

Our Practical Pattern
No. 1168

Of course, you'd like to have this smart sports dress in your wardrobe. The clever vestee and belt effect is both new and "different," while the dress itself is of the type that is suitable for any daytime occasion. Make it up in any light material you please, and in any color, but we suggest something easily laundered to preserve that fresh appearance. Washable flat crepe, with bands, belt, cuffs and bow of satin ribbon to match. May be obtained in sizes, 16 to 44. Size 36 requires 3 1/3 yards of 40-inch material and 5 1/2 yards of satin ribbon for trimming. No dressmaking experience is needed to make Design No. 1168 if you use these patterns. Patterns will be delivered to any address upon receipt of 25c in cash or U. S. Postage. Always mention size wanted. Address: Pattern Department—this newspaper.

FIT YOUR FEET AND POCKETBOOK with TANNERS SHOES

Ohio Smile Girl

Miss Thelma Jones, 19, of near Palmyra, Ohio, a farm girl with a most engaging smile, went down to the state college at Kent, O., to study to become a teacher. Right away she won the "Smile Girl" contest.

Trees slightly damaged by field mice will usually recover soon if the injured parts are completely covered by mounding up soil around the bases, or if paint or other material is used to prevent the wounds from drying out. When the injury is severe or the trees are entirely girdled, bridge grafting should be resorted to.

There is no foundation for the widespread notion that fish is particularly valuable as a brain food. The idea seems to have originally gained headway because fish was supposed to contain relatively large proportions of phosphorus. There is, however, no experimental evidence to warrant the assumption that phosphorus is any more essential to the brain than nitrogen, potassium or any other element that occurs in its tissues. Various other foods furnish a higher proportion of phosphorus than fish.

Less than a pound of tea a year per person is consumed in the United States. For years the tea drinkers of the nation seem to have been turning gradually from green tea to black tea, but in the last year green tea importations increased slightly and black tea declined.

"As a broad conclusion," says W. S. Greeley, head of the forest service in the U. S. department of agriculture, "the forest service has tremendous faith in the commercial promise of

timber growing to American land-owners. The law of supply and demand is working steadily to create timber values which in large portions of the United States will pay fair returns on forestry as a business. The economic history of other countries which have passed through a cycle of virgin forest depletion similar to that which the United States is now traversing points to the same inevitable conclusion. The time is fast approaching when forestry and forestry alone, will supply the enormous quantities of wood demanded by American markets."

Floor Varnish
that wears

THERE are only two reasons for varnishing a floor—to protect the surface of the wood—to add beauty to the floor. Therefore a floor varnish must have those qualities which will withstand the most severe abuse without marring and still retain its elasticity and toughness to act as a protector. Pee Gee Floor Varnish has proved its worth in thousands of homes—there is no better varnish made.

Telephone

when you want that next job of **Printing** You will get first-class work, and you will get it when promised, for having work done when promised is one of the rules of this office. If you prefer send the order by mail or bring it to the office in person. **Let Us Show You What We Can Do**

Leaflet 6-L of the U. S. Department of Agriculture will tell you all about the experimental fur farm of the biological survey at Saratoga Springs, N. Y., and when it may be visited.

SECURITY CEMENT

Security Cement has helped BUILD this community. As concrete highways have taken the place of muddy rutted roads, as permanence has replaced less durable structures—so has Security Cement served the community in its development. For years Security Cement has been the choice for every type of building. Made nearby at Security, Md., it is promptly obtainable in any quantity. The same honest quality and service that have made Security so dependable in the past, are in the Security Cement we sell you today.

Ride Plane's Tail

Vincent Taylor, 17, of Hackensack, N. J., in helping an air-mail pilot straighten away a plane for a night flight caught his hand in a strut and was taken aloft on the tail of the plane where he rode for 30 miles. The pilot was unaware of the boy's plight.

Dull Headache and Suggish Feeling

"We are a healthy family and haven't had to use much medicine," says Mr. J. H. Adams, of Bishop, Ga. "But I have found it necessary to take some medicine."

"I had headaches. My head felt dull, and like I couldn't hold it up."

"I had a bad taste in my mouth, felt sluggish and tired."

"I bought some Black-Draught and took a few doses, and I got good results. I felt so much better. My head cleared up. I was hungry and wanted to get out and work."

"Black-Draught has proved satisfactory and we have used it ever since."

Thousands of other families have had equally satisfactory experience.

Sold everywhere in 25 cent and 50 cent bottles.

Just because the Ford car is a glutton for punishment is no reason why it should not have proper lubrication

Your Ford will give you better service, cost you less for repairs and last longer if you lubricate it with "Standard" Motor Oil for Fords. Ask for it by name. Then you're sure of the best Ford oil money can buy.

STANDARD

An Open Letter to the Editor
From the President of General Motors

LAST SPRING I wrote you that my belief in the country newspaper had led us in General Motors to decide to advertise our products together in the small-city press of the country. The returns from the series of the messages recently published have justified that faith; and we shall continue to advertise in your community through your newspaper this fall.

It occurs to me, however, that some of your readers may be asking: "What is General Motors?" and "Why is General Motors?" These are fair questions and I should like to answer them as frankly as I can.

General Motors was organized some years ago on the theory that a group of large companies, working together, could render a better service than they could separately. In this we simply applied to industry a principle that is as old as civilization as regards the human family and human progress.

Original members of the General Motors family were Buick, Cadillac, Chevrolet, Oakland and Oldsmobile, together with the Delco-Light Company and other well-known companies manufacturing automotive equipment. By joining together their resources, we were able to establish great Research Laboratories, a 1243-acre Proving Ground and the GMAC Plan of credit purchase; to effect vast economies in purchase and manufacture and distribution; to assure and maintain the quality of every product in the General Motors family.

For the General Motors family principle proved itself in practice.

The best answer, I think, is to compare the Chevrolet, Buick, Cadillac, Oldsmobile and Oakland of today with the models of five or ten years ago.

Then add Pontiac, a General Motors creation. Add LaSalle, another General Motors creation. And then consider how General Motors has developed these cars into a complete line, within which any family may find a suitable quality car at the price it plans to pay: "A Car for Every Purse and Purpose."

Another example is Frigidaire, the electric refrigerator. General Motors had the resources to spend millions to develop a satisfactory refrigerator, and then to apply to its manufacture the same processes which have increased the utility and lowered the cost of the automobile.

We believe that this record justifies General Motors as an economic institution. Its products are quality products, first of all. Their prices represent the economies of united effort passed on to the purchaser. In the last year one in each three automobiles chosen by the public has been a General Motors car. The service of Delco-Light electric plants has extended to more than a quarter million homes, while Frigidaire has become the world's largest selling convenience of its kind.

We believe also that the values now offered in the current General Motors products (which are listed below) prove anew that "many minds are better than one" and that a family of companies, working together, can produce results which are decidedly in the public interest and of increasing benefit to the individual family.

Very truly yours,
Alfred P. Sloan, Jr., President
General Motors Corporation
Detroit, September 23, 1927
