was there the slightest mechanical trouble, the least hesitation, or the faintest break in the smooth, even action of the Overland motor.

At the end of seven days and seven nights of grueling test the Overland Model 90 finished in as perfect running condition as when it started, and this standard car is an *exact duplicate* of the Model 90 we will be glad to show you.

This test does not make the car any better, it merely proves in a dramatic way what owners already know about this wonderful car.
