House Committee Votes For Market Control Measure

Fletcher-Rayburn Bill; Reds Oppose Anyone Buying Stocks Would Have to Put Up 45 Per Cent of Value in Cash

Washington, April 18 .- Leaving in a sharp tooth favored by President Roosevelt but opposed by stock exchanges a committee of house members today voted forward the Fletcher-Rayburn market control bill.

Fresh upon renewed White House advocacy of a bill "with teeth" it was decided to recommend to the full inter state commerce committee the inclusion of a 45 per cent marginal requirement. That is anyone buying stocks would have to put nizations by the newspaper for indus- in their efforts to help us help our up 45 per cent of the value in cash.

On the re-employment phase of tention to give preference to Amerithe administration program meanwhile it became known that "federal remainder of the present five year mortgage associations" will be ask- plan. ed of Congress to advance funds for home building and modernization. Representative Smith, Democrat, ed into a debt settlement. Washington, gave details of the plan to newsmen.

The President is understood to regard it as impossible to do justice in any attempt to pay off depositors in closed banks such as proposed in the McLeod bill.

He has, however, directed the officers of the Reconstruction Corporation and the treasury to seek a more liberal policy in making loans on assets in closed banks.

He feels this is the only sound and just solution of the problem.

It was pointed out at the White House that in the case of two banks which closed at the same time in the same town one might have been in a position to pay off its depositors
