Community functions covering a wide field are being planned for cities and towns throughout the state. These will include banquets, joint civic gatherings, style shows, and other features.

A BROADWAY HAPPENING

A horse played a star part right in the heart of New York's theatrical district the other day when it backed into a manhole at 44th Street and Broadway.

Its hind legs went down into the manhole in which two laborers were working ten feet below the street level, and stuck there. Leading the crowd of curious was the policeman on the beat. He looked things over and called the fire department and the police patrol.

Meanwhile the crowd grew until it numbered 3,000 or more people. Those in front offered all kinds of suggestions. The driver of a truck took out a rope, made a sling under the horse's belly, hitched the rope to his auto, started the engine and out came the horse, practically unscratched.

When the firemen arrived they found themselves with nothing to do. The captain of the firemen gave his O. K. to the job and asked the truck driver where he learned how to pull horses out of manholes. "Oh, you have to do things like this out where I come from," was the rejoinder. "I was raised on a farm."

INK, PENCIL, ALCOHOL MENACE MODERN HOTEL WALLS

Science Develops New Stain Resisting Wall Paper to Withstand Present Day Usage

New York, May 15.—While waiting for the operator to connect you with the wrong number, do you indulge your artistic talent by drawing squares, scrolls and grotesque designs on the wall paper adjacent to your telephone? When the tough customer is ready to sign on the dotted line, do you feverishly shake splatters of ink from your trusty fountain pen with eagerness dulling your sense of direction? Have you ever inadvertently spilled a bottle—ahem!—of shaving lotion or a glass—again ahem!—of mouth wash on the wallpaper with the result that a pretty flowered pattern suddenly changes to a Siberian sunset?

If you have in the past—here's news that will bring relief to your aching conscience. Science has harkened to the cry of distress of distraught hotel keepers who have been footing the greater part of America's \$30,000,000.00 wallpaper bill. E. I. DuPont de Nemours & Company, after years of research, have perfected for the United Wallpaper Factories, Inc., a wallpaper that resists every sort of spot or stain that even the most ingenious of careless guests can devise. Several laboratory tests have proven this marvelous new wallpaper to be as resistant to soil as is a night clerk to an uncertified check. This enduring new wall covering has been aptly named Endural.

If your travel's should take you to New York's finest and latest hotel—the new Waldorf-Astoria, or to any other modern hostelry papered with Endural, you can with reckless abandon, and without extra charge, utilize the walls of your hotel bedroom for jotting addresses, and other displays of artistic ability. You can even throw your breakfast at it if the impulse moves you. For no sooner have you forsaken your room, than along comes a chambermaid who quickly washes away all traces of your artistry or temper with nothing more than soap and water. The next occupant is greeted by walls unmarred, undimmed, as fresh and as bright as if they were papered that morning.

Hotel owners estimate that this new wallpaper will lower redecorating costs by millions of dollars annually, a saving service, increasing comforts for guests and, we hope, to decreasing tariffs.

ORDER EASTERN STAR MEETS

The local Order of the Eastern Star met on Thursday evening with the newly elected worthy matron, Mrs. J. W. Parker, presiding, and with an unusually large number in attendance. All obligations for the official year, closed March 31, were reported paid, and a splendid district report was read prior to filing with the district deputy. An invitation to the Grand Chapter session to convene in Elizabeth City June 9-10 was read. The matron of this group will respond to their welcome address on this occasion. J. H. Paylor, worthy patron, addressed the order complimenting it for the good attendance and bespeaking the support and cooperation of the members for the ensuing year.

The following committees and their heads were appointed at this time: Masonic and Eastern Star Home, J. G. Smith; Oxford Orphanage, Mrs. D. E. Oglesby; Sick, Mrs. J. T. Bundy; program, Mrs. T. W. Lang; Finance, J. H. Paylor.

The program consisted of a reading, "Tribute to Mother," by Mrs. T. W. Lang, and an account of her recent visits to Charleston Rainbow Assembly, and Grand Chapter of Florida, was given by Mrs. J. W. Parker. Following the decision to study the "Questionnaire," sent out by Grand Chapter and concerning the ritual and government of the Order, with a view to securing certificates, the first lesson was discussed at this time.

PAINS QUIT COMING "When I was a girl, I suffered periodically with terrible pains in my back and sides. Often I would bend almost double with the intense pain. This would last for hours and I could get no relief. "I tried almost everything that was recommended to me, but found nothing that would help until I began taking Cardui. My mother thought it would be good for me, so she got a bottle of Cardui and started me taking it. I soon improved. The bad spells quit coming. I was soon in normal health." —Mrs. Jewel Harris, Winnsboro, Texas. Sold at All Drug Stores. CARDUI Helps Women to Health
