Agriculture Facing a Radio Change, Declares Dr. Brooks in Chile; State College Head Speaks at. Santiage, South American Educational Meet.

Santiago, Chile, July 21.-In prepared address which he made journey over two continents to deliver here today, Dr. E. C. Brooks, ways blowing the other way. president of the N. C. State College, declared the problems of the farmer are just beginning.

Dr. Brooks, a member of a group of North American educators, was invited by the Government of Chile to participate in a celebration of the 100th anniversary of the opening of the great Chilean nitrate of sods

Today was the anniversary of the opening of the mines and an impressive celebration had been provided mental and educational leaders of a matter of fashion. If some fas this South American republic and the able leader should start the fashio visitors from the United States.

Other events of the celebration program were a brilliant reception by the Chilean president and congress and the unveiling of atablet commem- ferent parts of the world. orating the date.
