

Bringing in the BISCUITS

If you want a sure way of pleasing every member of the family have a plate of piping hot biscuit just about every meal in the day.

Made with Occo-nee-chee Self-Rising Flour, biscuits, waffles and hot-cakes fairly melt in your mouth.

This flour is very easy to use because it already contains baking-powder, soda and salt in exact proportions to insure perfect baking. Occo-nee-chee is also very economical to use since the extra ingredients are already in it, because the baking-powder, soda and salt would cost more if you bought them separately.

It takes but a few seconds to mix Occo-nee-chee with water or milk and a few minutes more for baking.

OCCO-NEE-CHEE Self-Rising Flour

Takes the Guess out of Baking and Saves you Money

Be sure to look for the Indian Head to be found on every sack of Occo-nee-chee Self-Rising Flour. Let your grocer call you a bag today.

One of the best plain flours you can buy is Poorless.

We are always anxious to save money for our customers by showing them how to get more years of wear from their paint jobs. That's why we always recommend

DEVOE Lead and Zinc Paint

The Guaranteed Power Gallons—Wears Longer

It contains no whitening, silics, china clay or other such stuff. It is made of the same pure ingredients that the old-time painter used: Pure White Lead, Pure White Zinc, Pure Linseed Oil, and molasses. Devoe is mixed by machinery, 1000 gallons at a time. That makes it absolutely uniform in strength, color and covering capacity—always takes fewer gallons, too.

Let us show you the real economy of painting Devoe paint. Will be glad to send you copy of the practical booklet—"Keep Appearance Up and Expenses Down."
