**The People Should Co-operate.**

Raleigh, July 22.—As a part of the intensive campaign carried on by the State Board of Health in an attempt to familiarize every person in the State with the requirements of "An Act to Prevent the Spread of Disease From Insanitary Privies," enacted by the last General Assembly in February, 1919, a request was sent to the county officials of each of the one hundred counties of the State asking for the names of mayors and leading citizens of the towns of the county, to whom the Health Bulletin and copy of the law would be sent. This request met with most hearty co-operation on the part of the county officials. Eighty-eight counties of the State have responded to date.

The carrying out of the provisions of the state-wide privy law is one of the most difficult tasks of the State Board of Health has undertaken. The results which will be obtained, how-

ever, in the reduction of typhoid fever and other diseases, are expected to more than warrant the expenditure of money and energy required. If all the people of North Carolina accord as hearty co-operation to the State in the carrying out of this law as the county officials have given, the undertaking will meet with overwhelming success.

As a matter of precaution it would be a wise plan for the members of the Board of County Commissioners to make a quick and thorough inspection of practically all the bridges in the county since the heavy floods, and condemn those that are dangerous to travel until the necessary repairs can be made. Such action may possibly avert a serious accident and at the same time protect the County against a possible damage suit.

Fighting Typhoid Fever in a Community proposition. Every Family should be vaccinated and every home Sanitized.

**No Worms in a Healthy Child**  
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will cleanse the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will then be in perfect health. Pleasant to take. 50c per bottle.

**Did You See or Hear The "Locusts?"**

Raleigh, N. C., July.—If there were any false predictions by those in authority as to the countries in which the "locust" was to appear this year it must have been due to imperfect records of past outbreaks. It is in order to have these records accurate for future use that every locality where the insect appeared this year should be put on official record. County farm agents and citizens are asked to write to Mr. Franklin Sherman, State Department of Agriculture Raleigh, any exact observation they have noted, both as to the exact localities or parts of counties affected, also the times when the "locusts" appeared and disappeared. Mr. Sherman estimates that they should have appeared about May 25th and disappeared about June 10th. Is he correct?

**Present Strength of U. S. Army.**

Washington, July 20.—The army's strength on July 11 was 782,000 of whom 282,000 were in the A. E. F. and 91,000 at sea en route to the United States. Up to date discharges has reached the total of 2,946,804 and the number sailing from Europe since Nov. 11 was 1,771,018.]
