We wish to compliment them and direct your attention to this establishment as one of the reliable business institutions of the community which has aided to the development and progress of this part of the state.

Says Dahlia Roots Must Not Freeze

In areas where dahlia roots may freeze when left under ground all winter, the roots should be taken up and stored in a place where the temperature remains moderate. A few days after the first frost is the best time to dig the roots, according to Robert Schmidt, associate horticulturist of the North Carolina experiment station. The tops should be cut off at the ground and the roots dug out with a spading fork, if possible. Be careful not to break the slender necks of the tubercous roots. Remove the dirt carefully from the clump, allow it to dry for an hour or two, then place them in a cellar or other place where the temperature does not go down to freezing or rise above 50 degrees. Branch Banking and Trust Co. WILSON, N. C.

In Wilson at 124 Nash street this is one of the strongest financial institutions in this section. Operating upon a conservative policy they have always been leaders in all matters that promised the progress and expansion of the commercial and industrial organization of this section of the state. The financial institution is organized to officiate in any trust capacity and has charge of handling many estates both large and small. This concern officiating in this capacity is in a better position than an individual to render important and efficient service. It is organized for this service, and endeavors to see to it that no excess taxes are paid, that matters are not delayed thru illness or

vacation, but that the interest of every person concerned is carefully guarded and efficiently served. It is always wise to name as trustee, a corporation rather than an individual in all trust matters regardless of their nature. While we dilate to acknowledge the fact even to ourselves, frequently relatives or friends appointed to act as administrator of an estate mismanage money and properties, permit court litigations that are unnecessary, and briefly lose much money for the estate and money that heirs are rightly entitled to have. It is said that the average life of an unprotected estate is less than ten years. If you make a will and appoint this trust company your ex-

ecutor and trustee you will be protecting your estate and you will know also that your wish is being carried out to the letter and with justice and fairness to all. Interest is paid on deposits and it is equipped to render the most highly satisfactory banking accommodations. Its teller and clerks are courteous and efficient, receiving the deposit of one dollar with the same magnanimous service that is extended to the largest corporations. They transact a general banking business and offer a complete and comprehensive service. In reality, all of the important features of modern and reliable bank and trust service are at the command of the customers of this institution.

He is a professional man of extraordinary power of understanding of the individual and noted for his quick and correct analysis. Then he possesses a natural aptitude for the correction of all causes of disease. The people of this territory for many miles around are offered at very reasonable rates high class lumber and building materials of every description and of the very best grade. We will not attempt to detail the very large stock that they carry. Suffice it is to say that this establishment compares favorably with the best and most up-to-date establishments of much larger cities in point of extent of stock, quality of work and material and everything in the field of the lumber and supply business. The contractors and builders, the farmers and the people generally, have come to know that they can depend on this well known firm for just about everything that there is in the building material business. They equipped themselves to furnish service second to none, and the success of this enterprise since they have been in business testifies to the wisdom of their course. In making this review of our progress we are glad to compliment the Service Auto Top Shop upon the position they occupy in the life of the country and call their excellent and satisfactory service as well as reasonable prices to the attention of the public.
