DROP POTATO CONTROL-WHEAT TO FILIPINOS. CONSUMER DEMAND. TREND TO BE UPWARD. FUTURE OUTLOOK.

(Hugo S. Sims, Washington Correspondent.)

The potato marketing agreement, affecting interstate shipments of potatoes grown in thirteen early and intermediate states, will not go into effect although more than seventy-five per cent of the growers in the states affected went on record in favor of the plan.

The AAA points out that in four of the areas the vote was less than sixty-six and two-thirds per cent, and in two areas, less than fifty per cent. An analysis of the vote by states shows that six returned less than a two-thirds favorable vote and three favored the program by less than fifty per cent.

Under this condition, the AAA decided it would not be feasible to make a program effective, although the over-all vote was sufficient for the purpose. Despite the fact that the vote gave the AAA the right to make the plan effective, sentiment is not considered to be strong enough in all areas to warrant putting the restrictions into operation. The number of yes-votes was 5,528 and the number of no-votes, 1,181.

The AAA will continue to indemnify exporters for losses incurred in connection with exports of wheat flour to the Philippine Islands. The idea is to reduce a regional surplus of wheat in the Pacific Northwest and to regain the normal market in the Philippines.

In the last fiscal year sales of flour under the program were equivalent to 2,149,300 bushels of wheat. Since the program went into effect, 4,951,610 bushels of wheat have been exported in the form of flour. The program is financed from funds made available for customs receipts. It is pointed out that the Pacific Northwest region now supplies nearly sixty per cent of Philippine flour compared to 26.1 per cent in 1935 before the program began.

Developments of the past month indicate that the low point in consumer incomes and in demand for farm products has been reached, with prospects for some measure of recovery following the summer months, says the Bureau of Agricultural Economics. This improvement will follow somewhat behind the expected revival of industrial activity.

Advancing stock prices, the recent trend toward higher prices of raw materials, and increased buying of consumer goods are cited as reflecting the generally improved business sentiment. The general trend in business activity during the coming year probably will be upward.

The Bureau points out, however, that the course of recovery may be somewhat irregular and at times rather slow. For the remainder of 1938 both consumer and income demand for farm products probably will continue less favorable than in some recent years, but this year will be marked under improving conditions of income and demand. Demand for the non-perishable farm products may reflect these changes more rapidly than for the more perishable products.

Market prices during recent weeks indicate that the general level of prices received by farmers in mid-July was slightly higher than in mid-June. Receipts from farm marketings in June made about their usual seasonal change from May. And July-September receipts are expected to show about the usual seasonal change. Reviewing the current situation for various farm commodities, the Bureau said that the recent marked increase in domestic mill sales may result in an increase in the weeks and months immediately ahead.

World and domestic wheat prices now have largely adjusted to the new crop basis and changes in the next month or so will be affected mainly by changes in spring wheat conditions in the United States and Canada. World wheat supplies outside of Soviet Russia and China apparently will be about 435 million bushels larger than a year ago, and the highest since 1923-24. Stocks of old wheat on July 1 are estimated about 650 million bushels—almost 100 million more than a year earlier. World production is tentatively placed at about 4,180,000,000 bushels or 235 million more than in 1937.

Hot prices, it was pointed out, resumed their upward trend in early July, and though some further advance may occur during the remainder of the summer, prices will decline in the fall and early winter as the new crop comes in.

Butter production promises to continue relatively heavy, stocks are unusually heavy, and the seasonal price decline will be moderate.

STATE COLLEGE ANSWERS TIMELY FARM QUESTIONS

Question: Do tobacco stalks when plowed under have any beneficial effect upon the soil?
Answer: Green tobacco stalks, when plowed under, liberate a certain amount of plant food, but the greatest benefit from this practice comes from the destruction of insect pests. Suckers, which grow on stalks left standing in the field, furnish a breeding ground for millions of pests which in turn attack the crop the next season. All plants should be destroyed immediately after harvest and the stalks turned under to prevent the breeding and feeding of these insect pests.

Question: When should laying hens be culled from the flock?
Answer: It is sometimes stated that when egg production in a flock, especially in the summer months, falls below 30 per cent it is time for the entire flock to be handled. However, a more complete record than this is needed before it could apply to any flock. The price received for eggs, the cost of feed, and the feed cost per dozen eggs should be known before any intensive culling is done. Watch the flock for the early molters and dispose of them as soon as molt appears or when production ceases. The removal of these birds will take care of the culling problem until it is time to select breeding hens.

Question: What is the best time to cut lespedeza for hay?
Answer: Lespedeza should be cut when it attains a height of 15 inches, or when it is in full bloom, whichever occurs first. The usual dates for the Gorean variety is from August 1 to September 1 and fifteen days later for the other varieties. When July and August are dry and September wet, the main growth of the Common, Tennessee 76 and Kobe varieties will take place in September and it will pay to delay cutting until October 1 or later. If cut early, however, lespedeza will make enough second growth to reseed the land but it is seldom possible to remove both a hay crop and a seed crop the same year.

Question: What is the best time to cut lespedeza for hay?
Answer: Lespedeza should be cut when it attains a height of 15 inches, or when it is in full bloom, whichever occurs first. The usual dates for the Gorean variety is from August 1 to September 1 and fifteen days later for the other varieties. When July and August are dry and September wet, the main growth of the Common, Tennessee 76 and Kobe varieties will take place in September and it will pay to delay cutting until October 1 or later. If cut early, however, lespedeza will make enough second growth to reseed the land but it is seldom possible to remove both a hay crop and a seed crop the same year.

WALSTONBURG NEWS

Miss Margaret Davis and Miss Ruth Jenkins of E. C. T. C., spent the week end visiting friends here. Miss Geneva Dail of Greenville visited friends here Monday. Friends will regret to learn that Miss Stella Gay is quite ill at her home near here. Mr. Cecil Lang visited friends and relatives in Fountain last week end. Mr. and Mrs. S. H. Gardner and children, Jean and Billy, of Wilson, visited friends here Sunday. Miss Christine Gardner has returned to her home in Sarasota after a few days' visit with Mrs. A. R. Gay. Mrs. W. V. Reddick and children, James, Albert, Juanita, and Emma Jean, are visiting relatives in Hopewell, Va. Mr. and Mrs. J. B. Price of Sarasota visited Mr. and Mrs. A. R. Gay Sunday. Mrs. W. J. Shirley and Miss Emma Gardner were Wilson visitors Monday. Mr. J. C. Gardner was a Wilson business visitor Monday. Mr. Carl T. Hicks, Mr. Major Jones, Mr. G. W. Corbett and Mr. E. L. Jones left Tuesday morning for a trip through Georgia. They will attend the opening of the tobacco market there Thursday. Mr. Corbett will visit his daughter, Mrs. E. F. Holloman in Moultrie. Friends will regret to learn that Mr. R. R. Bailey is ill in a Wilson hospital. Pauline and Frances Moore Dixon are spending this week in Stantonburg with their grandmother, Mrs. Paul Moore. Mrs. E. L. Jones and Mrs. Ida Evans were Wilson visitors Tuesday. Mr. and Mrs. G. W. Bailey, Mrs. Estelle Bailey, Allene and Rayonel Bailey were Wilson visitors Tuesday. Mr. Fitzhugh Lee McKeel and Warner Burch are attending the Agricultural Short Course at State College in Raleigh this week.

Mr. and Mrs. Russell Williams and son, Hugh of Red Oak, spent Sunday with Mr. and Mrs. F. L. Eagles. Mr. and Mrs. G. E. Trevathan are spending the week at Virginia Beach. Turnage Trevathan is visiting relatives at Pinetops. Mr. and Mrs. G. W. Lane, and Mr. and Mrs. M. D. Yelverton spent the week end at Mantio and attended "The Lost Colony" pageant on Saturday evening. Mrs. John Hudson and Mrs. Sadie Vernelson of Portsmouth, Va., spent Wednesday with Mrs. J. W. Jefferson. Mr. and Mrs. Hardy Johnson, Earl Trevathan, Jr., Howard Turnage, and Dwight and Martha Hardy Johnson spent Sunday with Gibbs Johnson at Pinelands College. Mrs. J. W. Jefferson and son Billy spent the week end in Pinetops with Mr. and Mrs. John Weaver. Mrs. R. A. Fountain, Jr., and son Bob are spending the week in Greenville with relatives. Misses Nina Estelle and Carol Yelverton are visiting Mrs. Russell Williams in Red Oak. Mrs. Albert Speight is spending a few days with relatives near Rocky Mount. Jean Eagles and Betsy Fountain are spending the week at Camp Leach. H. B. Jefferson will leave Thursday for Mississippi to attend the annual convention of the National Guard.

Purchase Snap Beans

To help market conditions when prices decline, the Federal Surplus Commodities Corporation has been authorized to make purchases of snap beans during the present production season. This organization has already bought 9,000 bushels in Macon County. Needy people on relief rolls will get the beans.

E. Carl Allison of Brevard Route 3, has a herd of Harford hogs marketed similarly to Harford beef cattle. A new pasture has been added for the hogs.

Hot prices, it was pointed out, resumed their upward trend in early July, and though some further advance may occur during the remainder of the summer, prices will decline in the fall and early winter as the new crop comes in.

Butter production promises to continue relatively heavy, stocks are unusually heavy, and the seasonal price decline will be moderate.

Leading Growers To Speak At Farm Week

Growers who have demonstrated on their own land how good farming practices build up the soil and increase farm income will be featured on the men's program for Farm and Home Week at State College, August 1-5.

These growers and extension specialists will point out the value of crop rotations in increasing crop yields and controlling insects and disease, tell how livestock aid in soil improvement and balancing the farm program, discuss the importance of good seed, and show the place of poultry in a good farm program.

An address Tuesday morning on "Where Are We Going in Southern Agriculture?" by J. A. Evans, of the Georgia extension service, and two talks Wednesday and Thursday morning by Dr. O. E. Baker, senior agricultural economist, U. S. Department of Agriculture, will be of special interest, said John W. Goodman, of State College, secretary of Farm and Home Week.

The only addresses to be delivered on an evening program will be given by Gov. and Mrs. Clyde R. Hoey on Thursday. The other evenings will be kept open for band music and recreation.

Lynn Ramsay Edminister of the U. S. Department of State, will speak Tuesday morning on trade agreements with other countries and their importance in helping southern agriculture find a market for its surplus products.

Friday morning, representatives of various agricultural organizations will explain their programs for sponsoring agricultural legislation beneficial to the farmers.

The tours to be conducted in the afternoons will include visits to laboratories on the campus, the college animal husbandry farm, poultry farm and tobacco experiment station, and to places of interest in the capital city.

TWO FAMOUS FLIGHTS

Howard Hughes and his companions, in their flight around the world, not only set a new record but established a firm reputation for the reliability of American airplanes.

There is no use in discounting the Hughes' achievement because it was backed by intelligent use of money. To travel around the globe in less than four days is a monumental achievement in the development of aerial navigation, which started during the lifetime of many people in Pitt county.

The surprise flight of Douglas Corrigan across the North Atlantic, a spectacular exhibition of flying skill, combined with exceedingly good fortune, robbed the Hughes' accomplishment of the front pages. The young aviator, with the patched up plane, deserves the acclaim showered upon him and nobody wishes it otherwise.

The progress of aviation is served better by the Hughes' flight although young Corrigan stirs up the imagination and helps to enthuse the populace with the glory of aerial navigation. Besides, in a world as large as our own, there is room for both types of individual daring and a mood to applaud all of the persons connected with the two flights.

THE ANSWERS!

1. The Italian Government says Italian fliers "shot down" 580 Loyalist airplanes.
2. Apparently, the 1940 games will be held in Finland.
3. Laws issued by an official with supreme authority.
4. \$3,984,887,600.
5. 45 days.
6. October 2nd.
7. About six per cent.
8. Freight rates on a mileage basis, comparable to those charged Northern shippers.
9. The largest harvest in the world's history.
10. About 7,000,000.

ADMINISTRATOR'S NOTICE TO CREDITORS

Having qualified as administratrix of the estate of James R. Pollard, deceased, late of Pitt County, North Carolina, this is to notify all persons having claims against the estate of deceased, to exhibit them to the undersigned administratrix at Farmville, N. C., on or before the 30th day of July, 1938, or this notice will be placed in bar of their recovery. All persons indebted to said estate will please make immediate settlement. This the 27th day of July, 1938.

TO BURN \$10,000

Jacksonville, Fla. — The \$5, \$10, \$20 and \$50 bills which made up the \$10,000 paid in a futile attempt to ransom little James Bailey Cash, Jr., from his kidnaper has been taken out of circulation and will be burned.

Bank officials explain that this is necessary because these serial numbers had been broadcast and innocent persons might suffer if they received them through regular channels.

Ground limestone is beginning to move into western North Carolina counties as farmers plan to earn their soil building goals through the use of this material.

Special Program For Women At Convention

The annual meeting of the N. C. Federation of Home Demonstration clubs on Thursday will head the list of activities for women at Farm and Home Week at State College, August 1-5.

Along with the transaction of business and the election of officers for the coming year, the veneration will hear talks by prominent speakers, including Mrs. Clyde R. Hoey and Miss Grace E. Frysinger, of the U. S. Department of Agriculture.

Another outstanding program will be given Friday, Honor Day, when certificates are to be presented to women who will have completed attendance at their fourth annual women's short course. The main speaker for Honor Day will be Judge Lois Mary McBride, of the Allegheny County Court, Pittsburgh, Penn.

Tuesday and Wednesday mornings the women will attend classes in foods and nutrition, food conservation and marketing, home management and house furnishings, health, clothing, parent education and child training, photography, recreation, horticulture, the niceties of life, and getting the most out of books.

Discussions of freezer-lockers at the joint meeting for men and women Friday morning by extension specialists will be of particular interest to the women, said Miss Ruth Current, state home demonstration agent in charge of the women's program for the week.

Tuesday and Wednesday afternoons will be open for tours over the college campus and to points of interest in Raleigh. Also on Tuesday afternoon's program will be demonstrations on the use of herbs in cookery and on cake-decorating.

Each person coming to the convention can spend the week in a dormitory room for \$1. Meals will be served at moderate price in the college cafeteria.

Farmers Apply More Lime To Their Soil

A million tons more agricultural lime were applied to farm lands in the East Central Region in 1936 and 1937 than during the previous seven years.

Increasing their limings as a soil-building practice under the agricultural conservation program, farmers applied 1,600,000 tons of ground limestone during the first two years of the program, said E. Y. Floyd, AAA executive officer at State College. During the 1929-1935 period 600,000 tons were applied.

The tonnage used in the region has not yet been calculated by individual States, he continued, but preliminary reports indicate that Tar Heel farmers increased their limings more than growers in the other states.

Just the same, North Carolina farmers need to apply much more lime to their acid soils to improve their productivity, and Floyd is urging them to make every effort to carry out all the practices to meet their soil building goal so they can qualify for the full amount of their agricultural conservation payments. Applying lime and phosphate are among the recommended practices.

He pointed out that in an experiment with an untreated pasture, 46 pounds of beef were produced per year by each acre; and at the end of five years only 10 per cent of the desirable grasses and legumes remained. But a limed and phosphated pasture produced 128 pounds of beef per acre per year and after five years 99 per cent of the desirable grasses and legumes were growing luxuriantly.

WILKES FARMERS REPORT EXCELLENT YIELDS OF OATS AND WHEAT, FINE TOBACCO AND THE BEST CORN CROP IN YEARS; BUT COOL NIGHTS AND ABUNDANT RAINFALL HAS CAUSED THE COTTON TO BE SMALL AND GRASSY.

Wilkes farmers report excellent yields of oats and wheat, fine tobacco and the best corn crop in years; but cool nights and abundant rainfall has caused the cotton to be small and grassy.

Boll weevils are plentiful in eastern Carolina cotton fields and the plants are growing slowly.

It is an unusual individual who believes that he makes his money without much trouble.

Less Monthly Discomfort Many women, who formerly suffered from a weak, run-down condition as a result of poor assimilation of food, say they benefited by taking CARDUI, a special medicine for women. They found it helped to increase the appetite and improve digestion, thereby bringing them more strength from their food.

Naturally there is less discomfort at monthly periods when the system has been strengthened and the various functions restored and regulated.

Cardui, priced by thousands of women, is well worth trying. Of course, if not benefited, consult a physician.

Penny saves two Southend, England. — For a penny a man was allowed to look through a telescope. He saw an overturned dinghy to which two men were clinging; and gave the alarm which resulted in their rescue.

Noted Authority To Speak At Farm Week

One of the Nation's foremost authorities on farm life and rural population, Dr. O. E. Baker, of the U. S. Department of Agriculture, will be one of the chief speakers at Farm and Home Week at State College, August 1-5.

He will appear on the joint program for men and women Wednesday and Thursday morning, said John W. Goodman, assistant director of the State College extension service and secretary of the convention.

"To Rescue for Human Society the Native Values of Rural Life," will be the subject of Dr. Baker's address Wednesday, and the next day he will discuss "The Drive of Farm Youth and Wealth to the Cities." One of the great drains on farm wealth, he has found, is caused by rural people moving to towns and cities.

At the joint session Tuesday morning, Lynn Ramsay Edminister, of the Department of State, will discuss trade agreements with other countries so as to facilitate imports of commodities this country needs to increase United States exports of surplus agricultural and industrial products.

"Other countries cannot buy more from us unless we buy more from them," Goodman explained, "and the trade agreements that Mr. Edminister will discuss are of vital importance to Southern agriculture."

Dean I. O. Schaub, director of the extension service, has announced that at the request of men and women who attended Farm and Home week last year, the evening programs must be kept free from music-making and reserved for band music, group singing, and other recreation and entertainment.

An exception is being made for Thursday evening, however, at which time Governor and Mrs. Clyde R. Hoey will address a joint assembly of men and women in Riddick Stadium, weather permitting.

Wilkes farmers report excellent yields of oats and wheat, fine tobacco and the best corn crop in years; but cool nights and abundant rainfall has caused the cotton to be small and grassy.

Boll weevils are plentiful in eastern Carolina cotton fields and the plants are growing slowly.

Seventeen Ashe County sheep growers sold 125 lambs last week for \$82.65 net to the growers. The average net price for all grades in the pool was 8.1-4 cents a pound home weight.

Cotton ginners in Sampson County are making valuable improvements in their gins according to a report from J. C. Ferguson, cotton gin specialist of the State College Extension Service.

\$45,000 FARMVILLE SCHOOL DISTRICT, PITT COUNTY, N. C., SCHOOL BUILDING BONDS.

Sealed bids will be received until 11 o'clock, A. M., Eastern Standard Time, August 9, 1938, by the undersigned at its office in the City of Raleigh, N. C., for \$45,000 School Building Bonds to be issued by Pitt County, N. C., for and in behalf of the Farmville School District of Pitt County. Bonds dated August 1, 1938, and mature annually, February 1, \$2,000 1940 to 1960, inclusive, and \$3,000 1961, without option of prior payment. There will be no auction.

Denomination \$1,000; coupon bonds, principal and interest (F and A) payable in legal tender in New York City; delivery on or about August 25, 1938, at place of purchaser's choice. The bonds are payable from

an unlimited tax to be levied upon all taxable property in the Farmville School District. Bonds were authorized at an election in the district, 300 for and 10 against.

Bidders are requested to name the interest rate or rates, not exceeding 6 per cent per annum, in multiples of 1-4 of 1 per cent. Each bid may name one rate for part of the bonds (having the earliest maturities), and another rate for the balance, but no bid may name more than two rates, and each bidder must specify in his bid the amount of bonds of each rate. The bonds will be awarded to the bidder offering to purchase the bonds at the lowest interest cost, such cost to be determined by deducting the total amount of the premium bid from the aggregate amount of interest upon all of the bonds until their respective maturities. No bid of less than par and accrued interest will be entertained.

Bids must be on a form to be furnished with additional information by the undersigned, enclosed in a sealed envelope marked "Proposal for Bonds," and accompanied by a certified check upon an incorporated bank or trust company payable unconditionally to the order of the State Treasurer of North Carolina for \$900. The right to reject all bids is reserved. The approving opinion of Mastich and Mitchell, New York City, will be furnished the purchaser.

LOCAL GOVERNMENT COMMISSION,
By W. E. Easterling,
Secretary of the Commission.

A GROWER SPEAKS ON TOBACCO

MR. SIDNEY I. BONE tells why Camels are different

A LOT OF FOLKS DON'T REALIZE THAT QUALITY HAS GOT TO BE GROWN INTO CIGARETTE TOBACCO. FINER QUALITY TOBACCO MAKES BETTER SMOKING. 1 BUNGLE CAMEL BUYS BETTER TOBACCO. AT SALE AFTER SALE, CAMEL BUYS THE BEST LOTS OF MY CROPS—AND THOSE OF MY FRIENDS. I SMOKE CAMELS BECAUSE I KNOW THE DIFFERENCE IN TOBACCO. THEY'RE THE FAVORITE WITH PLANTERS

CONSIDER these facts: (1) Men who grow tobacco say Camel pays more to get the choicest grades. (2) Camel is the largest-selling cigarette. Then try CAMEL'S FINER, MORE EXPENSIVE TOBACCO and learn why millions of smokers say: "CAMELS AGREE WITH ME!"

WE SMOKE CAMELS BECAUSE WE KNOW TOBACCO PLANTERS SAY

NOTICE!

REGISTRATION FOR SPECIAL BOND ELECTION — AUGUST 16TH

The Registration Books of the Town of Farmville will be opened Saturday, July 30th, August 6th and 13th, 1938, at the Fire Station 119 N. Main St., for the purpose of registering all unregistered voters desiring to vote in Special Bond Election to be held on August 16th, 1938.

This is not a new registration and only those whose names are not already on the books will be required to register.

R. A. JOYNER, Clerk.
