### Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

**CARDUI**

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, by Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their woman patients, for years, endorse this medicine. Think what it means to be in splendid health. Get Mrs. Spell. Give Cardui a trial.

### CLINIC HAS PROVED WORTH

Organization Established by Boston Firm Well Worthy of Imitation by Other Employers.

A pioneer medical clinic, established 15 years ago to protect the health of 600 employees, and gradually enlarged and expanded until it now cares for a total of 2,700—that is the record proudly held today by a well-known Boston firm. At the time of its organization the medical director was in charge of the clinic in the capacity of director and visiting nurse. Now the clinic is in charge of a practicing physician and surgeon, assisted by three full-time graduate nurses.

During the influenza epidemic of last winter, over 350 employees were treated per day, with only six deaths during the entire course of the dreaded disease. All cases were given careful individual attention and, in instances where no family doctor was in attendance, immediate arrangements were made for medical care.

It is the policy of the nurses in the clinic to advise all employees with whom they come in contact to be insured, an activity which the firm itself handles through an employees' organization. The purpose of such advice is to secure insurance for all employees in order that they may receive its benefits after one week's illness.

This arrangement does not place a premium upon the employees' being ill, and at the same time the clinic cooperates in the matter of insurance.

A dental clinic is in a formative state and, no doubt, will be established in a short time. The plan and method of administration and organization is simply in the making, but it is safe to say that the dental clinic will be as efficient as the medical clinic.

The Modern Hospital, in describing the clinic, says that it has fully proved its value in protecting the health of the employees of this particular company and merits the commendation and imitation of other mercantile and industrial establishments.

### Sam Had His Fee

Sam was on trial, charged with stealing ten dollars. He pleaded not guilty. Being unable to hire a lawyer, the judge appointed young Clarke as counsel. Clarke put up a strong plea in defense, and Sam was acquitted. Afterward the pair met outside the courtroom.

"Now, Sam," said the young lawyer, "you know the court allows the counsel very little indeed for defending a case of this kind. I worked hard for you and got you clear. You really owe me a good big fee and you should dig up some money and pay me. Have you got any money at all?" "Yes, sah," replied Sam, happily. "I still done got dat ten dollars."
