The Fords Tell Their Plans for 1939

Henry and Edsel Ford, on the occasion of the 35th anniversary of the founding of the Ford Motor Company, June 16, 1928

IF WE KNEW anything better we could do for the country than make good motor cars, we would do it. By every one doing his best in the job he thinks most useful, this country is going to regain its momentum.

EXPANDING FOR THE FUTURE

We began to build 34 million dollars' worth of new plants and equipment. We felt that if we could not employ all our men building motor cars, we would employ as many as we could building better production facilities.

THIS MEANS MORE VALUE

The current program has provided a new tire plant, which will turn out a part of our tire requirements... a new tool and die plant that will help us cut the cost of dies...

that no one's hand touches but ours. Of nearly everything else we use we build some quantity ourselves, to find, if possible, better and more economical ways of doing it.

NEW TESTING EQUIPMENT

While we were putting up new plants to produce cars, we constructed new equipment to test them. The first weather tunnel of its kind ever built for automobile research went into operation at our laboratories this year.

It makes any kind of weather to order. The weather it delivers every day would take months to find in Nature. Our cars are weather-tested to give you good service in any climate anywhere.

THE NEW CARS

We have two new Ford cars for 1939—better cars and better looking—but we also have an entirely new car. It's called the Mercury 5. It fits into our line between the De Luxe Ford and the Lincoln-Zephyr.

In some respects this Fall season is gorgeous weather.

One of these days we plan to write a book but it is not on advance sale yet.

The capitalistic system is very important to the men who have large salaries without much work.

Medicine has made great progress in the past fifty years; people live longer even if it costs more.

A long, long talk is sometimes followed by a long, long silence and they might mean the same thing!

A SUBSTITUTE FOR SILK

The Japanese may lose their huge markets for raw silk in the United States, if two plants, to be erected in this country for the production of an entirely new synthetic yarn, meet the expectations of experts.

Mr. and Mrs. S. H. Gardner and children of Wilson, visited Mr. and Mrs. J. C. Gardner Sunday.

Mr. and Mrs. C. T. Hicks, Mrs. W. A. Marlowe and daughter, Janie, attended the football game in Chapel Hill Saturday.

Mr. Wallace Taylor of Whaleyville, Va., and Miss Virginia Reddick of Suffolk, Va., visited Mr. and Mrs. Ray West Sunday.

His many friends will be glad to learn that Mr. Ray West is getting along very nicely at his home here after his recent serious illness. He hopes to be able to sit up some in a few days.

Mr. and Mrs. C. H. Cupps of Mifflin, Pa., and Mrs. D. A. Pritchard of Norfolk, spent a few days here this week visiting their sisters, Mrs. J. H. Wheeler and Mrs. W. I. Shackelford.

Our young people home from college for the week end were: Christine Shirley, Kings Business College, Raleigh; Ruby Marlowe, Meredith College, Raleigh; Hazel McKeel, A. C. C., Wilson; Ed Taylor, Jr., and Cameron West, U. N. C., Chapel Hill; and Cecil Lang, Duke University, Durham.

Mrs. W. E. Lang, Mrs. J. C. Gardner and Miss Lillian Corbett of Walstonburg, and Mrs. M. D. Yelverton and Mrs. F. L. Eagles of Fountain, were Rocky Mount visitors Monday. Mrs. Lang, Mrs. Yelverton and Mrs. Eagles visited Mrs. Eagles' daughter who is ill at her home at Red Oak.

TELEVISION IN 1939

An experimental television service will probably be inaugurated in the spring in and around New York. Both the National Broadcasting Company and the Columbia Broadcasting System plan to begin operating a television transmitter which will serve an area having a radius of approximately fifty miles.

While details are not available, manufacturers are beginning to consider specifications of instruments to be sold to the public. The probability is that television pictures will be measured by inches at first and that the service will gradually improve as the experiment continues.

PROTEST SUNDAY DANCE MUSIC

Two weeks ago the British Broadcasting Corporation included twenty minutes of dance music on a Sunday morning's program. Immediately the Lord's Day Observance Society protested with every nerve and fiber of our religious convictions.
