VOL TWENTY-ONE

Speeds Up The Trying of Cases; Informs Officials That Deliberate Delays Would Not Be Tolerated.

His Honor Judge J. Paul Frizzelle, of Snow Hill, in opening his first Court for Pitt County, in Greenville Monday morning, since becoming Superior Court Judge, let it be known in the beginning that he meant to use every influence possible to speed up the wheels of justice, and several times during the first day prodded the minds of both court officials and defendants that the court would not tolerate deliberate delays in the prosecution of any single action.

In his charge to the Jury, as well as his side remarks to the court, Judge Frizzelle made a most favorable impression upon the crowd that packed the court room throughout the opening day.

The grand jury began consideraal instances when court recessed Monday afternoon. Among the outstand- hand over her face, snatched her ing cases before the grand jury is pocket book containing the money, Ballard highway robbery case and the and fled down the street. murder of Henry Abrams in the Belvoir community several weeks ago.

NUMBER FORTY-NIN

Proclamations Issued From Many of Larger Cities Before the King Actually Steps Down; Family to France.

Madrid, April 14th .- King Alfonso, the last of the Bourbons, abdicated at 6 o'clock this evening (1 p. m., E. S. T.)

The monarch, who was born a king and had reigned in the ancient Spanish capital more than a quarter of a century, this afternoon bowed to the sweeping demands for a republic that his subjects voiced last Snuday, and stepped out.

Niceto Alcala Zamora, Republican leader, who not so many weeks ago was in jail for his activities, is provisional president.

Although the king's abduction has been an unquestioned outcome of the political crises for the past few days, it was not until the last moment that he stepped from power.

At 4:45 p. m., Alcala Zamora had found it nesessary to send an ultimatum to the king's ministers saying that unless a republic were formally accepted within an hour the Republicans would not be responsible for the consequences.

The hour went by and then just fifteen minutes after the ultimatum Cause of Act Is Quite had expired the abdication of the king became a reality The announcement was made exactly at six o'clock after a final session with the cabinet in the royal palace. A Republican government, with Alcala Zamora as president, took charge of the ancient and historic monarchy immediately. With the proclamation of a republic at Barcelonia this morning and similar proclamations at Saragoza, San Sebstin and other cities it became a certainty that the king would have to go. All alternoon rumors king actually had abdicated flew thick and fast, but it was until six o'clock tonight that Alfonso's reign came to an end which for many years he had successfully avoided in the face of frequent crises. King Alfonso XIII assumed the throne in 1902 at 16 years of age. He married Prince Victoria Eugenie of England in 1903 and his wedding was marred by an attempt on his life. Early in his reign he showed a disposition to think for himself and to be a king in fact as well as in name. Throughout his reign King Alfonso was harrassed by attempted assassinations and movements against the crown. He appointed General Primo De Rivera prime minister in 1923 with the powers of a dictator but even this did not stem the rising tide of Republicanism. Only recently Unlawful For Automo- he restored constitutional privileges and provided for a parlimentary election program.

of during the day, the majority consisting of charges of robbery, larceny robbery corresponding with those of and actions of a similar nature. The docket for this term contains

several score cases of more or less importance to the people of the community, and hundreds were expected to be in attendance from day to day during the two weeks court.

## SEVERAL FACTORS CAUSED EXISTING FARM DEPRESSION

Unfavorable national and state agriculturial policies, neglect by the agricultiral press and absentee landlordism are three of the main factors causing the present agricultirial debacle in this State, in the opinion of Dr. G. W. Forster, agricultural economist at State College.

From the national stanpoint, , the land policy inaugurated by Alexander Hamilton years ago has had its effect; but, the chief cause, save Dr. Forster, is the poor agricultural leadership, both federal and State, which farmers have had since the World War. Federal leadership has been

especially defective as evidenced by the handling of the international debt problem and the insistence on a high tariff. State leadership has neglected research and extension work in agricultural economics and rural soci-
