BAPTISTS HAVE BIG GAIN OTHER LANDS

FOREIGN MISSIONS SHOW LARGE RESULTS IN PAST TEN YEARS UNDER DR. LOVE.

TAKE OFFERINGS IN APRIL. Every Church and Individual Will Be Asked to Share in Supporting Enlarged Program—All Interests Will Be Protected.

No department of Southern Baptist work has shown greater progress in recent years than that of foreign missions.

Dr. J. F. Love, corresponding secretary of the Foreign Mission Board, located at Richmond, Va., is just completing ten years of service in that capacity, and a survey conducted by Dr. Allred says that during that time the receipts of the board have been \$14,143,344.00, whereas the receipts for the entire 78 years of the board's history have been \$24,315,704.88, showing that two-thirds of the total receipts of the board since its organization in 1848 have come in during Dr. Love's administration.

Results on Foreign Fields: Large indicating the results which these larger receipts have made possible on the foreign fields, it is pointed out that whereas the Foreign Mission Board was operating in only seven countries ten years ago, it is now at work in seventeen countries, representing Europe, Asia, Africa, North and South America. In that brief period of time the number of foreign churches has grown from 330 to 1905, the number of mission stations other than churches from 42 to 305, number of baptisms per year from 6,353 to 12,307, members of the churches from 29,351 to 111,373, number of houses of worship from 347 to 315, number of Sunday schools from 542 to 1,511, pupils enrolled in the Sunday schools from 23,023 to 75,594, contributions by the foreign churches from \$31,159.69 per year to \$442,368, number of American missionaries on the field from 278 to 544, number of native Christian workers employed from 624 to 2,494, number of mission residences owned by the board from 66 to 129, number of mission schools from 329 to 560, number of pupils in these schools from 329 to 304, number of pupils in these schools from which 50 per cent of all the converts won by the missionaries come, from 9,374 to 25,106, number of American medical missionaries employed from 12 to 19, and number of medical treatments given per year from 70,329 to 224,122.

So extensive has become the foreign mission work, as well as that of home missions, state missions, Christian education, hospitals, orphanages and the work of ministerial relief fostered by Southern Baptists, that the denomination has grouped all these interests into one general program known as the Special Program of Southern Baptists, and all the 23,000 local white Baptist churches of the South are being asked to put on a budget that will adequately provide for all these causes, the budget to be raised through an every-member canvass of the churches every year.

Take Special Offerings in April. Inasmuch as a number of the churches have not yet completed their canvass and many churches which put them off will not collect every member, the Headquarters Committee of the 1925 Program, in co-operation with the various state secretaries, is asking that Sunday, April 19, be observed as a day of special offerings in the churches for all the objects embraced in this general program. Where a church holds the regular services on some other Sunday than April 19, that congregation is asked to observe the day of the regular worship with special offerings for these causes. By reason of the recent rapid expansion of all the general causes of the denomination, and to enable the church and other agencies to discharge their heavy obligations, an effort is being made to raise a minimum of \$1,000,000 in cash during the first four months of 1925. It is with a view to enabling as nearly as possible every one of the 2,000,000 white Baptists of the South in the undertaking that the special offerings for the month of April were suggested.

DR. J. F. LOVE, Secretary Baptist Foreign Mission Board

Doem Incie John

BACKWARD, turn backward, O time in your flight—bring me an old-fashioned sugar tonight. Butter-milk biscuits and black-berry jam. — Good country butter and sugar-cured ham. I would have doughnuts like Ma used to make. — Pass me the steak, Brother — pass me the steak!

Once I ate hominy— finer than white rice—ground in a mill—colored and packed in a tin— stuff that was never in the mouth of a cow—made out of whitewash, the devil knows how! Dairy, hatched and weak in the legs. — Pass me the eggs, Brother, pass me the eggs!

I have grown weary of "tailings" and "shorts" said to cure jaundice an "eye-worm" and "warts." Weary to death of their synthetic dyes—copy-right wafers and patented cakes. A weary of "health-food" that leads men to kill. — Bring me my bill, waiter—bring me my bill!

Pains Very Severe

I suffered from womanly troubles which grew worse and worse as the months went by. My doctor, Dr. H. Cantrell, of R. P. D. 8, Greenville, Georgia.

I frequently had very severe pains. These were so bad that I was forced to get to bed and stay there. It seemed to me my back would come in two.

CARDUI

For Female Troubles

I thought about for a while, but my health was so bad I would have to stay out all the time. This year on till I got so bad I didn't know what to do.

One day I read about the merits of Cardui, and as I had some friends who had used it, I bought a box. I thought I would try it. I began to get better after I had taken half a bottle. I decided to keep on and give it a thorough trial and I did. I took in all about 12 bottles and now I am perfectly well. I do not suffer any more. I do so all my life long.

At all times.

A \$2,000,000,000 WORD. NATURE IN NO HURRY. ONLY HUMAN BABIES.

Mr. Woodbridge, new head of the Advertising Clubs of the World, says newspapers are the "pre-eminent advertising medium for selling or merchandising quickly."

To the real business man it is more than that. It is the ONLY advertising force that can BUILD UP A NAME. Reputation is Reputation.

And only newspapers can give a REPUTATION the REPETITION that creates value. Dollars put into brick, mortar, steel and glass will tear down. Money invested in advertising, building up a name WORTHY to be advertised, will outlast all your factories.

Ford's "Motorcycles" perhaps "are worth fifty millions." The one word "FORD" is worth at least TWO THOUSAND MILLIONS.

South Africa, land that produces gold, returns to the gold standard, imitating old Mother England. Down there, below the equator, under the hot sun, tens of thousands rush to a new gold field. About ten times as many blacks as whites are in the rush. But needless to say, when the dust settles the whites will have the gold dust.

What would happen to the gold standard and the world's finances if this new gold field should suddenly multiply by two, or ten, or twenty the world's gold supply? That, however, will surely not happen.

All through the ages, while men have cut each other's throats to get them, gold and silver have maintained their value, based on scarcity, with slight fluctuations. Providence seems to have arranged that for its mysterious reasons.

This is the only country that

has any supply of helium gas worth while. We get it after it has leaked up through the earth and in pools of natural gas.

According to Dr. Elind, chief of the Bureau of Mines, it takes 20,000,000 years for helium to leak from minerals and rocks and some within our reach.

Many things happen in science that couldn't happen if this earth were only 6,000 years old, as was once believed. It took millions of years for evolution to change a creature as big as a fox, with seven toes, into the horse of today.

It takes 20,000,000 years for helium gas to become available. It will take our sun 200,000,000 more years to cool off.

Dean Inge, who doesn't like to be called "gloomy," is in London, describing America.

He says our "rushing energy is mostly pass" and the language "is spoiled for something like the English language. On the whole the dean is friendly.

In one of his essays he tells you that when St. Paul thought he was inspired he was really suffering an attack of epilepsy.

If St. Paul could stand that, we ought to be able to stand criticism of our Yankee language.

In Pennsylvania, William Caverly, fifteen years old, and a member, has been sentenced to jail in the electric chair. The sentence wound up with "And may the Lord have mercy on your soul."

The reporters thought the boy would be a little at that, and at the words about "Death—electric current—passed through body—will die."

The boy smiled as he left the court, and in five minutes later, in his cell, he was playing a regular game "Katarina," in his phonograph.

Fred Lennie, warden in charge of the young criminal, said, "Listen to that music. He certainly knew what it's all about." You may truly say the same of a system of "justice" that sentences to death a noble-minded boy of 12.
