DODSON KILLING USE OF CALOMEL

Says Drug Is Mercury and Acts Like Dynamite on Your Liver.

Dodson is making a hard fight against calomel in the South. Every druggist has noticed a great falling off in the sale of calomel. They all give the same reason: Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. "Dodson's Liver Tone is personally guaranteed by every druggist. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, sour stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.—Advertisement.

Proceeding With Caution.

"What are your views concerning the tariff?"

"You ought to speak first," replied Senator Sorghum.

"Why?"

"Because you are an influential voter. As a patriotic pot-practical statesman it should be my duty, as well as my privilege in this interview to reconcile my opinions to yours as far as I can conscientiously do so."

MOTHER, QUICK! GIVE CALIFORNIA FIG SYRUP FOR CHILD'S BOWELS

When a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or your child is listless, cross, feverish, full of cold or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the stomach, little bowels and liver pass out, and you have a well, playful child again. Millions of mothers keep "fruity" California Fig Syrup handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Mother, you must say "California" or you may get an imitation fig syrup.—Advertisement.

Some Uses of X-Ray Apparatus.

The Great London hospital has one of the most complete outfits of X-ray apparatus in the world. The range of the apparatus is from the finest detail of the human body to the huge steel castings of the engineering shops. The Central X-ray Department is to be found in the Electrical block, and the entire equipment is the property of the hospital. The Central X-ray Department is to be opened shortly, and it is expected that with the new apparatus and the improved methods the number of cases will be increased. The new plant will be installed at the cost of the Hospital Saturday Fund.

NEWS REVIEW OF CURRENT EVENTS

Conference on Unemployment Is Working Rapidly to Solve Its Big Problem.

RAIL WORKERS FOR A STRIKE

Democrats Fighting Against Ratification of Peace Treaties—France's "Stand on Seizure of Land" Armament—Lloyd George Again Invites Irish to Parley.

By EDWARD W. PICKARD.

Most important of last week's events in the United States was the opening of the national conference on unemployment. The social economists and captains of industry summoned to Washington by President Harding are not expected to work miracles at once, but a way to enrich everybody and revolutionize economics can hardly be given all the qualities of invulnerability, indestructibility and omnipotence that are attributed to it by its sponsors.

Among the broad phases of the problem, as stated by Secretary of Commerce Hoover, are:

A determination of the volume and distribution of employment.

Emergency measures to provide employment and relieve suffering that may arise during the coming winter.

Measures which may aid in restoring commerce and employment to normal.

Immediately after the opening session the nine subcommittees got busy and by the end of the week most of them had completed tentative programs. At this writing it is not possible to give the outline of this program, but some of its suggestions made by the committees are as follows:

Public utilities, private and public organizations to put through a construction program for the coming year.

Also that there is a definite permanent arrangement for public works.

Steps to prevent and relieve unemployment in each community.

That these organizations refer any such plan of action to the attention of public authorities.

Reduction of the number of persons seeking employment by the restriction of immigration, the withdrawal of women and children from industry, the encouragement of the return to the farms of those who have left them, and the development of vocational training.

Increased production of coal, which is growing worse. Every day's delay makes it "appalling." Last week many coal mines in South Wales were closed down, and to add to the trouble the period for which the state subsidy to raise wages was granted expired that day, and the country faced the possibility of another great miners' strike.

Our own strike threat comes in the railway world. For days the vote of the rail union members have been coming in to headquarters, the question being whether there shall be a walkout because of the reduced wages established by the federal railway labor board and the resulting living conditions thereon. The vote of the Brotherhood of Railway Trainmen already has been counted and is announced as showing 94 per cent in favor of a strike. The vote of the other brotherhoods are being counted and it is taken for granted they will solidly support the stand taken by the trainmen. Of course this announcement that a strike vote has carried is not the final decision even of the brotherhood officials, but only of committees. Many of the roads are very reluctant to have the walkout that will tie up the country's transportation facilities.

Senator Borah's engineer [illegible] months. Senator Borah [illegible] Patrick, nominated by the President to be chief of the army air service [illegible]

This week the members of the American delegation are confiding to the public to be urged by them. It is known that they will stand firm for the president and against the ridiculous and that they are agreed that complete disarmament is impractical at present; but they believe that an international agreement to restrict and reduce armament gradually may well be reached. Our delegates are of the same mind as the President in holding that the proposal of the pacifists that the United States reduce armament even if the other nations refuse is utterly foolish.

The League of Nations had a fare up over this question last week. The British and French delegates opposed a resolution calling on it first consideration to make general proposals for reduction of armaments. But Lord Robert Cecil, representing South Africa, declared it was vital for the league and for peace that something be done and that Great Britain and France should either present their own proposals or cease obstructing the proposals put forward by others. The resolution was adopted. A committee was named to submit an outline for the guidance of the league to report [illegible] Poland was asked by Bolivia [illegible] case of the Peru-Bolivia [illegible] that the [illegible] commodity [illegible] with [illegible] contracting parties.

ACTIVE ARMIES OF GREATER NATIONS

ESTIMATE MADE THAT SIX MILLION MEN ARE UNDER ARMS IN THE WORLD TODAY.

CHINA OCCUPIES FIRST PLACE

Of the Nations Who Are Not Distressed by Civil Strife, France Is Far in the Lead With 1,600,000.

Washington.—Active armies of the 10 most important nations of the world today include approximately 4,000,000 men, according to figures obtained here and regarded as reasonably correct. With the invitation of the armaments to the agenda of the forthcoming conference on limitation of armaments, these are the figures with which it is expected the accredited delegates will have to deal.

While China stands first among the nations in this summary of soldiers actually under arms about September 1st, last, being credited with 1,870,000 active troops, France is far ahead among the nations not distressed by civil strife in the number of men with the colors. The French strength is placed at 1,604,000 men, the British empire standing next with 740,000 and Germany last with 100,000. The United States stands thirteenth, with 149,000 men in the regular army, preceding Germany, while Italy has 360,000 and Japan 330,000 active troops.

Figures for other powers include: Russia, 538,000; Poland, 450,000; Greece, 225,000; Spain, 203,000; Switzerland, 107,000; Turkey, 152,000; Czecho-Slovakia, 150,000.

Cotton Off $6.50 in New York.

New York.—The cotton market made a sensational break following the publication of the official crop condition figures by the department of agriculture. After selling up to $21.35 for December delivery, a new high record, prices broke $6.50 per bale.

Decline in Cotton Condition.

Washington.—Further decline in the condition of cotton during September resulted in a reduction of 500,000 bales in the forecast of production issued by the department of agriculture, which placed the total crop at 8,837,000 equivalent 500-pound bales.

Three Hundred Liquor Violations.

Greenville, S. C.—More than 300 cases charging violation of the state liquor prohibition law will be taken up in the Greenville term of the United States court, District Attorney Ernest F. Cochran announces.

Guatemala Joins Federation.

Washington.—Ratification by Guatemala of the constitution of the United States of Central America was announced by communication to Guatemala City.

Head-Hunt Pursuits of Lioner.

Athens, Ga.—A Brazilian priest, a missionary among the Indians of Brazil, will speak from Athens on the subject of human hunts. One hundred natives of Brazil and the one who are cannibals.

Dies in Prison Cell.

Pittsburgh, Pa.—Dr. William Ament, 70, missionary to China during the Boxer uprising, was found dead in his cell in the Pittsburgh county jail. He was held as a witness in the case of Charles Hadley, negro, charged with the murder of Mrs. Mary Ament, wife of the missionary, at Ithan, Pa., on September 15.

Cotton Compress Loss.

Memphis, Tenn.—The estimated loss by fire to the Memphis Cotton Compress Company, which was destroyed by the fire which swept the Memphis waterfront, is $1,000,000.
