LITERARY CLUB STUDIES

PIONEER WOMEN OF TODAY

Mrs. G. S. Vought was hostess at a splendid meeting of the Farmville Literary Club on Wednesday. Miss Annie Perkins presided and led a discussion of the Federation Meet to be held in Raleigh in May. The Club voted to continue contributions to the Sally Southall Cotton Loan Fund and approved action of the president in wiring legislators concerning 8 months school bill. Mrs. G. A. Jones was appointed to represent this organization in the swimming pool project.

Treating the book "Plain Anne Ellis" as a revelation of the deprivations and hardships of early western life and the author, Anne herself, as a heroine of the pioneer West, the talk of Miss Annie Perkins, in continuation of the club's study of "Famous Women of Yesterday and Today" was most interesting, reviewing the life of Martha Berry and the establishment and progress of her school, was very inspiring.

A delightful salad course was served after adjournment. Mrs. J. Q. Beckwith, Jr., and Mrs. Leroy Rollins were especial guests of the hostess.

JUNIOR WOMAN'S CLUB

Members of the Junior Woman's Club were delightfully entertained on Monday afternoon by Mrs. G. S. Vought, who has been sponsor of this group since its organization. Spring flowers decorated the living room.

Reports of the various committees were heard during a business session, presided over by Miss Edna Foust Harris, who announced the program; a talk on Sidney Blackmer, North Carolina actor, by Mrs. Harry Lang, who also a native of Salisbury, told many interesting anecdotes in connection with his early life, and an excellent paper on Mary B. De Graves, by Miss Elizabeth Davis.

One of the most enjoyable features of the meeting was a layette shower, gifts being presented by the members for the Children's Home in Greensboro, the project for Federated Junior Club this year.

A delicious frolen salad, olive sandwiches and pinwheel cookies were served by the daughter of the hostess, Miss Natalie Vought and her house guest, Miss Jean Lassiter of Spring Hope. In addition to the club members Mrs. Vought had as guests, Misses K. Boatwright and A. Coggins.

Guests included: Claude Bland of Greenville, Wesley R. Willis, John Stancill, J. H. Taylor, Chester Smith, E. L. Barrett and J. W. Joyner.

WARNING AGAINST USING WATER CONTAINING HARMFUL IMPURITIES FOR BATTERIES

Although distilled water is not regarded as the only water which can be added to batteries care should be exercised that impure water is not used for this purpose according to the warning issued to car-owners by Farmville Service Station, the local Exide Dealers.

"There seems to be some slight confusion regarding what is meant by 'pure' water for batteries," states Mr. W. G. Wooten. "We often have in mind the warnings issued by boards of health to boil our water so as to kill impurities."

"Boiling water for drinking and cooking purposes is to kill disease germs. Water used for batteries can be full of disease germs if it is free of chemicals which harm the plates of the battery and cause it to wear out before its time. Boiling the water, therefore, will not remove the elements that are harmful to the battery, although it will make the water safe for drinking."

"Filtering water also, will not necessarily remove the impurities harmful to batteries. Water for batteries must be handled carefully, that is, kept only in glass, earthenware, rubber, lead or wooden receptacles. In the free battery service we render we use water that has been found safe for battery use."

Farmers of Lincoln County are using Governmental seed loans as about the only source of credit in the county at this time.

"Optimism Will Win Again"

This is the note among skilled observers who have been watching business conditions in America for several months past. It is the note that business men should carry into their daily contacts.

Improvements, even though slight, are reported in some of the leading trade indicators. The unfounded hysterical condition which has prevailed for some months, is showing signs of subsiding.

Business on a sound foundation—business backed with skill, with vision and with courage—can look to a "silver lining" in the future.

Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't take for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Reset a substitute. 25c at all stores. © 1931, C. M. Co.
