Turn the key! and your Buick is Double-Locked No lock could be safer! One turn of the key locks both ignition and steering wheel. But merely turning off the ignition does not lock the wheel. You may shut off the engine and coast, if you like, and still have your car under perfect control. And no lock could be more convenient! It is illuminated and located within easy reach, where the steering column meets the dash. The Buick double-lock is an exclusive Buick feature—one of many important refinements which characterize Buick for 1928. HOME TOPICS VOL. I. FRIDAY, SEPT. 23, 1927 No. 29 FARMVILLE FURNITURE COMPANY Farmville, N. C. "The Home of Reliability" Phone 65 Now that we have cooler weather, we hope that cotton and tobacco will sell better and that we will all feel better about the out-come of our prices. This September has been the hottest we have experienced and the change is indeed welcome. It is well to begin thinking about the old heater. Are the things in good shape? Will it pay you to use it again this winter, or will it be economy to buy a new one in case you do need a new heater, we can't say too much about our line of parlor, bedrooms and heaters. A parlor furnace will save your pipe and at the same time give you some more satisfactory repairs. We have just received a car load of Phillips and Buttorfs heaters and book stoves including the Black Diamond. A number seven cast-stove for fifteen dollars. A number eight for twenty dollars and a Black Diamond range for fifty dollars. Senator Tzorne from Detroit, said over radio, that he got hold of a copy of "The Dearborn Independent" and after reading it through, sent by the snap to get the car scrapped out to keep it from knocking. New furniture is arriving daily. Come in to see us and the new goods. We have some very good values in bedroom and living room furniture.
