Uncle Watt Goes To The Convention

What a wonderful thing is HOT WEATHER. It is a blessing for instance, we can live without bungee-some dressing, (apropos) in these modernistic times, and swimming pool and bathing suits etc. are a-galore. Wonder how long before motor-torvated cars will add shower baths or some oil concern will include such a device in their filling stations—for the perferred tourist—without raising the price on gas.

But as I started to say, last Monday morning Commander S. M. Pollard, Past Commander Watt Parker of the James Thomas Smith Camp No. 17, Spanish-American Veterans, accompanied by Mr. and Mrs. Robert Blaylock, of Washington, D. C., hied off for Fayetteville to attend the 11th convention of the state department of N. C. United Spanish War Veterans, arriving there at 10:15 a. m., where several hundred U. S. W. V., a very few Civil War vets and the Auxiliaries of these organizations, were assembled in a crowded auditorium speech making, passing resolutions, etc., until Governor Ehringhaus and staff of State arrived, the Governor making the principle speech of the occasion.

Of course there were legislators, senators, captains, majors and brigadiers, including Commander of Fort Bragg and staff, and after lunch we all proceeded to Camp Bragg, which gave the Governor seventeen guns, which is his salute; the parade for review lead by the one hundred piece band and 1800 troops stepped off with their usual pep and dignified quick step. American soldiers have always won honor for their efficiency, not only in marching but also in the manual of arms. The light

artillery and machine guns mounted on mule back, all made quite interesting scenes to the old boys of 1898-36 years ago—many of them has not seen a company of soldiers nor heard cannon fire since being mustered out of the most altruistic war the world has ever known. Yes, it was a war which buried the hatchet of sectionalism, laid down the bars of jeopardy, and set an oppressed people free, crushing the selfish, imperialistic fist of an imperialistic foreign foe and caused other jealous nations, who then were standing aloof, waiting to see one slender thread in the strand of war snapped in the United States, when they would cast their heavy anchor on our shores and tear down the stars and bars of OLD GLORY—then our great and glorious United States would have been no more, but by the famous volunteer service of the youths of 1898-99, the flag of the free floated then while the world marvelled and today stands aloof. Give men! men, who are willing to die that others might live. Let us not forget who opened the Panama Canal, freed Cuba, Puerto Rico, Philippines, butied the yellow fever's deadly germs, and annihilated the black Bubonic germs, eradicated the last foreign foe's grasp upon America's golden peaceful shores, and made her borders a place fit for sane and safe humans to dwell. So mote it be. A Spanish-American War Vet. WATT PARKER.

P. S.—If J. H. Paylor is elected may he add another feather to the crown of justice, peace and prosperity!

CHEVROLET COMPANY MOVES HEADQUARTERS

Of interest to citizens of the community will be news of the removal of Chevrolet headquarters this week, by the B. and W. Chevrolet co., of which R. A. Parker is the popular manager. New headquarters have been established in the Beaman building on Wilson street, formerly occupied by Hardy Transfer Co. Recent renovations and remodeling rendering it up to date and most convenient for the display of new models, storage purposes, and entirely adequate for the efficient repair department, maintained by this firm.

Startling Results of the Big Dust Storms. Why the Rich Corn and Wheat Lands of the Middle-West May Become Almost as Barren as a Desert. An Authoritative, Illustrated Article in The American Weekly, the Magazine which comes on July 1 with the BALTIMORE SUNDAY AMERICAN. Buy your copy from your favorite newsboy or newsdealer.

Will Store Spuds For Late Market

The possibility of increased demand for small potatoes later in the year has brought out a need for proper storage facilities.

Due to current low prices, growers in the eastern part of the State have agreed not to market before July 4 any potato smaller than one and seven-eighths inch in diameter. The drought condition in the middle west may reduce the crop enough to create a considerable demand for North Carolina potatoes later in the year, including the smaller spuds, said M. E. Gardner, professor of horticulture at State College.

Cold storage, of course, would be the best way of preserving the potatoes, he said, since humidity and temperature could be regulated as desired. However, most growers will have to use other facilities.

To get the best results, he suggested the following: Store only in cool, dry places. Do not store potatoes which have been cut or bruised while digging. Protect them from strong light and the direct rays of the sun—this is important, he said, since potatoes exposed to light become green and unfit for food.

Store the potatoes in barrels or baskets and in such a manner that the air may circulate freely among them at all times. Protected sheds, barns, sweet potato storage houses, tobacco barns, or similar buildings will not be used for other purposes but making suitable storage places for the spuds.

CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission has announced open competitive examinations as follows: Junior agricultural statistician, \$2,000 to \$2,600 a year, Bureau of Agricultural Economics, Department of Agriculture. Specified education and experience required. Closing date, July 24.

Associate veterinarian (diseases affecting wild animal life), \$3,200 a year, Bureau of Biological Survey, Department of Agriculture. Specified education and experience required. Closing date, July 23.

All States except Iowa, Vermont, Virginia, Maryland, and the District of Columbia have received less than their quota of appointments in the apportioned departmental service in Washington, D. C.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or custom-house in any city, or from the United States Civil Service Commission, Washington, D. C.

REDUCED PRICES without Reduced Value

THE only change in the Ford V-8 is the change in price. Lower price does not mean any difference in basic material or in engineering—Ford has only one standard. There is only one Ford V-8 car chassis. It gives you a full 112" wheelbase. It is a powerful car—developing a generous 85 horsepower. It has the only V-8 engine in a car selling for less than \$2500. Despite its bigness, its roominess and its power, the new Ford V-8 is the most economical car Ford has ever built. You save money on gas and oil every mile you drive. Examine the new Ford V-8. Look at

costly cars. The more high-priced cars you inspect, the more Ford V-8 features you will see.

AMERICA'S GREAT TRUCK VALUE! The Ford V-8 is everything a truck should be. Full-size. Rugged. Economical. Moreover, Ford Trucks and Commercial Cars are built to handle 90% of all hauling problems—with a body type for every need. NOW AT NEW LOW PRICES

AUTHORIZED FORD DEALERS

FORD V-8 \$505 AND UP, F. O. B. DETROIT

AND REMEMBER THIS: The following Special Equipment, which usually costs from \$35 to \$40 more, is furnished at No Extra Cost on Ford V-8 De Luxe Models: Safety Glass Throughout... Twin Tail-Lights... Twin Cool Lamps... Two matched-tone Bumpers... Clear Lighter... Ash Receptacles... Two Adjustable Seats... Fenders that match the body... Colored Wheel.

COOL—In the Ford V-8 you get windshield ventilation from the front as well as ventilation from the side. You're cool even on a broiling day. EASY PARKING—The Ford V-8 is one of the easiest cars in the world to drive. A 15 to 1 steering ratio makes parking child's play.
