**PUBLIC BUSINESS**

How much money does Pitt County spend on the education of its children?

Who knows? How much money does this school district spend on education? Who knows?

These questions are not asked for fun but merely to call attention to the need of publishing regular financial statements about public affairs. The truth is that all agencies that spend public money, whether derived from taxation or otherwise, should make public in convenient form the full details of its operation. Democratic self-government, even in representative form, will function best when citizens are thoroughly informed as to the details of public business. It is expecting too much to ask people to be interested in something about which they know nothing.

**THE FASTING DEAN**

It is little or none of our business what the very Rev. Israel Harding Noe, of Memphis, Tenn., eats, or whether the Episcopal clergyman continues the absolute fast that he expects will attest spiritual perfection and immortality.

The 46-year-old cleric lived on oranges and cashew nuts in 1936, on oranges alone in 1937 and, beginning January first, has wafer three times weekly. While he puts ice cubes in his mouth to relieve the dryness of his throat, it is said, he expels the water from his mouth when the ice has melted.

He is of the opinion that he is entering a "new higher plane of spiritual life," taking food from "the Father's life within." Moreover, he has "worked it out potentially" and knows that he can "experience it."

**JAP VICTORY DANGEROUS**

The Japanese military machine continues to achieve strategic victories but the embittered Chinese withdraw deeper into the recesses of their country and turn a deaf ear to talk of peace.

Premier Konoye, it is reported, has advised Japanese leaders that the failure to bring China to terms has created an increasingly grave situation, forcing the Japanese government to resort to another course of a serious nature. So far, explanation of his remarks has not been offered.

After six months of fighting the Japanese army is busily engaged on extended fronts and the "incident" threatens to become a disaster. The entire Japanese economic and social set-up demanded a quick decision but a long contest seems assured and an imperial conference, the first in twenty-four years, is called to chart the course of the island empire.

Already the economic effects of the war have been profound in Japan. The financial strain of prolonged fighting may prove too much. No one knows how long the Chinese will last but if they can keep fighting for as much as two years they may bring about the downfall of their enemy. Japan, proudly determined to rule Asia, may be so weakened by the guerilla warfare of the Chinese that she will be unable to resist the imposition of terms by western nations when the settlement is made. In fact, even now, the future of Japan depends upon the tolerance of Great Britain and the United States. These two nations, by using economic weapons, could probably wreck the Japanese program and impoverish the Japanese people.

**HAIL WILKINS FLIGHT**

Fairbanks, Alaska.—The flight of Sir Hubert Wilkins with his pilot, Air Comdr. Herbert Hollick-Kenyon, during the bright moonlight of the Arctic night in 50 degrees below zero weather, was hailed by aviators as one of the most daring in Arctic history. It was Wilkins' sixth flight over the ice pack in search for the Russian aviators who disappeared August 13, 1937, after crossing the polar area on a planned Moscow-Fairbanks flight.

Work with 4-H club members is the most important job for the county home and farm agent at the present time, says Dr. C. W. Warburton, national director of extension work.

**"Tobacco Growing's My Job"**

MY LAST CROP OF LEAF TOBACCO WAS THE BEST I EVER GROWN AND CAMELS GAVE ME A TOP PRICE PER POUND FOR MY BEST GRADE LEAF. AS THE FELLOW WHO GETS THE CHECK, I KNOW CAMELS USE MORE EXPENSIVE TOBACCO. YOU BET I SMOKE CAMELS THAT GOES FOR MOST PLANTERS, TOO.

TOBACCO quality is an open book to the men who grow tobacco. Do they favor any particular cigarette? "Yes," says Harold L. Craig, "Camels." Camels are a matchless blend of fine, MORE EXPENSIVE TOBACCO—Turkish and Domestic.

From the new 1938 Natural Chilean Calendar  
Natural balance! That's the secret. Uncle Natchel says that's everything in Sonny's learning to ride his mule. And be sure of natural balance in your nitrate, too! Chilean Nitrate of Soda is natural—the only natural nitrate. For over 100 years it's been a dependable source of nitrogen for nearly every crop that's grown. Now we're learning the importance of its other vital elements, such as iodine, boron, calcium, magnesium, manganese, potash, zinc, iron, copper and many others. Chilean Nitrate of Soda carries these vital elements in Nature's balance and blend.

"Folks," says Uncle Natchel, "dat's de secret, Natchel balance an' blend—dat's whut counts."
