

NOTICE OF SALE OF PERSONAL PROPERTY

The undersigned administrator of the estate of Alex Jones, deceased, will offer for sale for cash at the dwelling occupied by the said Alex Jones at the time of his death in Falkland Township, Pitt County, beginning at ten o'clock in the morning of October 6th, 1927, the following described personal property, to-wit:

CHEESE, CHUSE, CHOOSE
Don't Know What Coolidge Meant, But Here It Is
The Oxford Dictionary defines the word choose as follows: "To take by preference out of all that are available; to select; to take that which one prefers, or, in accordance with one's free will and preference."
Two of the numerous earlier English forms of the word "choose," so dramatically brought to the attention of the world by President Coolidge, were "cheese" and "chuse". A sen-

tence from John Wiclif, written in the fourteenth century, says, "What is schal cheese I know not."
"Choose" and "chuse" are used indiscriminately in the Bible of 1615; and in the First Folio of Shakespeare. "Chuse" was the prevailing form in the 17th-18th century, but in the nineteenth it was gradually superseded by "choose".
The expression "Hobson's choice" owes its existence to the story that Tobias Hobson, a Cambridge, England, carrier, who let out horses, commonly forced his patrons to take the horse that happened to be next the

stable door or to go without.
As checks upon big floods, forestry and its allied forms of natural storage take secondary place. Immediate relief must be sought through the skill of the engineer. But behind and supplementing the levees or other structures that must be built we get back to the land. And we should not fail to restore, as far as it may be done, the natural storage and protection from erosion that may be derived from fire free forests and other practical correctives in our every day use of land.

BOYD HOLLAWAY,
Mgr., leading man and owner of the Milt Tolbert Show, takes great pleasure in announcing that his company will be in Farmville, N. C., for one week, soon.

As veal chops have much less fat in proportion to lean meat than other chops, they are likely to dry out considerably in cooking unless protected by a coating of egg and bread crumbs. This is the reason for serving veal chops and cutlets breaded.
Veal will stand a little more seasoning than other meats. Before cooking season with a few drops of lemon juice, a little Worcestershire sauce and onion juice, as well as salt and pepper.

NOTICE OF SALE
Under and by virtue of the power of sale contained in that certain deed of trust executed by Lloyd W. Smith and wife, Della K. Smith, to Miss Alice Hicks, guardian, on the 3rd day of February, 1923, recorded in the Registry of Pitt County in Book U-14 at page 67, the undersigned guardian will on Monday, October 24, 1927, at 12 o'clock Noon at the Courthouse door in Greenville, N. C. sell at public auction for CASH to the highest bidder, the following described tract of land:
Lying and being in the Town of Farmville, N. C., and fronting on the North side of Wilson Street, according to the map of said town, and more particularly described as follows, to-wit:
Beginning at the Southwest corner of J. H. Harris' lot, being the same

lot on which he now resides, and running in a Westerly direction to and with Wilson Street 68 feet; thence at right angles in a Northerly direction 173 feet to T. W. Lang's lot; thence at right angles in a Westerly direction and along with T. W. Lang's line 68 feet to J. H. Harris' Northwest corner, thence at right angles in a Southerly direction along J. H. Harris' line 173 feet to the beginning, being that same

lot conveyed to the said Lloyd W. Smith by B. S. Smith and wife by deed dated November 18th, 1918, which deed is recorded in Book U-10 page 174, of the Register of Deeds of Pitt County, to which reference is hereby made.
This the 22 day of September, 1927.
Miss Alice Hicks, Guardian, Trustee.
John Hill Paylor, Attorney.

The New G-M-R Cylinder Head
EXCLUSIVE ON THE OAKLAND ALL-AMERICAN SIX
provides Amazing Smoothness Silence and Power

Concave curves tend to throw the piston rings into the corners of the chamber, thereby reducing the cooling and causing detonation to occur. Convex curves in the G-M-R Head do the opposite. They defy the piston rings to crowd the wall into the corners where the rings are thereby aiding cooling and reducing detonation.

Deep clearance spaces near the piston rings in the G-M-R Head have been reduced to facilitate the escape of water. Here knocking is further reduced.

The compressive effect of smoke and carbon is illustrated by a spoon held under a faucet. At the left, the water strikes the spoon and is deflected. At the right, the water, like the gas in the G-M-R Head, strikes the bottom surface and strikes straight away.

Everyone who drives the Oakland All-American Six marvels at the smooth and whispering flow of power produced by the new G-M-R Cylinder Head.
Specifically, the G-M-R (General Motors Research) Head accomplishes three results:

1. It reduces "detonation" or spark knock to a negligible factor while using only ordinary gasoline.
2. It completely eliminates roughness or "thump" of an entirely different engine noise.
3. It provides greater power and efficiency because it allows the spark to be advanced to the point of maximum efficiency. (Once set, the Oakland spark remains in proper position since it is automatically controlled.)

The G-M-R Head is only one of the engineering advancements which have created such widespread favor for the All-American Six. Come in for a demonstration of the principles involved!
