ITALIAN WORKMEN IN FULL CONTROL

FLAGS ON PRINCIPAL PLANTS ARE BOTH RED SOCIALIST AND BLACK ANARCHIST.

TROOPS GUARDING THE BANKS

Working Men in All Factories Are Obliged to Give Certain Amount of Time to Military Drill.

Paris.—Travelers arriving from Italy describe the seizure of the metal works by workmen as possessing odd features. Flagstaffs on the principal plants bear two flags—red for the socialists and black for the anarchists. Many private houses display red flags, especially in Milan.

Government troops guard the banks but do not interfere with the occupation of the works. Transport workers allow no movement of government troops from one part of Italy to another. The ministry of war at Rome recently endeavored to send some regiments to northern Italy but the trainmen refused to move them.

The Italian government has informed the manufacturers' association that it does not wish to employ troops in clearing the factories, but that a far better course is for the employers to negotiate a compromise with the workmen's committee. The employers have agreed for the present not to go near their own works so as not to expose themselves to forcible expulsion.

Working men in all factories are obliged to give a certain amount of time to military drill.

DETERIORATION IN COTTON IS SHOWN

A PRELIMINARY INVESTIGATION MADE BY EXPERTS SHOWS PRESENT CONDITION.

VERY DISCOURAGING REPORT

Ten Per Cent Loss Shown Since 25th Making Condition of the Crop on September 10th 57 Per Cent.

Columbia, S. C.—The American Cotton Association announced from its headquarters in this city that a preliminary investigation by its experts, on the condition of the cotton crop up to September 10, shows that there has been a deterioration of 10 per cent since August 25, making the condition of the crop on September 10 as 57 per cent. This deterioration, the report says, is due to the adverse weather conditions and to the most serious insect damage which has ever befallen the cotton crop. The report further declares that this will result in an enormous reduction in the indicated yield as shown August 25 and adds to the seriousness of the situation contributing the cotton belt.

Announcement was also made by the association that a conference could be held in Washington between the entire federal reserve board and special committee from the American Cotton association, composed of 60 of the leading farmers, merchants, bankers, business and professional men representing the entire agricultural and commercial life of the 14 cotton growing states.

"The conference will be held," says a statement issued by the association "for the purpose of arranging the extension of financial credits through the federal reserve system to its member banks so as to enable the producers to warehouse their cotton until there is a sufficient demand from the manufacturer's price basis can be had upon the law of supply and demand."

Reports from the interior of Germany have turned against the Soviet régime in Russia, and the conference at Berlin they declared to cut all union with Moscow. Then Karl Radek, one of their wisest leaders, who has been in Russia for several months, told them that they can establish socialism in their country and have proved themselves wholly incapable of effecting an economic reorganization of Russia. He pictured the food, transportation and industrial conditions there as deplorable. The Germans were highly displeased with the anti-capitalistic policies adopted by Lenine and Trotsky.

Reports from southern Russia during the week were contradictory. One day there would be a victory of the defeat of Baron Wrangel's forces, and the next day dispatches telling of defeats over the reds. At one time the latest report is that Wrangel's troops had surrounded the bolsheviki at Kakhovka and that a fierce battle was in progress with the bridge over the Dnieper river as the immediate prize. The town is of great strategic value. The Russians are using most of their reserves in combating Wrangel. The Polish general staff has declined to undertake a joint offensive against the reds in connection with Wrangel, pointing out that peace negotiations at Riga are imminent and that the united strength necessary for the campaign before the soviet government becomes [illegible]

At a meeting between Premier Millerand, lord Curzon and Count Sforza, the Italian minister of foreign affairs, last week, it was decided that the Italian troops in Albania should be withdrawn by the end of the month. This will be delayed a considerable time as it is to be done during his period of unconsciousness. Sir Hamar Greenwood, chief secretary for Ireland, on returning from a visit with Premier Lloyd George to Scotland, announced: "The state of Ireland is serious. Neither the civil nor the military authorities in Dublin or Cork are secure from murderous attack, or will be released. It is a state of affairs monstrous today if not threatening, no matter on which side blame for its existence may be placed."

The Irish government has declared that the Sinn Feiners have been responsible for the recent attacks on British soldiers and police. Lloyd George has been severely criticised for his failure to settle the Irish question.

Polish troops have been driven from Lithuanian territory by the Lithuanians, who have declared war on Poland. The Lithuanians have advanced to within [illegible] miles of Suwalki, which they claim, and have defeated the Poles in several engagements. The Lithuanians have also declared war on Germany.
