**WEDNESDAY IS
CIRCUS DAY
IN FARMVILLE**

The magic of circus day will soon transform the circus grounds at the Ball Ground into a canvas city of gaily costumed performers and rare animals from forest and jungle when Kay Bros., Circus exhibits in Farmville—Wednesday, September 5th. There will be two performances, one at 2:00 p. m. and the second at 8:00 p. m.

The program has been recently augmented by many new and thrilling features, notable among them is the Si-Kitchie Japanese troupe of foot jugglers and head balancers, Saffro Kitchie defies all laws of gravitation by swinging from one side of the great canvas dome to the other while balancing upon his head on a single trapeze bar. Miss Ellen thrills her audience with fast running, and difficult tricks on the silver thread. Kay Bros., herd of dancing elephants will make the Arena tremble when they display their super intelligence. In addition to the equestrians, Kay Bros., will have present superior attractions in every other way—the clowns, acrobats, gymnasts and tumblers are also top-notchers.

The exceptional popularity which Chevrolet has enjoyed for many years has naturally had its effect on Chevrolet prices. Large sales have enabled Chevrolet to maintain consistently low purchase prices, which were recently lowered even further. As a result Chevrolet now offers you the lowest priced six-cylinder automobile obtainable—a big, comfortable car with Fisher Body styling and refinement—safe, weatherproof, cable-controlled brakes—the smoothness and economy of a valve-in-head, six-cylinder engine—and typical Chevrolet dependability. In offering this car, and the Master models, at substantially lower prices, Chevrolet hopes to repay the motoring public in some measure, for consistently placing Chevrolet so high in public favor.

**SHORT CROP GROWERS
MAY SELL OTHERS' EXCESS**

Growers of flue-cured tobacco in North Carolina who have signed adjustment contracts with the government and whose production in 1934 is less than their allotment, may, if they care to do so, sell the flue-cured tobacco grown by other contracting growers whose production exceeds their allotment.

"This administrative ruling was signed by Secretary Wallace last week," says E. Y. Floyd of State College, in charge of the tobacco program in this State. "The decision was made when it was learned that in some sections, the production will be well below the quantity of tobacco allotted. Reports as to crop conditions from all sections indicate that the total production of contracting growers will be approximately 50 million pounds below 80 percent of the base production which will be the quantity allotted to contracting growers and is the quantity for which tax-payment warrants could be issued. The most recent estimate of the crop is 526 million pounds."

Mr. Lloyd points out any arrangements made between contracting growers to utilize allotment cards other than their own for selling tobacco is purely a private transaction. Contracting growers who produce in excess of their allotment will not be permitted to market this excess tobacco and pay the tax provided under the Kerr-Smith Tobacco Control Act but may arrange to sell this tobacco under another contracting growers' allotment card.

The non-contracting growers, unlike contracting producers, may sell tobacco produced in excess of any allotment given them, if they pay the tax of 25 percent of the market value to sell tobacco under the marketing as provided in the Kerr-Smith Act. They will not, however, be permitted card of a contracting grower, Floyd says.

**ANTICIPATED DEMAND
FOR ALL LEGUME SEED**

Indications are that there will be a healthy demand for all surplus legume seed which will be produced in North Carolina this year.

During the past week, Dean I. O. Schaub head of the school of agriculture at State College, received a request from Missouri stating that farmers in the State might wish to buy between 75,000 and 100,000 bushels of seed soybeans in this State this fall.

Drought conditions in Missouri will leave the State with a shortage of soybeans for seeding next spring and the director of extension, Prof. R. R. Thomason, University of Missouri, is trying to locate a source of supply. Mr. Thomason said he wanted the beans in fairly large lots and would want the name of individual growers who might be contracted.

The Missouri farmers are particularly interested in the Virginia, Wilson, Haberlandt and Manchu varieties but if these cannot be obtained, other varieties may be substituted. Buyers would be sent to North Carolina to find these beans for the Missouri farmers.

Mr. Schaub turned the request over to Dr. Gordon K. Middleton, seed specialist, and asked him to handle the matter. Those who will have soybean seed for sale of the varieties desired should get in touch with Dr. Middleton so that he might supply the Missouri growers with the information requested.

It is likely that other legume and and forage crop seed will be in demand also. North Carolina growers are urged therefore to take good care of their seeds and to have them inspected and certified by the Crop Improvement Association so that they might find a ready sale in the drought-stricken areas.

**Black-Draught Good
For Biliousness and
Bad Taste in Mouth**

"I have found Theford's Black-Draught so good for biliousness, bad taste in the mouth and other disagreeable feelings due to constipation," writes Mrs. Mary Garner, of Durson, Texas. "My mother used it for a number of years and we do not think there is a better medicine. I was pleased when I saw Syrup of Black-Draught advertised. I sent for it and gave it to my children (as a laxative) for colds and when they felt bad. Soon they felt fine." Theford's Black-Draught for the grown folks — and Syrup of Black-Draught for the children.
