#### Cardui Helped Lady For Nervousness and

Run-Down Condition

"I have taken Cardui several times for weak, run-down condition and it has helped me," writes Mrs. Walter M. Coulon, of Forsyth, Ga. "I was nervous and suffering from a weak condition. There were days when I had to lie down during the day. I sent for six bottles of Cardul, as it had helped me before. Cardui gave me strength, stopped the nervousness and helped me in every way." . . . Cardui may be just what you need. It can't do you any harm, so why not try it? Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

### IN COMPLIMENT TO GUEST

One of the most delightful social affairs of the week was the bridge party of Tuesday evening, when Mrs. W. S. Royster entertained at the home of Mrs. G. M. Holden, in compliment to her house guest, Mrs. Maynard Darley, of Lynchburg, Va. A variety of spring flowers made a colorful setting for the six tables which bore appointments suggestive of the approaching St. Patrick's sea-

The prizes, an exquisite linen refreshment set and a novel scrap basket, were won by Mrs. J. L. Shackleford and Mrs. R. H. Knott. The honoree received sheer silk hose. A delectable salad course further carrying the green color note, was served when cards were put aside.

#### CLUB PARTY

A lovely party of the week was that of Monday afternoon, when Mrs. Bert McCullom entertained the New Deal Club and additional friends at bridge, at the Horton Apartments, on Wilson street.

Daffodils and sprays of hawthorne and First Breath of Spring gave a spring like atmosphere to the living room, where four tables were arranged for the games.

The Club prize, won by Mrs. D. R. Morgan, and the guest prize, by Mrs. Madeline H. Rountree, were lovely refreshment sets in colors. As out of town guests, Mrs. Madeline H. Rountree, of Washington, D. C., was presented with a dainty handerchief and Mrs. Maynard Darley, of Lynchburg, Va., with an attractive set of

A delicious salad course was served at the close of five progressions.

#### Beware of Untested **Cottonseed Strains**

Stick to the standard varieties of Mrs. Sam Lore led the discussion cotton seed approved for this State,

Reliable dealers have enough good, tested seed to supply the needs of North Carolina farmers, he says, and no farmer should run the risk of buying seed which is not definitely known to be good.

Before planting time each year, Kime adds, "wonderful new" varieties of seed are offered for sale by unscrupulous dealers who make extravagant claims about the "merit" of these cottons.

Some of the "new seed" may be a new development, Kime says, but much of it is old seed of doubtful quality placed on the market under fancy names and high-sounding guarantees that mean nothing.

Seldom is such seed of unknown origin and untested performance worth the high prices asked, Kime

"We have in this State several varieties which have been thoroughly tested, and have proven to be high yielders and producers of staple of A delightful marshallow salad the quality and length greatest in

## School News

MISS JEROME'S CLASS IN PROGRAM

Miss Jerome's classes in expression and voice had charge of the chapel program Friday morning, February 22. The program, which was supposed to be a rehearsal just before a play, was very interesting. When the girls were called on to practice, there was always some ex-

Included in the program were solos by Martha Rasberry, Frances Beaman and Helen Willis, Mae Knott also gave a poem and Frances Cutchin a story. After this the group of girls joined in singing a number.-Ethel Murphrey.

#### FARMVILLE IN PITT COUNTY TOURNAMENT

Both basketball teams of the Farmville High School entered the Pitt County Tournament in Greenville February 20. The tourney was held in the Greenville High School." All the schools of Pitt county played.

The Farmville girl's team played with Winterville. It was a hard fought battle. The game was very close. Winterville won over with a victory of 20-17.

Line-up: M. Drake 7 (C.F); G. Horton 5(F); F. Joyner 5 (F); S. Carr (G); B. Willis (G); M. Barbee (G). Substitutes: Frances Cutchin, Natalie Vought, Elsie Carraway and Eva Mae Hardy.

The boys lost to Chicod 16-15. It was a very tight game. Spectators could not have picked the winning team because it was so close. Lonnie Mathews shot 6 of the Farmville points.

Line-up: F. Jones 3 (R.G); C. Oglesby 4 (L.G); L. Mathews 6 (C); B. Moye (L.F); J. Darden 2 (R.F) Substitutes: Elbert Moye, Robert Both teams were eliminated from

the tournament after hard fought

battles.-Marguriete Drake.

## better-balanced FERTILIZER

**WILLIAM A. DUPREE** says

for my tobacco"

OBACCO is a potash-loving crop, removing from the soil more potash than both nitrogen and phosphoric acid combined. Potash is the quality-producing element. Potash also greatly increases yields. It balances the other elements in your fertilizer helping you to get greater benefits from them. Can you afford not to use plenty of potash whenextra potash costs so little?

3-8-8 TOBACCO FERTILIZER is well-balanced with potash. It contains 35% more actual plant food than 3-8-3, yet it costs you only a fraction more. Figured in terms of an acre the extra cost is so small it will surprise you! Ask Your Fertilizer Man!

3-8-8 TOBACCO FERTILIZER has proven its value in many localities over a period of many years. Many farmers found that it paid to use fertilizer with 8% and even more potash when potash was higher in price and tobacco cheaper than today. For instance, consider the case of Mr. William A. Dupree, of Angier, N. C.

Mr. Dupree says: "For the last eight years the potash in my tobacco fertilizer has averaged 8%. During this time I haven't fallen under an average of \$300.00 per acre but one year. This was 1932 and the blue mold got me then. I don't think there is anybody in this community who has made more pounds or more dollars per acre than I have and this is not said boastingly. I always count on high potash in my tobacco fertilizer giving me better quality, more pounds and a lot more dollars."

Your fertilizer man knows the importance of plenty of potash in tobacco fertilizer. That is why he has 3-8-8 TOBACCO FERTILIZER on sale. Tell him you want to produce "high-dollar" tobacco in 1935. Tell him you want 3-8-8 TOBACCO FERTILIZER, the fertilizer that contains

so much extra-profit-producing plant food at such low cost. Extra potash gives tobacco a better grain and increases yields. It does not make the crop rough and red. On the average the man with the most pounds makes the most dollars per acre. Extra pounds this year will give you the chance to grade your crop closer and sell more pounds of high-quality leaf. Use 3-8-8 FERTILIZER . . . It Pays!

# Extra POTASH PAYS Extra Cash

This advertisement is placed by N. V. POTASH EXPORT MY., Inc., P. O. Box 1432, Norfolk, Va., to support leading fortilizer manufacturers in encouraging the use of better-balanced fertilizers. YOUR FERTILIZER MAN HAS 3-8-8 ON SALE.

FOR COTTON: To help your cotton prevent rust, control wilt and produce vigorous, healthy plants with less shedding, larger bolls that are easier to pick and better yields of uniform, highquality lint—USE 3-8-8 COTTON FERTILIZER. .. IT PAYS!
