When it comes to feeding . . . YOUR CHILDREN AND YOUR CROPS are pretty much alike!

Strange as it may seem, your own children and your own crops aren't so different. When a child eats too large a proportion of artificially refined foods, there is danger of lack in vitamin B, so essential to growth and health. If he doesn't get vitamin A, he "catches" infectious diseases. Too little vitamin C, and other diseases result.

And with your crops, the so-called impurities are like vitamins for children — absolutely necessary to healthy growth and normal development.

Chilean Natural Nitrate supplies the vital impurities — in Nature's own balance and proportion. Calcium, iodine, strontium, boron, potassium, sodium, lithium — they're all there, to make your crops healthy and profitable.

Protect yourself by saying "Chilean" when you order your nitrate. Two kinds — Champion (granulated) and Old Style. Both are genuine. Both are Chilean, and both have the vital impurities.

I've got those natural IMPURITIES!
