THE FARMERS WANT AN INVESTIGATION

GOVERNMENT TO BE ASKED TO ASCERTAIN THE CAUSE OF LOWERING PRICES.

TO PUT IT UP TO PRESIDENT

Conditions Unless Speedily Removed, Make Sufficient Production Next Year a Simple Impossibility.

Columbus, O., Nov. 28.—J. Skottow, Washington president of the American Cotton Association, said that President Wilson had been requested to arrange for a sweeping investigation of agricultural conditions.

"The fact that the agricultural producer, nation-wide, are paying a terrible penalty by being forced to sell their products at a price far below the cost of production is due largely to the inability to gain access to foreign markets of account of the removal of the war finance corporation, established by Congress for the purpose of using \$1,500,000,000 to market American staple products into 'neutral Europe,'" said Mr. Skottow.

"We have laid these matters fully before the President with the request that he arrange for a sweeping investigation of agricultural conditions for the specific purpose of ascertaining and removing the causes, persons or conditions responsible for these conditions. It is being pointed out that unless relief can be secured that the ability of the producer will be so limited by the losses that the matter of sufficient production from the next crop will be of serious concern, and that the absolute certainty of a great curtailment of agricultural production and the higher prices."

MCSWINEY'S FINAL RELEASE BY DEATH

FEVERISH INTEREST IN POSSIBLE DEVELOPMENTS IS CAUSED BY DEATH

MUCH GRIEF AND BITTERNESS

It is extremely improbable that there will be any outbreaks or disorderly developments in Cork.

Cork, Ireland.—Feverish interest in possible developments caused by the death of Lord Mayor MacSwiney, of this city, which occurred in Britain prison, London, is mingled with the grief in which his death has plunged south Ireland. Although the people appear stirred to the highest degree of bitterness, it is regarded as extremely improbable that there will be any outbreaks or disorderly demonstrations in this city.

It is expected, however, there will be a considerable demonstration and intensification of pacifist warfare against the police and military forces, which, notwithstanding pacifists, are doubting their vigilance, especially in remote districts.

Cork jail, where a number of hunger strikers are in a grave condition, is manned inside and out by soldiers equipped with machine guns.

There is an exceptionally large garrison here. It is equipped for any emergency, has a number of tanks and armored cars and is ready for instant service.

It is understood the Irish parliament had been making appeals to all elements of the population to refrain from violence. This is also believed to be the policy of various influential leaders of the Sinn Fein movement.

Death of King Alexander.
Athens.—King Alexander of Greece died at 5:30 p. m. His death was due to wounds received when a gas monkey attacked him early in October. Throughout the night his physical condition grew weaker. His personal doctor announced that the king's condition was hopeless.

Lloyd George Defeats Attack of Asquith Coalition in Debate on Ireland.

BRITISH COAL STRIKE ON

Miners' Proposals for Settlement Laid Before Parliament—Recent Events in Central Europe—Secretary Houston Tells Senators Taxes Cannot Be Reduced.

By EDWARD W. PICKARD.

London, Nov. 28.—Lloyd George's attack on the Asquith coalition in the House of Commons today was a complete failure in its attempt to secure the resignation of Lloyd George last night.

The premier in response to the offer of an impartial tribunal to settle the two shillings a ton coal strike, which he had refused to accept, said that he would be glad to consider any proposal for a permanent settlement of the coal industry on principle to be submitted upon to settle all wage disputes.

Fourth, established district committees in all districts to deal with the situation of increased output, competition between both miners and owners.

Fifth, before December 31, establish a national wage board of the coal industry on principle to be submitted upon to settle all wage disputes.

Sixth, the British government should not agree to complete the transfer of the coal industry to the miners and owners and the transfer to the miners and owners and the transfer to the miners and owners.

The premier in response to the offer of an impartial tribunal to settle the two shillings a ton coal strike, which he had refused to accept, said that he would be glad to consider any proposal for a permanent settlement of the coal industry on principle to be submitted upon to settle all wage disputes.

Washington, Nov. 28.—The House of Representatives today rejected the proposal of Lloyd George to accept an impartial tribunal to settle the coal strike, which he had refused to accept.

The House voted 215 to 197 to reject the proposal. The vote was a decisive one, and it is believed that the proposal will not be taken up again.

The House also voted to support the proposal of the miners to accept a national wage board of the coal industry on principle to be submitted upon to settle all wage disputes.

The House also voted to support the proposal of the miners to accept a national wage board of the coal industry on principle to be submitted upon to settle all wage disputes.

URGE ON WOMEN DUTY OF VOTING

SUFFRAGE LEADERS DEVOTING THEIR EFFORTS TO GETTING THEM TO THE POLLS

MRS. PARK DIRECTING WORK

She Also Wants Them to Find Out Before Election Day How All Candidates Stand on Planks Presented by Women's League.

Washington, Nov. 28.—The duty of voting is being urged on women by suffrage leaders who are devoting their efforts to getting them to the polls.

Mrs. Maude Wood Park, chairman of the National League of Women Voters, is directing the work of the organization in this regard.

"It is desirable that women voters should make their choice at the polls," she said.

"This work is being done under the direction of Mrs. Maude Wood Park, chairman of the National League of Women Voters, who suggests that the first duty of the organization is to see that women register and vote in the largest possible numbers."

"The duty we owe," says Mrs. Park, "is to those who have won the suffrage for us. As loyal members of the league of women voters, Mrs. Park continues, we have a duty to ourselves, what we can do to make our own votes and those of other women intelligent and effective for good. A third and no less important duty between now and election day is to find out the stand of all the candidates for congress on the planks drawn up for presentation to political parties."

Their Planks by All Platforms.

This last one may feel imagine will prove one of the most interesting of the talks the women have assigned themselves. The suffrage leaders took no chance of this opportunity by asking the political parties to present their platforms.
