New Terraplanes And Hudsons Offer 1934 Sensations

First Showing Of The
New Models in Raleigh
Monday Witnessed by
Large Number; To Be
On Display Here Soon

Mr. B. O. Taylor, of the Farmville Motor Co., Terraplane and Hudson dealers for this vicinity, has just returned from the Terraplane and Hudson dealers' convention held by Tilghman Motors, Inc., Raleigh, distributors for this area.

"Never in my history as an automobile dealer," said Mr. Taylor, "have I attended a more enthusiastic trade meeting than the Terraplane and Hudson meeting held in Raleigh, from which I have just returned. The new Terraplanes and Hudsons for 1934 are roomier, larger and finer in appearance than their predecessors, and in spite of the fact that they are bigger in every respect will out-perform even the famous cars of this line for 1933.

"The cars are ultra-modern in every respect. They incorporate features which are distinctive of this line alone. We believe that we can promise the people of Farmville and this section an interesting exhibit with the arrival of these new models which are due here shortly.

"Although these cars are bigger and more luxuriously appointed than ever, not one iota of their performance ability has been sacrificed. In fact, the contrary is the case.

"After viewing the 1934 Terraplanes and Hudsons and listening to the sales executives who spoke to us, I find it difficult to restrain myself from breaking all release dates on this material and telling the public in this vicinity all about these new cars. However, I am duty bound not to give more than just a few hints.

The features which are included in these new cars represent the most advanced tendencies of the day and incorporate many ideas which I believe will be exclusive to the Terraplane and Hudson line.

"Our order for 1934 demonstrators has been placed, so that in just a few days we will be able to disclose this new line to the people of this section of the State. All we can say at this time is, keep your eye on our showroom and be ready for a treat when the day comes to exhibit the new Terraplanes and Hudsons."

Expert Figures In Murder Case

Outcome of Trial May
Turn on Evidence of
Pistol Ball Specialist

Greenville, Jan. 25.—The fate of Heber Ayers, 30-year-old Greenville township man, on trial for his life in criminal court here today for the alleged slaying of Floyd Cox, apparently hangs on the testimony of Lieutenant Flower, ballistics expert of Washington city, who remained on the witness stand this morning and most of the afternoon.

It was Fowler who reported that two bullets taken from the body of Cox, who was believed slain for money he was said to have had in his pockets, were fired from the pistol allegedly found in possession of Ayers.

Lieutenant Fowler demonstrated the methods used by his department in checking up on projectiles fired from pistols, and gave a demonstration before the jury.

The order for the demonstration was issued by Judge Frank A. Daniels to establish whether or not Fowler could make good his contention that bullets fired from all guns had different marks. Bullets were fired from two guns in full view of the jury, Fowler to report later result of the test.

The case which was begun yesterday morning, will consume the greater part of tomorrow.

Immediately following conclusion of this case, Allen Carson, 25-year-old Bethel filling station operator, is to go on trial for his life, charged with slaying E. L. Simons, at Bethel, the middle of last November. The grand jury returned a true bill in the case yesterday and Carson was ordered to appear for trial tomorrow. He has been out on bail since the shooting.

Kinston Murder Trial Delayed

Kinston, Jan. 24.—The trial of Fred Wade, Tom Williams and Leon Williams, charged with murdering Bennie Moringo, alleged bootlegger, near La-Grange last month was continued today until the April term of court. Eddie Moringo, a relative of the slain man, is charged with being accessory to the slaying.

MILE-A-MINUTE MARTY

We think a lot of the used cars we sell. If we didn't, we wouldn't sell them. We have a real reputation for square dealing to live up to!

Looks for Passage Of Seed Loan Bill

Warren Says This Needed
In Addition to Credit
Bodies

Washington, D. C., Jan. 24.—Representative Lindsay Warren said today that he felt confident that a seed loan bill would be passed by Congress and signed by President Roosevelt. Senator Smith, of South Carolina, and Representative Warren were the authors of the Seed Loan Act in 1933 and on the opening day of the present session they introduced the same measure. Mr. Warren said that \$57,000,000 was loaned to farmers last year. He thinks that the new measure will carry about \$30,000,000 and that there is a probability that the maximum loan to individuals will be reduced, and thinks it is a case of getting this or nothing. The First District member says that the seed loan and the tobacco agreement saved Eastern Carolina last year and that the loan is just as necessary this year. The administration has set up crop production credit corporations to take the place of the seed loan, but Mr. Warren has impressed upon the Department of Agriculture that this will not take care of the man most in need. It is thought here that if the seed loan bill goes through this year it will be the last that will be passed by Congress.

Libby Holman Again Heads For The Stage

Philadelphia, Pa., Jan. 25.—Libby Holman, "torch singer," who was widowed by a bullet which killed Smith Reynolds, heir to tobacco millions, is studying dramatics for what is believed to be an intended Broadway comeback.

In a secret class of twelve pupils, she is treading the path which has been beat to the door of the Hedgero Theater in the beautiful little rose valley twenty-five miles outside of Philadelphia.

Fire Damages Wilson Plant

Wilson, Jan. 24.—Fire, originating around one of the planers on a lower floor, gutted the Williams Lumber Company's lumber and Woodworking plant here last night. Company officials estimated the damage at \$40,000 and said insurance covered part of it. The origin of the fire has not been determined.
