SUBSIDY MEASURE AWAITING ACTION

Washington, June 14. — The administration's ship subsidy bill introduced by the House has been referred to the House merchant marine committee which is expected to report the legislation to the House before the week-end. Republican leaders are confident that with the president's support they can demand immediate action. They believe the bill will be passed before July 1st.

NOTICE OF SALE.

Colds & Headache

"For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars. . . I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

At all druggists.

Feet Are Primarily for Walking

And remember that shoes are worn primarily to protect the feet.

That's what you pay for—good leather, good workmanship, and fine fitting—and that's what you get in a Walk-Over shoe.

You never worry about the style of a Walk-Over. Good leather and good workmanship take care of that.

Mr. Farmer And Business Man!

The Farmers of our section are being called upon by shrewd agents insisting that they sign Co-Operative Marketing Contracts, telling them it is strictly a Farmers' Organization and is the Farmers' only salvation. Pay no attention to these paid agents that are anxious to save you from ruin. Do not stake your all on a mere theory. If you have not signed this Contract, wait and see how it works. WE WILL SOON KNOW.

WAIT AND SEE

if their system is superior to the Present Selling System, which has made our section world famous for its good tobacco.

Do not be in too big a hurry to sign, and perhaps, want to un-sign. The system that is best will prevail regardless of the fellow who wants to hold a fat job and those who have poor paying property which they wish to unload on the Farmers. Think for yourself, you know who has to pay your family expenses. Don't let Mr. Stranger do your thinking. Some of us have tried this before. Talk to the Peanut people who live very close to you. Find out just how they are getting along. Investigate this matter for yourself. Then BE YOUR OWN JUDGE.

We have every reason to believe that tobacco sold in Farmville this season under the "Open Market" system will bring you more money than any other way. Wait and see.

LEONARD CLEANABLE

One-Piece Porcellan Lined Refrigerators.

There is no satisfaction in having a refrigerator that keeps your food just half cool. It is expensive and aggravating to pay big money for ice bills and then fail to secure desired results.

Our refrigerators are the most perfect distributors of cold air on the market. Through their patent and scientific construction every nook and corner is kept at the same low degree of temperature at the most trivial cost for ice.

They are food savers, ice savers, money savers. The coldest refrigerators made—absolutely odorless and easily kept clean.
