Jack and Jill and Tom and Bill  
Were motoring on the slope!  
They set out to reach the topmost top  
To take a "flofty" peep!  
They went to the top as sleek as an eel,  
Without a hitch or a jumble;

# BURN MORE AIR — LESS FUEL

600 Cubic feet of air are required, ordinarily, to burn one pound of coal

NATURE will give you, for the mere taking, a limitless amount of pure air. It costs you absolutely nothing—it is free. On the other hand, every pound of your coal or wood costs you money—hard earned money.

Your range literally chokes it's fire. It can not supply the required amount of air, and at the proper place. It is throwing ton after ton of your hard earned fuel up the chimney as unburned fuel gases.

You cannot afford to go on year after year wasting so much of your fuel. Buy the range that is guaranteed to save you fuel, and that will actually pay for itself in the fuel saved—buy—

## COLE'S DOWN DRAFT RANGE

This beautiful range is built scientifically and to burn more air and less fuel. It burns every particle of burnable material in your fuel—(gases and all.)

### It will burn anything

Hard coal, soft coal, slack, wood, or even corn cobs. This stove is built to last, having copper alloy iron on parts subject to rust, and malleable iron on parts subject to breakage.

It is a Mother's stove—the kind that makes the baking always turn out right, and makes cooking a pleasure.

## HE TELLS WHAT HE THINKS OF AMERICA

Syrian Says Now is Time For Every Man To Prove Patriotism—Answer Found in War Savings Stamps.

It sometimes takes the new-comer to appreciate America. The native-born is often too close to the situation to realize what this country means to the world today. He is used to all that it offers, taking it as a matter of course, and frequently loses the vision in sordid detail; while the new-comer—but listen to what one of them had to say.

He is George E. Ribbany of the 1919 class of the Boston High School of Commerce and he came to this country from his native land, Syria, when he was 10 years old. In a four-minute speech on the value of War Savings Stamps, given at the school recently, he said in closing:

"Hate is not characteristic of the American people, but the Germans taught us unwillingly how to hate them. Now it is a sin not to hate the spirit the Hun showed and not to abolish it from the face of the earth. Of the latter we are positively sure, because the American passion for justice is a hundred times stronger than was the German passion for conquest."

"I never entertained the idea of becoming an orator and I am sure that I lack oratorical ability, but such qualifications are unnecessary on an occasion like this, because the only and best inducement to a true American is the call of his duty and government, and not even the best oration of the greatest speaker of all times."

"Whether we all realize it or not, we are now in the midst of a period which will be known to all the oppressed peoples of the world as the Americanization period. Now is the time for every one of us to prove whether he is a sham American or a genuine American."

The practice of thrift and the purchase of War Savings Stamps are just two good indications of the genuine American. They make for national independence, freedom, prosperity and happiness."

## KEEP GRIP ON YOUR WAR SAVINGS STAMPS

Advertising Clubs Issue Warning To Protect the Public Against Ubiquitous Stock Swindlers.

Various ways for prospective investors to detect the unscrupulous stock promoters are contained in a bulletin recently issued by the National Vigilance Committee of the Associated Advertising Clubs of the World. The bulletin indicates several unmistakable signs of the "wild cat" stock peddlers which owners of War Savings Stamps and Liberty Bonds will do well to consider before exchanging their valuable securities for the offerings of northern stocks. The warning to prospective investors is as follows:

"So far as we have been able to ascertain not a single case has ever been reported where the promoters of a legitimate, worthy enterprise have failed to take Liberty Bonds in payment for the capital stock of a new company. We believe that the very offer to take Liberty Bonds should prompt the head owner to consult a banker or legitimate broker as to the value of the stock that is offered in exchange for the bonds. The offer to exchange is an earmark which should serve as a warning."

"Another earmark of the faker is his attitude when it is proposed to postpone action pending an investigation. He will usually sneer at the thought of consulting a banker or broker of standing, suggesting that, of course, they would not recommend the stock because they have stocks of their own to sell."

"In such a case the prospective investor might be sensible enough to remember that it is the one who casts reductions upon business men of standing who is likely to be the fly-by-night salesman, and that the banker has been in the community many years and will not doubt continue in business for many more. He might reason that an established firm would figure that it could not afford to deceive. For there are thousands of people who allow themselves to be hoodwinked because they believe such fairy stories."
