# Talk Doesn't Establish Credit-

Word continues to trickle from Europe, where Italy and France are pretending that they want to settle their wage debts with the United States.

Naturally, if they want to pay what they owe, the way to do it is to make a start by sending some cash. But, it seems, there is another little matter involved, both nations want to be sure that if they pay they will be able to borrow some more money in this country.

Italy needs cash for expansion in Ethiopia, and France, fearing another war, wants to be in a position to get financial help on this side of the Atlantic. Such being the facts, we advise readers not to expect any great reduction in the national debt from the payments made by debtor nations.
