

FOUNTAIN NEWS

(By MRS. M. D. YELVERTON)

PERSONALS

Mrs. Stokes Boney of Wallace is visiting Mrs. C. L. Owens. Miss Frances Watson, of Wilson, spent Monday and Tuesday with Miss Elizabeth Smith. Mrs. W. D. Owens, Miss Koma Lee Owens and Miss Frances Dilda attended the Bilbro-Hodges wedding in Ayden, Saturday. Mr. and Mrs. Eric Copeland, Miss Alberta Poe and Mr. Jimmie Copeland, all of Durham, spent Sunday with Mrs. J. R. Eagles. Billie and Arthur Goodwyn have returned to their home in Leggett after visiting Mr. and Mrs. R. A. Fountain, Jr. Mr. and Mrs. J. W. Redick and daughters, Julia Ward and Mary Carolyn, and Mr. and Mrs. John Redick spent Sunday in Hopewell, Virginia. Mr. and Mrs. C. L. Owens and sons, Claudius and Cornelius, spent Sunday in Wallace. Misses Hazel and Eloise returned with their parents. They have been visiting friends and relatives for the past weeks.

YOUNG PEOPLES' SOCIETY MEETS

The Young Peoples' Society of the Presbyterian church met Monday evening at 6:30 in the church. The subject was "Adventures in Partnership." Ann Marie Jefferson as program leader presented the following program: The Story of Abraham—Helen Brown Jefferson; The Story of Moses—Mary Carolyn Reddick; Modern Adventures—Dwight Johnson, Annie Gray Bundy and Mary Emma Jefferson. Mrs. Lam Dozier is the adult leader.

DIMINISHING TEA

The Ladies Auxiliary of the Presbyterian church met Monday afternoon at the Fountain Drug store for a Diminishing Tea. A very interesting contest "The Books of the Old Testament" was enjoyed and the award was presented to Mrs. C. L. Owens. Mrs. Stokes Boney, of Wallace, was a special guest. Refreshments were served from the fountain of the Drug Store.

MISSIONARY SOCIETY MEETS

Ladies Missionary Society of Fountain Baptist church met Monday afternoon with Mrs. E. B. Beasley, Mrs. W. L. Owens, as program leader presented a very interesting program using as the topic, "Lifting the Banner in the Land of the Southern Cross." A trio "The Old Rugged Cross" was beautifully sung by Mrs. R. A. Fountain, Jr., Mrs. J. A. Mercer and Mr. L. P. Yelverton. Talks on the work in South America were given by Misses Elizabeth Smith, Frances Watson, Pauline Holloman, Mollie Holloman and Carrie Smith. A report of the Heck Memorial Fund was made by Mrs. C. M. Smith. At the conclusion of the program Mrs. Beasley served a delicious frozen fruit salad with wafers, sandwiches, frosted individual angel food cakes and iced tea.

Plant Summer Legumes On Small Grain Stubble

For small grain fields where lespedeza was not sown last winter, soybeans and cowpeas are recommended as good soil building or hay crops to be planted promptly after the grains have been harvested.

Whether they should be grown for hay or for soil building depends upon the requirements of the individual farmer, says P. H. Kime, plant breeding agronomist at State College.

Where a farmer's land is fertile, but his hay supply is limited, hay legumes should be grown on at least a part of the small grain acreage. If the fields are run down, soil building should be the main consideration.

Although legumes may be used for either hay or soil building, they cannot serve both purposes, Kime added, since the entire plant should be plowed under when soil improvement is the objective.

A great deal of the nitrogen and other fertilizing elements is contained in that part of the plant which is above ground, Kime explained.

For hay, to be planted in June, he recommends the Laredo, Virginia, Harman, and Tokyo varieties of soybeans in the order named. For soil building he favors Mammoth Yellow, Tokyo, and Biloxi.

Leading varieties of cowpeas for either hay or soil improvement are Whipoorwill, Grot, Brabham, Iron, and Clay.

Before planting soybeans or cowpeas, plow or disk the soil thoroughly, then harrow it, Kime says. The seed may be drilled in, sown broadcast, or planted in rows 24 to 36 inches apart.

Kime grows for hay legumes should be fertilized to keep them from depleting the soil. On average coastal plain soils, 200 pounds of 2-2-4 to the acre is recommended. On average mountain or Piedmont soils, 200 pounds of 2-10-4.

The crop of red clover hay in western Carolina is reported to be about the average for this season.

MACCLESFIELD NEWS

(By MRS. G. W. PEEBLES)

PERSONALS

Friends are glad to see Mrs. Paite Price out again. Mrs. Price has been ill for some time.

People of this place are glad to know that J. W. Harrell and Francis Webb, who are suffering from infantile paralysis, are better.

There will be no Sunday School in this community until further notice.

Mr. and Mrs. Ernest Webb and Mr. and Mrs. Julian Webb left Wednesday morning on a fishing trip to Swan Quarter.

Mrs. Cora Boswell and children are spending some time with relatives out of town.

Mrs. J. W. Peebles is spending some time in Snow Hill with her niece, Mrs. J. O. Sugg.

Little Glenn Langley of Crisp is spending some time with his grandmother here.

Little Joyce Batts has returned from Battleboro where she has been visiting.

Mrs. Claude Griffin, Mrs. R. L. Corbett, Mrs. J. H. Norville, Mrs. Glenn Peebles, Mrs. Paul Flowers and Mrs. D. L. Felton attended a shower in Pinetops given by Mrs. Grover Webb and Miss Eva Webb in honor of Miss Jean McFadyen, a bride elect.

DINNER SPONSORED BY SOCIETY

The Missiary Society of the Christian church will sponsor a Brunswick dinner on election day, which is Saturday, June 22nd. The dinner will be served on the street and everyone is invited to attend. It will be served from eleven until 1:30 o'clock.

The Society is accustomed to serving such dinners as this and it has always been a huge success whether it was a chicken dinner, turkey dinner or oyster or Brunswick stew. Their slogan is "A lot of Dinner For a Little Money." All members urged to be on hand.

SECOND INFANTILE CASE HERE

Miss Francis Webb, 13, the second and last so far, victim of infantile paralysis in No. 9 township has suffered immensely with her arms and legs but is reported improving.

A test was made Saturday to determine the nature of her brother's illness and the doctor as well as the parents was relieved to learn that it was not paralysis and that the child would soon be relieved from the malarial he is suffering from and be all right. The child had been complaining with it's leg and the parents were very much afraid that another case of paralysis had sprang upon them.

Francis and her brother together with several other brothers and sis-

ters are the children of Mr. and Mrs. Thomas Webb. J. W. Harrell, the first patient of Dr. S. H. Justa to develop infantile paralysis is also improving.

HAIL FALLS HERE

Gardners as well as farmers of this section were truly thankful for the much needed rainfall Friday and Saturday. Although hail fell Friday and gave the farmers a big scare but only one field of tobacco was found damaged, and that belonged to Mr. Joe Bridgers, was very slight. Wind from the same cloud whipped down several acres of corn, blew down and broke up fruit trees and tore down light wire poles, leaving the town in darkness until a late bed time.

This rain seemed to fall exclusively in and around town, it did not reach Fountain and very little fell at Pinetops and Willbanks. Saturday's rain blessed farmers for miles around.

AUXILIARY MEETS

Mrs. D. F. Batts was hostess to the Ladies' Circle of the Presbyterian church on Wednesday night. Mrs. Fred Webb, president, opened the meeting and the minutes were read and the roll called by Mrs. Herbert Phillips, secretary.

Mrs. B. B. Phillips was leader of the month with "Joy of Giving" as subject. She presented the following program:

Bible—Mrs. Phillips; Prayer—Mrs. Phillips; Testimonial—Mrs. O. O. Briley; Testimonial—Mrs. Herbert Phillips; Explanation—Mrs. Phillips.

After the close of the meeting Mrs. Batts assisted by Miss Evelyn Batts, served lemonade, angel cake and cookies to the following members: Mrs. Fred Webb, Mrs. Herbert Phillips, Mrs. R. P. Varnell, Miss Anna Belle Price, Mrs. E. G. Narron, Mrs. W. E. Ellington, Mrs. B. B. Phillips, Mrs. Ode McKeel, Mrs. Bill Lewis and Mrs. O. O. Briley, leader at the next meeting.

Farmers cooperating in the TVA program in the 15 counties of western Carolina are using the triple superphosphate on demonstration plots this spring.

Get Rid of Poisons Produced by Constipation

A cleansing laxative—purely vegetable Black-Draught—is the first thought of thousands of men and women who have found that by restoring the downward movement of the bowels many disagreeable symptoms of constipation promptly can be relieved. Mr. J. P. Mahaffey, of Clinton, S. C., writes: "I have found that Black-Draught is very effective in the cleansing of the system. When affected by the dull headache, the drowsiness and lassitude caused by constipation, I take Black-Draught."

A Natural, Purely Vegetable Laxative

STEEL ROOF SUPPORTS RACING CAR

Mickey Lowack, daredevil driver of the increasingly popular miniature racing cars, puts his record-making racer on the steel roof of a 1935 Hudson sedan to show comparative size of the midge. The 600 pound midge car, 2 1/2 inches long, weighs 1/2 ounce, in the pilot's seat, all supported on the steel roof of the Hudson, give a startling demonstration of the rigidity and ruggedness of the 1935 steel bodies all of steel. The picture was made at the racing coliseum in New York City.

FOR RESULTS ADVERTISE IN THE ENTERPRISE

TIRES MAY LOOK ALIKE ON THE OUTSIDE ON THE INSIDE THEY ARE DIFFERENT

HEAT on the inside created by friction is the main cause of blowouts. Firestone Tires are different on the inside—they are built with the patented extra process of Gum-Dipping that soaks every cord and insulates every strand with pure liquid rubber, preventing internal friction and heat. No other make of tire is Gum-Dipped.

When you realize that there were 882,000 automobile accidents in 1934, injuring 954,000 people and killing 36,000, and that 43,000 of these accidents were caused by blowouts, punctures and skidding, you will be more interested in the make of tires you use on your car.

Firestone performance records again emphasize the undisputed evidence that Firestone Tires are not only blowout-proof, but give greatest protection against skidding. There are three questions and answers that will solve the problem of what tires to buy:

QUESTION 1—"Will the tread give me the greatest traction and protection against skidding?"

ANSWER—Recent tests by a leading University show that Firestone High Speed Non-Skid Tires stop a car 15% quicker than any other of the leading makes. For eight consecutive years Firestone Tires have been on the winning car in the dangerous Pike's Peak Race where a skid means death. This is undisputed evidence that Firestone gives car owners greatest protection against skidding.

QUESTION 2—"Are they blowout-proof?"

ANSWER—Firestone Gum-Dipped Tires have the most amazing records for being blowout-proof of any tires ever built. In the gruelling 500-Mile Race at Indianapolis, May 30th, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires. Kelly Peillo won the race and broke the record over this 26-year-old rough brick track without tire trouble—in fact, not one of the 33 drivers had the trouble of any kind.

Ab Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah, 3,000 miles in 23 1/2 hours, at an average speed of 127.2 miles per hour, with temperatures as high as 120°, without tire trouble of any kind. These are most amazing proofs of blowout protection ever known.

QUESTION 3—"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

ANSWER—Firestone High Speed Tires not only give you more than 50% longer wear, but also lowest cost per mile. This is made possible by the tough, wear-resisting tread built with higher shoulders and a wider, flatter contour. This thick, rugged, scientifically designed tread is held securely to the Gum-Dipped cord body by Firestone's patented construction of two extra layers of cords under the tread. This is a special construction feature not used in any other tire. Unequaled mileage records by thousands of car owners add undisputed evidence of the longer wear and greater economy of Firestone High Speed Tires.

You Always Get Better Quality at No Higher Price when You Buy a Firestone Tire with the Firestone Name and Guarantee
