THE ANNUAL SIGHT SEEING TRIP

Economy Nets \$723,323

Economy was responsible for the lion's share of the \$1,269,824 surplus. Here are the figures:

\$723,323—surplus due economy. Prosperity Nets \$546,496. But prosperity gave the state half a million dollars that was not less pleasing because it was unlooked for.

Here are the figures: \$12,972,184—actual revenue. \$12,426,588—estimated revenue.

\$546,496—surplus due prosperity. Now lets add the figures another way and see if they "prove".

\$723,323—surplus due economy. \$546,496—surplus due prosperity. \$1,269,824—the surplus itself.

How Taxes Came Through Other interesting figures presented by the governor show just how the property share of the surplus accumulated from revenues from various sources compared with estimates. Here they are:

Tax Income	\$206,000 plus
Insurance	106,000 plus

Schedule C	1,000 minus
Insurance	169,800 plus
Bus	167,000 plus
Sec. State	97,000 plus
Gov.'s office	4,000 plus

Other revenue sources which exceeded their estimates were the interest on the bank balance which exceeded its estimate by \$120,000, and income from the state's prison which was \$25,000 greater than had been anticipated.

President Hopes That Americans Abroad Will Be Good Do Not Criticize

Paul Smiths, N. Y., July 27.—President Coolidge hopes that Americans abroad will make allowances for conditions in the foreign countries they are visiting and will not indulge in any unwarranted criticisms or any incriminations.

The position of the president who was made clear in the matter at the executive offices today without, however, any direct order being made to the demonstrators that have occurred against American tourists in France.

The desire of the United States, it was said, was to maintain friendly relations with all countries and the belief was expressed that the attitude of irresponsible persons of the United States for foreign countries should not be treated too seriously.

It is necessary, it was added, for Americans abroad to realize that at this time people of some other countries are in a difficult situation, and it should be the part of America to view their difficulties with sympathy.

Some American tourists it was said are of a somewhat bumptious nature and if that type obtains some education and discovers that there are other people in the world who are entitled to some consideration, not much harm will be done.

It is not a reasonable type of American that should be abroad, but if they are, it was stated, they should be treated as such.
