Accident Occurs About NRA a Quarter of a Mile From Lumberton; and Several Occupants Heads Are Cut Off From Body. Johnson

Lumberton, N C., Aug. 22-Seven persons were killed to day when a tobacco truck carrying twelve men and boys from Deep Run, Lenoir county, crashed into a Seaboard Airline passenger train near here.

Three were killed instantly. Two died while being carried to hospitals and two died soon after reaching the hospitals. The other five on the truck were injured, four of them seriously.

The dead

Jesse Davenport, 26; Louis Davenport, 22; Clyde Taylor, 12; Walter Smith, 20; Burchard Smith, 23; Dick Harper, 19, and Wesley Davenport 13, all of Deep Run.

The injured:

Haywood Smith, 27, severe lacerations; Woodrow Taylor, 20, head injury, probably fractured skull and fractured arm; Millard Davenport, 50, probable skull fracture; Furnie Davenport, 53, serious head injuries and Zeb Brown, 27, serious head injuries. All live near Deep Run.

The meeting of the Farmville Rotary Club which was held on August 22, 1933 was one of great interest to all the members and one that was packed with useful information. W. A. McAdams was program chairman and after the disposition of the routine business he turned the entire program over to John T. Thorne for an Tells Retail pen forum discussion of the NRA and the manner in which it affected the Dealers Not to Coun- growers of tobacco of the bright leaf Exorbitant type.

After a few introductory remarks John went into a chronological account of a conference which he attended in Washington, D. C. There were six representatives of the bright leaf tobacco growers at this conference, three from North Carolina one from Virginia, one from South Carolina, and one from Georgia.

The conferees discussed throughly with the Tobacco Administrator the feasibility and possibility of acreage reduction for the crop which is to be harvested in 1934. This acreage reduction program is to be used as a means of bringing about a price par-

ity for all types of bright flue cured The Recovery Administration astobacco. According to the figures serted that so far as speculative price compiled by the Administrator. Chatham Woman Says **Man Found Murdered** Here in 1926 Was Her Husband.

Of Bostern Caro

Raleigh, Aug. 23-The body of an inidentifield man, stabbed and left on the railroad tracks, which was found near Raleigh over seven years ago, has been established as that of George Washington Miles, of near Goldston, Coroner L. M. Waring announced yesterday.

mane in any "Ku Klux Klan" tactics Mrs. Annie Mae Hillard, of Chatham county, stated in an affidavit turntracts. It was emphasized that the ed over to the coroner that she was covernment would take core of those convinced from descriptions given her farmers whom one official called of the body that it was that of her former husband, who came to Raleigh two days before the body was found here. The body was found near the Norfolk Sourthern Railroad bridge over Marsh Creek, three miles north-east of Raleigh, on October 27, 1926. Coroner Waring found knife wounds near the heart and the man's throat had been cut, he said. The man had been left on the tracks and a train had mutilated his head and cut off one leg. No clue has been uncovered which would lead to the identity of and courteous treatment received, the the murderer. Yesterday affidavits from Mrs. Hillard, E. B. Wilkie, a friend, and Mrs. Donnie Graham, sister of Miles, were submitted to the coroner, all stating that the description of the body found here fitted that of Miles. Mrs. Graham lives in Cheraw, S. C. Since the disappearance of her husband, Mrs. Hillard married again, after obtaining a separation. Hiles left Goldston, in Chatham county, on Oct. 25, 1926, for Raleigh, where he was to take a job as a mechanic, Mrs. Hillard said. He had taken from the records of the U. S. \$1 and some change when he left. The body found here had \$4 in bills and are given here only for the puron it. Mrs. Hillard employed D. M. Tyner, Goldston lawyer, to look into the case and Mr. Tyner has been working on cord, in our opinion, is a substantial It was indicated that Mrs. Hillard of the Farmville Market among the it for some time. or members of Miles' family may request that the body be turned over t.) them for reburial. The body is buried in Oakwood cemetery here.

THESDAY, AUG. 29

Knott's Warehouse Has Been Enlarged, adding 12,000 More Feet Of Floor Space; A. C. Monk & Co., Recently **Built and Equipped** Another Redrying Plant Here, Doubling Their Capacity; W. B. Lea & Co., to Operate old Cheatham Factory This Season.

Farmville's business men are this week making preparation for extending to all tobacco growers attending the opening of the Farmville tobacco market next Tuesday, Aug. 29th., a most hearty welcome. Many of whom will be on hand at the warehouse to greet them in person.

Tobacco town, after extensive enlarging of houses and factories to take care of this season's heavy crop, is now in readiness for possibly the largest opening in the history of the market, and prediction is already afloat that possibly a third set of buyers may be necessary to take care of sales, due to the increasing popularity of the Farmville Market. Farmers plainly tell you they like to sell tobacco in Farmville because they ike our warehouses (and there are none better in the warehouse business), they appreciate the attentive friendly consideration of all the buyers, sales forces and office men, and most of them express the belief, they make better sales on the Farmville Market. It is a true fact, over a period of years, Farmville heads the list of the big market class in highest averages. In 1931, Farmville led Greenville by 15c a hundred; Wilson by 50c, and Kinston by 72c; and, again last season, Farmville led Wilson by 27c, and Greenville by 65c a hundred. The above figures are true facts and N. C. Department of Agriculture, pose of showing the standing of the Farmville Market among other markets in the New Bright Belt. This rereason for the increasing popularity tobacco growers of Eastern Carolina. Among the outstanding improvements made here recently in the interest of Farmville Tobacco Market are, first, the extensive enlargement of the redrying plant of A. C. Monk & Co., large independent tobacco buyers and dealers. During the past few months their This firm, under the personal supervision of A. C. Monk, has gradually grown from one of the so-called little concerns in the tobacco business to what is now known as one of the big countries. Mr. Monk came to Farmville in the early days of the market, and is now considered one of its greatest assets. Another great advantage this season over last is the coming to Farmville of the W. B. Lea Tobacco Co., of

The truck was owned by J. R. Davenport of Deep Run. Haywood Smith was driving it, and the men were carrying the tobacco to the auction market at Fairmont.

Smith was the least injured and at a hospital was able to say he remembered the names of only a few on the truck. He carried the names of others in a notebook in his pocket.

He said his view of the train was obstructed by houses and that he did not see the swiftly approaching train until it was too late to prevent a crash.

The truck was dumped into a ditch after the impact.

Three ambulances were brought into use to take the dead and injured to hospitals and funeral homes.

Almost instantly hundreds of people gathered about the scene, Capt. Buck Williams was in charge of the train, which was No. 14.

This Week's Tragedy

During the coming week a ghastly tragedy will occur.

Two hundred or more lives will be destroyed. Property valued at about \$8,000,000 will be reduced to ashes. Because of it, business will close, men will lose their jobs, taxes will increase.

You won't hear much about it-because it won't happen all at once. It will be divided among a thousand communities, a thousand different kinds of property. The destruction of a great factory or a portable garage will all contribute to it.

The world remembers the great fires-the Iriquois theatre, the Cleveland hospital, the little school at Collinsville. What the world does not realize is that these fires are no worse than those that take place every week in this so-called civilized world, and which, by cumulative action, even exceed these single disasters in loss of half a billion dollars in property Carlos Manuel de Sespedes. values.
