A MESSAGE TO MOTORISTS ABOUT THE NEW GASOLINE LAW

THE State of North Carolina, under a new law which became effective December 1st, prescribes certain minimum quality standards for gasoline.

These quality requirements were set in view of the needs of today's motors. Yet several years ago, That Good Gulf Gasoline was stepped up well above these new state standards—and has continued so ever since.

Gulf's premium gasoline, No-Nox Ethyl, exceeds the new state minimum requirements by the widest margin in motoring history.

It has been Gulf's practice in the past—and will continue to be so in the future—to set its own standards of quality, and to raise those standards as rapidly as advances in technology permit.

To this end, Gulf maintains nine modern laboratories, staffed by able scientists, whose aim is constantly to better every previous best. This is why the Sign of the Orange Disc, displayed by all Good Gulf dealers of North Carolina, is a reliable guide to fine motoring products.
