

**MACCLESFIELD NEWS**

(By MRS. G. W. REEBLES)

**PERSONALS**

Mr. Oscar Briley and Mr. Richard Green spent Sunday in Norfolk.

Mr. Bennie Phillips, who has been ill for some time is able to be out again.

Mr. and Mrs. Guy Smith announce the birth of a son Thursday, September 12th.

Fred Webb, Jr., left Monday for Chapel Hill where he will be in school during the coming school year.

Mr. E. G. Narron, Mr. Claude Griffin, Mr. Paul Flowers and Mr. J. H. Norville were on a fishing party at Swan Quarter Tuesday and Wednesday.

**LOCAL BOY GETS PRISON TERM**

Raymond Harris of near here was sentenced last week in Superior court by Judge Cranmer to 15 to 20 years in state penitentiary for killing three Farmville people in an automobile accident.

Harris was convicted of manslaughter in connection with the death of C. C. Harris and his wife, Mrs. Lena Harris and three year old Paul Alford, Jr., all of Farmville, in an automobile collision in which four other occupants of the C. C. Harris car were badly injured. Deputy Sheriff C. E. Pridgen who investigated the accident and Mrs. Nannie Owens, in front of whose home the accident occurred at Crisp, both testified that Harris was drunk.

Pridgen said that Harris was "cursing and staggering around" when he arrested him and took him to jail at Tarboro and that he detected the odor of whiskey on his breath. Mrs. Owens said that he was "mumbling and cursing" and that when she offered to assist him he told her to "tend to her own business."

Paul Alford, who was severely injured in the accident sadly told of how his three year old son whom he was holding in his arms was crushed to death. He said the driver of the Farmville car, C. C. Harris drove his machine off on a shoulder, knocking down a highway sign, in an effort to avoid collision with the approaching machine of young Harris. The two cars crashed head on.

**SOCIETY PRESENTS "DIXIE BLACKBIRDS"**

The Christian Missionary Society presents "Dixie Blackbirds Minstrel" Friday evening 8:00 o'clock at the Macclesfield school auditorium. A most unique minstrel arrangement with plenty of peppy chorus girls, skits by those funny black men, snappy songs, and fun galore. About

50 home talent people in the cast. Come out and enjoy yourselves for about two hours.

List of characters—Juvenile Interlocutor, Ben Phillips Jr.; Pages, Dorothy Lewis and Fannie Carr Lewis; End-men, Garland Price, Carson Harrell, W. D. Pitt, Van Ervan Lewis; Pickaninnies, Delanie Winstead, Ruth Peebles, Joyce Batts, Arabel Brown, Sophie Webb, Margie Varnell, Mabel D. Pridgen; Senior Interlocutor, Claude Walston; End men, Roland Glover, Ralph Winstead, Robert Cale, Luther Bridgers, Lester Phillips, John Sidney Winstead, Malcolm Williams, Vincent Batts; Attorney Butler, Glenn Peebles; Clemson, W. Felton; Mandy, Ella Mae Felton; Old Fashioned girl, Edna Webb; Modern girl, Leslie Webb; Yancey Blakely, John Sidney Winstead; Clemonces, Zilpha Eagles; Brother Bevo, Frant Batts, Jr.

Chorus girls: Susie Moore, Maggie Jutry Cox, Ida Ruth Felton, Helen Harrell, Ernestine Williams, Myrtle Lewis, Lucille Pittman, Geneva Winstead.

**SCHOOL NEWS**

Schools in the South Edgecombe High School district opened on last Monday, 16th. Each school held chapel at a different hour and Mr. James N. Grant, principal, made an interesting talk to all patrons and children who happened to be at either school.

South Edgecombe High School has been given the opportunity of securing a commercial teacher if the enrollment of students is sufficient. The number required for this teacher will be 25 but not more than 35. All of the students must be persons who are not in school. The requirements to enter the course will be the completion of 12 units of high school work. A laboratory fee of \$2.00 per month will be charged. All students who are interested should see the high school principal, Mr. James N. Grant. This is an opportunity for boys and girls who cannot enter college or who have not finished high school.

The faculty for 1935-36 at the high school will consist of Mr. James N. Grant, principal, Miss Sadie Bell Brown, Miss Lucille Gammon, Miss Alga Taylor, Miss Lurline Bass, Miss Ruth Robertson, Mr. Short and Mr. Yarboro. Pinetops teachers are Miss Estelle Jenkins, principal, Miss Marjorie Butler, Miss Merle Faircloth, Miss Clara Brown, Mrs. Veston Bullock, Miss Selma Anderson, Miss Kathleen Brown. Macclesfield teachers—Mrs. Elsie Griffin, principal, Mrs. Lida Phillips, Miss Martha Hearne, Mrs. Beatrice Corbett, Mrs. Mary Walton Flowers, Mrs. Daisy Crisp, Crisp teachers: Mrs. S. A. Bowden, principal, Miss Elizabeth Mattocks, Mrs. Addie Wooten, Miss Zilpha Eagles, Miss Sallie Lovelace, Miss Kitty Snow Phillips, Miss Sarah

**RESETTLEMENT BOSS**

Mrs. Thomas Beck, wife of a publishing company executive, has the distinction of being the only woman among the 11 directors of the government's program of rural resettlement. She is director for region No. 1, which includes all New York state and Pennsylvania as well as New Jersey, Delaware, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire and Maine. Her work will be to aid agriculturists to move to more fertile areas as the government takes over sub-standard land from production. Struggling farm families will be helped to rehabilitate themselves on land they own.

**American Indian Is Not Vanishing Race**

Berkeley, Calif.—The American Indian is far from being a vanishing race—there are 28,000,000 full-blooded American Indians now living. The United States, however, has but \$22,000 of them, or approximately 1 per cent. More than 98 per cent of the number live south of the Mexican border, according to E. W. Gifford, University of California extension division lecturer. Centers of highest culture of the race, he added, were not in the United States, but in Mexico, Central America and South America.

Belle Pitt, Miss Francis Corbett.

Average enrollment at Crisp last year was 272. Macclesfield 222. Pinetops 328 and the average enrollment at the high school was 212.

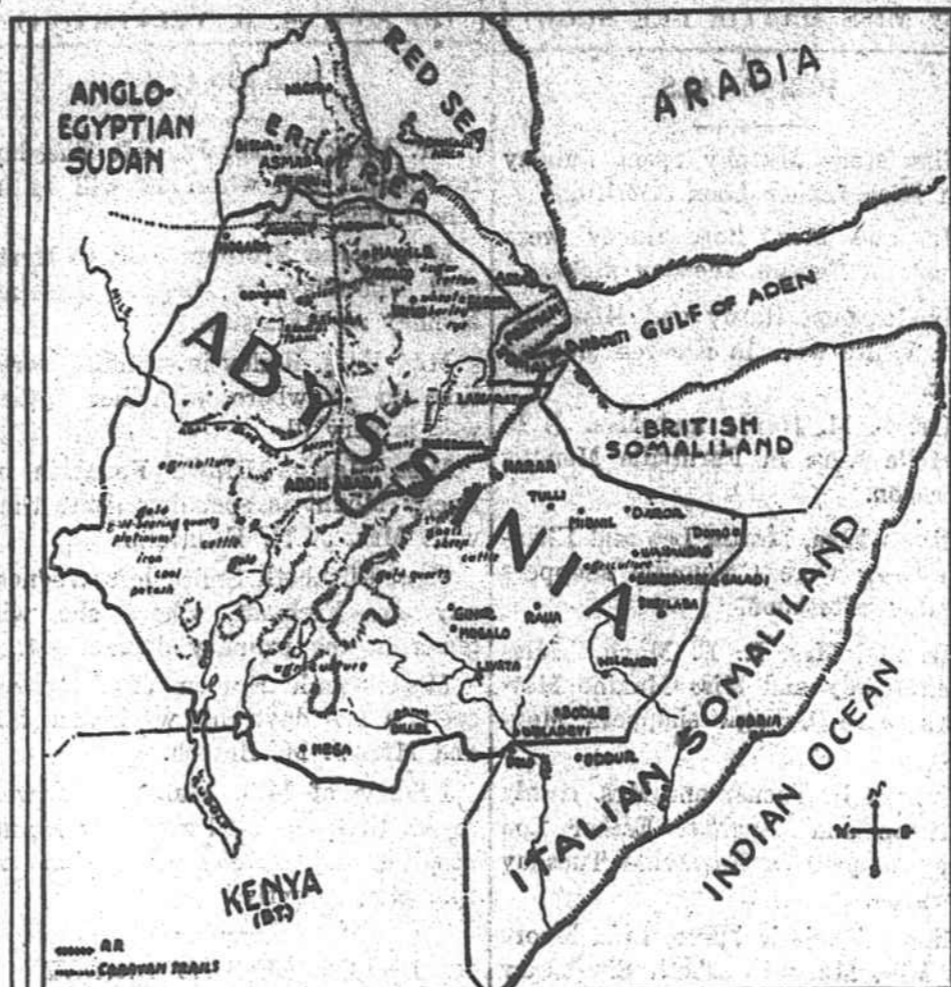

Changes have been made in text books for the following courses, general science, biology, geography, physics, home economics and eleventh grade science.

The textbooks in other high school courses will be the same for this year as the past year.

Over 400 Warren county tobacco growers have signed the new four-year adjustment contract so far.

A fish never gets caught by keeping his mouth shut.

**Map of the Land II Duce Covets**

This map of Ethiopia shows the wild terrain which, in case of war, the Italian army will have to master to conquer the loyal troops of Haile Selassie. Valuable deposits of minerals and oil are guarded by lofty mountains and dry, oven-like deserts, which in the rainy season become dripping and mow-like. Roads are few and there is but one railroad.

**Take Good Care Of Seed For Planting**

The best cotton seed for planting is usually secured from the second picking.

The first picking is often green and heavy with moisture, while the last pickings are frequently light and damaged by boll weevils.

However, good seed may be secured from the first picking if there has been no rain on it, said P. H. Kime, plant breeder for the Agricultural Experiment Station at State College.

After the cotton is picked, it should be stored in a well ventilated house and spread out to dry as much as possible, he said.

Damp cotton left in a large pile usually develops enough heat to impair the germinating power of the seed.

Cotton from which the seed is to be saved for planting should be held until after the rush of the ginning season, Kime added, so that the ginners will have more time to clean up the gin.

To keep the seed from getting mixed with other varieties at the gin, the seed roll should be dropped, the gin and conveyor pipes cleaned, the floor swept, and the seed caught on the floor and bagged.

Do not let the seed pass through the conveyor, Kime warned, as it is almost impossible to clean the con-

veyor of all seed left from previous ginnings.

If the quality of the seed is good this year, he continued, it is advisable to save enough for two or three years. Next years crop may be badly weather damaged, but good seed hold over for several years will not deteriorate if stored properly.

In fact, Kime pointed out, disease organisms which often are found on the seed will die in about two years, leaving the seed fairly free from disease after it has been stored for at least two seasons.

More than 4,000 acres of lespedeza are being grown in Burke county this season, following introduction of the legume a few years ago.

**Built Like an Automobile You have never seen a mower like this It is Real New and Different**

Come in and see our new mower. You'll agree you have never seen anything like it.

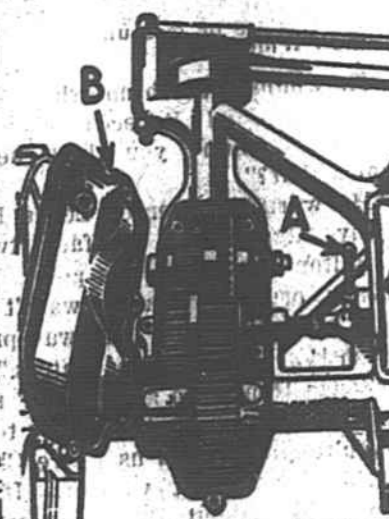

**McCormick-Deering No. 7 Closed-Gear Mower**

WE are anxious to let our friends see the New McCormick-Deering No. 7 Closed-Gear Mower. We think it is one of the finest pieces of farm equipment we have ever offered.

Everybody who has it says they never had any idea a mower could be built as this one is.

For example: Their operating mechanism, including gears, differential, and counters, is assembled compactly in an oil-tight housing and runs in a bath of oil. There are four high-grade roller bearings. Operation is so smooth and noiseless you can scarcely hear the light hum of the mow.

Special oil seals at ends of the main axle and fly-wheel shield the oil-tight gear-box, prevent leakage and protect all working parts against entrance of dirt and other abrasive solids. Floating and action of cutter bar play ample play without disturbing registration.

This compact mow of enclosed gears runs in a bath of oil—full protection. The cover, B, makes the gear case dust-proof and oil-tight. Chains to throw in and out by lever, A.

**THE TUNAGE CO., Inc. FARMVILLE, N. C.**

**NOTICE OF SALE OF REAL ESTATE**

itled, "Town of Farmville W. J. Rasberry and wife, Clyde Sherry, and J. T.
