GIVES UP LIFE TO HONOR LIBERTY

A celebration is a dangerous thing, according to the figures that reveal that more Americans, in the last thirty observances of the Fourth of July, have died as a result of fireworks accidents than were killed in the entire Revolutionary War.

It seems that 4,290 patriotic Americans have bitten the dust in the past thirty years while celebrating the independence of their nation by the discharge of fireworks, whereas, on the other hand, only 4,044 Americans were killed in the great struggle to set up a nation.

In the same period, we learn from the United States Conference of Mayors, sixteen times as many people were injured by fireworks as were wounded during the struggle against the British.

However, there are two sides to the debate. If free Americans wish to give up life in celebrating liberty what patriot arises to say they must not have the privilege of dying in order to perpetuate the right of citizens to explode dynamite in the form of fire crackers on the public streets and thoroughfares?

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'do-less.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me."... If Cardui does not help YOU, consult a physician.
