Warner Morgan Reports He Was Robbed of \$250 Last Night on Highway By Tio; Two Women Are Arrested Soon After Crime and Jailed.

Kinston, Nov. 17-Held at the point of a pistol, Warner Morgan, of Greenville, last night was robbed by three auto bandits who drove their machine into the middle of the highway near Kinston and relieved him of \$257.00 in cash. Two members of the trio were white women, the victim told police, and the other was a negro man. The latter covered him with the pistol, while the women searched his pockets for the cash, Morgan said.

Marie Short and Lucille Johnson, were arrested a few minutes after the hold-up when Mergan identified them as the negro's companions.

The motorist was stopped about four miles from Kinston, where the Greenville and New Bern highways connect. He told local police officers he was driving to Kinston, when the machine drove into the middle of the highway, turned sideways, forcing him to stop his machine.

After being robbed Morgan trailed the car to South Kinston, and the two women to a house in that section. He got in touch with police who went

with him to the house They were arrested and placed in jail in default of a \$500 bond for their appearance in County Municipal Court Monday. No trace of the negro was found. The women stoutly deny any connection in the affair. Morgan declares he is positive that they were the negro's companions,

The robbery, which took place about clock, was a boldly enacted affair. The two women are well known charactors in polce circles, having been up before on other charges.

Asks Increase of Cool Million on Public School Equalizing Fund; Says No Burden

> Raleigh, Nov. 18 .- The theory that the public school equalizing fund, however large, is not a burden on the State because it relieves tax burdens in counties not as wealthy as others, was presented to the Advisory Budget Commission Wednesday afternoon by A. T. Allen, State Superintendent of Public Instruction, as he asked for an increase of a cool million dollars in the fund. Mr. Allen asked that the fund be

> increased from its present status of \$1,500,000 a year to \$2,500,000 a year for the next two years. The fund is for the purpose of stimulating educational effort in North Carolina and of relieving poorer counties of burden of the law imposed duty of maintaining a six months' school.

In his request Mr. Allen was even more conservative than-one member of the commission, N. A. Townsend, of Dunn, who recently declared in an interview that he favored an equalizing fund of three million dol-

Mr. Allen declared that \$200,000 of the additional mission requested should be set aside to stimulate the adoption of eight months school terms in counties which do not now have the eight month term.

Under this plan Mr. Allen stated that he believed that the number of countles supporting an eight months minimum school term would be inceased from eleven to thirty-one.
