## CRANE COMES TO THE FRONT

Question of League of Nations Plank  
in Platform Dominated All Others  
at the Chicago Convention.

Chicago.—The republican row over the league of nations suddenly took on such a furious aspect that for the moment it almost overshadowed the combination deadlock.

W. Murray Crane, of Massachusetts, a former senator and one of the leaders in many preceding conventions, was the central figure in the development. Emerging from the obscurity which hitherto has surrounded him, he gathered about him a group of mild reservation advocates and informed the platform builders they would make a mistake unless they declared for a league of nations principle as against the principle of no league at all.

Because of the position Senator Crane has occupied in previous party parades, the younger leaders manifested no propensities to desert to antagonize him. They recommended their plan to adopt a plank not containing such an affirmative declaration.

Of the five crisis in course of solution only the Italian and German are given concern here, officials declared. ## THEY WANT NO LABOR PARTY

Program Appears Now to Be to Offer  
Demands of Labor to Democratic  
Convention at San Francisco.

Montreal.—The American Federation of Labor in convention here made preparations to offer the republican party in return for its acceptance of the labor platform demands which leaders declare the republican platform endorsed.

Labor leaders announced that the platform would be placed before the republican convention.

The first step, they said, would be a condemnation of the republican party to be followed by an appeal to the democratic party for incorporation of labor's policy in its platform. Samuel Gompers and other labor leaders were in session preparing a plan of action.

Those close to Mr. Gompers asserted that the action of the republican convention would have no effect on the non-partisan political program and there was "not the slightest possibility" of labor putting a party in the field this year.

The only resolution adopted by the convention provided that "every effort be made by the organized labor movement to the end that schools, hospitals, asylums and other similar public or private institutions, the objects of which are the betterment of the human condition, be maintained and improved."
