FARMVILLE BEATS TWO AND LOSES ONE CLOSE

Fremont was overwhelmingly defeated by Farmville's fast quintet last Friday night by the score of 31 to 15.

Lang, who was closely guarded in the Nashville game, got loose in the Fremont contest and exhibited his ability to find the basket by caging the ball eight times. His score alone would have defeated Fremont, but the other boys contributed fifteen additional points.

Taylor played his usual good game, however he retired in favor of Flanagan who handled himself well when his nerves allowed him to do his duty.

Skinner, who was not able to get in the Nashville game, showed up well during the half that he played. Although at times he appeared to play in such a manner as to cause the spectators to believe he was afraid that he would error in his playing.

Fremont's team was fast, clean and sporty. The team is smaller than last year's, but it is full of fight.

Peacock, the miniature forward, was by far the star player for Fremont. If the ball disappeared during the game it could be found by finding Peacock.

He handled the ball more times than all the rest of his team mates. He caged the ball three times from difficult positions. Time and again he was cheered for his clever passing, fake plays and accurate shooting.

Farmville fouled their opponents ten times; Fremont fouled only eight, however, one player committed the fatal fourth, which eliminated him from the game.

The Farmville Lions will seek Nashville's scalp again Friday, November 23, in Nashville. The Lions will then roar in their own den November 28, while Mt. Pleasant attempts to annoy them.

The girls of Farmville high school basket ball team took the girls of Snow Hill into camp by the tune of 44 to 4 on Wednesday afternoon at Snow Hill. The accurate shooting of Dippie Baker and Lena Eason and the guarding of Edna Earl Lewis were the features of the game. The team of F. H. S. passed fast and snappy.

The players show every sign of developing into a strong aggregation. Come on, girls! We are with you.

Snow Hill's boys' team took Farmville's fast second team by surprise and defeated them by a 7 to 4 score.

The boys' and girls' teams of Snow Hill will play in Farmville on Tuesday night, December 4, at Knott's warehouse.

MAGAZINE CLUB

The members of the Magazine club enjoyed a delightful meeting at the home of Mrs. P. E. Jones on Wednesday afternoon.

Autumn flowers and foliage made pleasing decorations.

After a short business session during which the sale of Red Cross Christmas Seals were discussed, an interesting program on "The Stranger Within Our Gates" was given.

"The Coming of the Highlanders" was written by Mrs. E. C. Beamian, who also enumerated the contributions of the Highlanders to our history. An interesting paper on the Scotch-Irish was read by Mrs. J. H. Darden which was followed by a history of the German Settlements by Miss Tabitha De Visconti.

After the meeting had adjourned delicious ice cream and wafers were served by the hostess.

Mrs. W. L. Spencer, of Swan Quarter, was a special guest at this meeting.

HONORING MISS BYNUM

As a pretty courtesy to Miss Mildred Bynum who is to be married in December to Mr. F. P. Bryan, of Greenville, Miss. Lula Lee Dixon entertained on Thursday evening last at dinner and bridge.

The dining room was lovely in its decorations of pink and white—pink candles in silver candlesticks shed a soft glow over the scene. A silver basket filled with pink and white roses formed the center piece over which was a shower of ribbon and rosebuds suspended from the chandelier. A miniature bride and groom marked the places of the engaged couple.

After a delicious three course dinner the merry party went into the reception room where tables were arranged in delightful appointments for auction. At the conclusion of the game Miss Ethel Pittman and Mr. Ivey Faircloth received a box of sweets as high score prize and the guest of honor was presented with a lovely silver basket.

Miss Bynum was becomingly gowned in an evening frock of peach taffeta. She is one of the most popular members of the younger social set here and many pre-nuptial festivities will be accorded her.

Miss Dixon's guests included Miss Mildred Bynum, Ethel Pittman, Susy Coplan and Messrs F. P. Bryan and Walter Hartman of Greenville, Icy Faircloth and Harry Lang.

TUESDAY AFTERNOON CLUB

Mrs. G. A. Jones was hostess to the Tuesday Afternoon club on Tuesday last at her home on Church street.

Flowers and tallies were suggestive of the autumn season and four tables were attractively arranged for bridge.

After the game Mrs. H. W. Turnage was presented with a lovely flower basket as winner of top score.

The hostess was assisted by Mrs. C. T. Dixon in serving a delicious chicken salad, sandwiches, pickles, saltines and coffee. Tiny turkey stick-ups reminded the guests that Thanksgiving was nigh.

DR. J. B. HALES TO OPEN OFFICE IN FARMVILLE

Formal Opening Monday, Nov. 26th. Office Located in Bank of Farmville Building.

Chiropractic is a wonderful science of correcting physical defects arising from various causes, is a science that is growing in popularity and general favor every day. A few years ago people looked askance upon the suggestion that physical ailments could be corrected through proper adjustment of the spine, but after careful study and investigation it has been shown to the satisfaction of fair-minded people that once the cause of the trouble is sought and adjusted, it would naturally follow that the trouble would disappear. It is reasonable when considered rightly to see that adjustments of the spine will eliminate the cause of the trouble, for the spine houses the chord, the great power conveyor for the power plant, the brain, and thence the nerves are distributed to all parts of the body. Thus when one of the vertebrae become slightly displaced (subluxated) it short circuits the nerves from the spinal chord to the organ or organs effected. Hence, nervous troubles develop. The nerves supplying the stomach, the upper and lower bowels, the heart, lungs, and liver and in fact all the vital organs of the body are subject to derangement as has been clearly demonstrated. Oftentimes to the layman the cause being at the spine is unnoticed. The patient feels simply run down, nervous and depressed. Chiropractors seek out the cause of the trouble (subluxation) and adjust it with their bare hands. Thus science by eliminating the cause of the disease enables nature to restore the body to health. Chiropractors claim, and justly so, that the same nature that can heal a scratch or broken bone can and will when its nerve force is unhindered repair the softer organs of the body. In its final analysis Chiropractic is common sense reduced to a science.

Dr. J. B. Hales, who has recently opened an office in the Bank of Farmville, holds the degree of doctor and Philosopher of Chiropractic of the P. S. C.

IS THE GENERAL PUBLIC FAMILIAR WITH CHIROPRACTIC?

At a conservative estimate there are forty-five million people in the United States who believe in drugless healing. They are to be found in every community and their numbers are constantly increasing. Approximately one hundred thousand people receive adjustments every day in the year. As a result of this condition and also because of all systems of drugless healing, CHIROPRACTIC is now acknowledged to be the MOST ADVANCED, THE MOST SCIENTIFIC, and THE MOST SUCCESSFUL—it has MET WITH THE GREATEST ENTHUSIASM in every locality where it has been introduced. Laymen, as well as doctors, have been learning the fallacy of the drugging idea and the soundness of natural methods of healing, and while ten years ago Chiropractic was very little known, today it would be next to impossible to find a person who has not heard of it. In general, therefore, it may be said that the laity is familiar with Chiropractic, for the publicity given it has exceeded that of any similar movement in the history of the country.
