FRIDAY, FEB. 1st, 1924

**DISEASE GERMS**

We are small, very small, but our number is great, and there is strength in numbers.

Our family has many characteristics; some are so fat they are actually round, while some are long and slender, but each is fitted for the peculiar work assigned to him.

Our family is well organized. Each member or group of members will undertake only a specific piece of work; one never interferes with the work of another. Sometimes we help one another, but each in his own way, one never attempting to perform a task in the way assigned another.

We love the dark, not because our deeds are evil (we cannot see it that way), but because sunlight kills us.

We love dirty places, not because we think it is dirty, but because it is so much easier for us to live and thrive in such places.

We love little children, because it is so easy for us to build our homes in them. The only trouble is that most of them die before we are able to rear a family of creditable size.

We love the weak and sickly because they make such nice, comfortable homes for us; they are so easy to work.

We hate sunlight; we hate cleanliness; we hate strong, robust people; we simply have no use for any of them.

Our family tree goes back to the beginning of the world, but you only recently discovered us and gave us our names.—Pathogenic Bacteria.

J. W. HOLMES  
 Banker and Planter

I have yours of recent date asking for a short article on "Keeping Up Grit, Courage and Morale for 1924."

First, take stock of what we have. That we have vast wealth backed up by agricultural and stock-raising possibilities is acknowledged by every one.

Second, we must have faith in our several activities to tap this wealth and appropriate it to our use. We must have Faith. A discouraged people are beaten already. We can do what we believe we can do and no more.

Last, but by no means least, every man and woman needs to practice from one to twelve hours each day the old-time, never-failing, always saving and keeping saved, gospel—**HARD WORK.**

The only road to success for Pitt countyans in 1924, is H-A-R-D W-O-R-K, and all the paths leading into this road is work. If we travel thereon we will get somewhere and will not lack for Morale.

—Pitt Co. Cham. Com. Bulletin.

**Children's coughs**  
 Some dangerous when  
 Dr. Bell's Pine  
 Oil is used. It  
 soothes your doctor  
 and breaks up a cough  
 with the good old-time  
 remedy. It has  
 been used for years  
 and is the best.

**Ford** \$490  
 A complete Ford Truck with all-steel body and cab  
 CHASSIS ONLY \$370.00  
 Prices f. o. b. Detroit

The new Ford all-steel body and weather-proof cab on the Ford worm-drive chassis makes world's lowest priced complete one-ton truck.

**A New Ford Steel Truck Body**  
 The Ford Motor Company announces the production of a new all-steel body and steel weather-proof cab, mounted on the famous Ford one-ton worm-drive chassis, forming a complete haulage unit at the remarkably low price of \$490.

making the body readily adaptable for general use. Screen sides and end doors may easily be installed. This new body, built of heavy sheet steel strongly reinforced and riveted, is designed to stand up under the most severe usage. Loading space is four feet by seven feet two inches.

Steel flare boards and end gate with sockets permit the use of stakes and high side boards or the mounting of a canopy top. The weather-proof cab is fitted with removable, door-opening curtains.

This Car can be obtained through the Ford Weekly Purchase Plan

 D. E. OGLESBY, Mgr.

**Fertilizer must be "cured"**

Great bins of Royster Fertilizer "cure" or "age" for months so that your results from its use will swell the earnings from your land.

**PERHAPS** you didn't know that fertilizer should be "cured" or "aged" in order that the food for soil can be more readily available when that food is needed.

This is one of the details of the fertilizer industry that few people know, but it's mighty important. Such "details" as this represent the difference between Royster's Fertilizer and less carefully prepared foods—and the difference between profitable crops and crops that are not so profitable.

To keep vast quantities of fertilizer for months represents an enormous supply and a tremendous capital. Therefore, only a large company like Royster's can offer this more effective "cured" fertilizer.

Rid yourself of the idea that all fertilizer is alike. This is no more true than that all land is alike.

The truth of this can be proven—not alone by the enthusiastic praise of successful farmers who have used Royster's, but by your own experience.

Use Royster's this year. Give it a fair test—and don't guess about fertilizer any more.

Grow better and larger crops by using fertilizer that has been "cured"—that is free from lumps—that has been proven chemically correct by forty chemists—and that has established a record for good works over a long period of years. Look for the name "ROYSTER" on the bags.
