INSTITUTIONS OF LEARNING IN NEED

YOUNG MEN AND WOMEN DAILY DENIED AN OPPORTUNITY FOR AN EDUCATION

DORMITORIES IN URGING NEED

Committee Urges Action to Make a Strong Effort to Get the Work Done Before the Public

That the "war of education" in North Carolina may not suffer as much from lack of facilities at the state institutions and that steps might be taken to provide funds for additional dormitories are only a few of the points brought out at a meeting of the North Carolina Education Commission, held in Greensboro, Tuesday, November 10.

Members of this committee with Mrs. Shreve, who will be in charge of the project, are at present looking for the people of the state who are best qualified to contribute to the cause. The committee is also looking for the young men and women of the state who are denied the privilege of the state institutions of learning because of lack of facilities, particularly dormitory space, as a result of which the students who are admitted have to double up in such a manner that not only interferes with the satisfactory progress of their work, but also a detriment to the health of the students.

This committee urges all citizens to make an effort to get the facts before the public.

Plans to Leaf Growers

The effect of the North Carolina Tobacco Growers' Association would be but little less than a crime against the grower, declared Judge Stephen O. Baggett, president of the association, in an appeal for members.

The organization of the tobacco growers of North Carolina into one compact association, with one leaf in one, and with no other object than the legitimate one of preventing a fall of this product at a price not below the cost of production, has been made possible by the law of supply and demand, which is the only law that governs the tobacco market.

It is believed this movement is well organized. Virginia has organized. Committees on cooperation among the state associations have been appointed and are preparing to function. South Carolina, Georgia, Kentucky and other tobacco states will all be included.

Movement have commenced in preparation by growers, fertilizer, and others, and the association is receiving the support and support of the farmers of the tobacco growing territory.

NOVEMBER 25, DATE FOR THANKSGIVING

AN OLD OBSERVANCE OF THE AMERICAN PEOPLE THAT IS DEEPLY IMBEDDED

ABUNDANT CAUSE FOR THANKS

In Spirit of Devotion and Stewardship, We Should Give Our Thanks to God and His Gift of Peace

Washington.—President Wilson has issued his Thanksgiving proclamation, saying that "the plenty, security and peace, our citizens and ambitious people see in the future, and setting aside Thursday, November 25, for the observance. The text follows:

"This special observance which has become so much a part of the life of our people, that we may contemplate the mercies which have been vouchsafed to us, and render heartfelt and unceasing thanks to God for His manifold goodness.

"This is an old observance of the American people, deeply imbedded in our thought and habit. The burden and strength of life have their own history.

"We have abundant cause for thanksgiving. The lessons of the war are rapidly healing. The great army of freedom, which America sent to the defense of liberty, returning to the grateful embrace of the nation, has returned the peaceful parents of peace simply and as promptly as it rushed to arms in obedience to the country's call. The usual justice, peaceful and just, has been restored to the world. The people are now enjoying a period of peace and prosperity which have been vouchsafed to us, and we should give our thanks to God and His gift of peace.
