### SOLVING WAR PROBLEMS TAUGHT PEOPLE THRIFT

Country Urged to Keep Benefits Gained Through Lesson of Saving Learned Last Year.

Fellowship in the fastest growing society in the United States is open to everybody. In every state in the union it is gaining members daily, since it is a society in which the good of the country is served as well as that of the individual.

From all walks of life its millions of ever increasing members come. No one can be a member and keep the pledge he takes without receiving lasting benefits and aiding the United States of America to maintain the grand place it has already attained—the peer of any nation that has ever existed.

When the treasury department of the United States began the attempt to solve the financial problems that beset the country as it was entering the war, the United States was a debtor nation. Only an understanding that it is the greatest creditor nation in the world today can one realize what an achievement has been won. Without a direct tax on the people money has been raised to pay for the successful termination of the war, and this cost more than \$20,000,000,000. Beside this enormous amount of money there is now more money in the banks than before.

This, of course, was done through the Liberty Loans, principally. But these loans have ceased, and those at the head of the nation's finances are seeking to clinch the lesson already learned, and are urging the permanent establishment of War Savings Societies.

The Treasury Department is doing a service for the small investor in accepting so small an amount as twenty-five cents and giving the same security that the holder of a \$10,000 Liberty Bond enjoys—the entire resources of the United States of America. Could anything be more safe?

### CAN CHOP OVERHEAD

We joined with glee to celebrate the birthday anniversary of Washington, who, when a boy, chopped down his father's cherry tree, and later, though but still a youth, surveyed the trackless forest wastes, and always practiced simple truth in every project he embraced. Then when the Revolution broke out George stepped bravely to the fore and threw aside our foreign yoke, and saw us safely through the war. No adjectival flourish here could sell in full his epic life, but this we know and hold it dear, he won our nation's primal strife; he fought, he built, he eagerly taught, he loved this land of liberty, and what his sacrifices then bought is handed on to you and me. To him we owe our liberty, and to him we owe our debt. To keep our nation's honor bright, and exaltate him so that yet we travel holding Freedom's light, we cannot all chop cherry bark, but we can chop the "overhead" and cutting out some costly bark, buy U. S. S. instead.

A thrifty man is safe from every emergency, save financially, and thrives in Thrift and War Savings Societies.

Keep wisely, avoid waste, save in Liberty Loans, Thrift and War Savings Societies—and success is at your feet.

War Savings Stamps—a fine way to save your money, at the same time, and also to help our country.

### SAID EVERY SOLDIER KEPT TRENCH SHOVEL

Engineer After Viewing Battlefield Makes Interesting Commentary—Could Find Everything But One Trophy He Wanted.

An eminent engineer recently returned to Washington after traversing on government business much of the western front. He went over the battle area before the army salvage corps had removed the signs of conflict.

"I saw pretty nearly everything there," he said. "Lots of rifles, bayonets, machine guns, helmets, soldiers' packs, water bottles, and even handkerchiefs and socks all over the ground."

"I didn't want any of them. Because I'm an engineer, I'd set my heart on a trench shovel. I'd seen thousands of them back of the lines, but I wanted one from the battlefield. I looked and looked, without finding one lying around loose. Whenever there was a shovel, the man who'd used it was lying beside it."

"Then I understood. The soldier, dislodged from a position, might lose his pack, his extra clothing, even his rifle, in his escape, but he never let go his shovel."

"He knew he had to have it, to dig himself in again."

War Savings Stamps are trench shovels for digging in against adversity.

### CARRY ON!

Uncle Sam is releasing from his service the men who went "over there" to free the world from autocracy. Thousands of soldiers are daily receiving their honorable discharges; they pocket their pay, bid farewell to their comrades and sail forth—civilians.

There is one army, however, which must not be demobilized. That is the army of War Savings Stamps buyers. More recruits are needed to carry on the campaign of readjustment which follows the signing of the armistice.

The army of fighters has achieved its purpose.

The army of saviors must remain in "action."

"Carry on" to a lasting peace under the banner of W. S. S.

"I know something about the way most stoves are made—but, do you know, this has got them all beat a mile!

"Simple as A. B. C—but the method of construction is what gets me.

"After you have examined this stove and are talking about wood-stoves—you can think of this kind only—THE
