

### Expelled Writer Tells of Motive Says He Knew Too Much About Mexican Political Dealings With Germany.

Brownsville, Tex., Jan. 17.—Frank L. Kluckhohn, New York Times correspondent who was invited by Mexican officials to leave Mexico, arrived in the United States late today.

He said he had been expelled from the Mexican capital because he "knew too much about Mexican political deals with Germany" and that the Mexican government was reprimanding all American correspondents for releasing political news stories.

"I was merely made the butt of a general move to crack down on American press correspondents in Mexico," Kluckhohn said.

"I found out too much about the activities of Mexican oil organization in connection with the Mexican government's oil deals to Germany."

The Times correspondent said that several days before he left Mexico for a vacation on December 16, he wrote a dispatch about a new \$17,000,000 oil barter with Germany. When Kluckhohn returned from his vacation early this week, he was seized by three officials of the Mexican government and held "incommunicado" for more than an hour, he said.

"At the end of that time I was told to be out of Mexico within 24 hours," he said. "I was just about to file a story about the increasing political nearness of Germany and Mexico with reference to the appointment of a new Mexican minister to Berlin, General Juan F. Azcarate."

Not interested.

Kluckhohn said that William Lander, United Press bureau chief of the official press bureau, Augustine Arroyo, Ch., that there was no interest on the part of the outside world in Mexican deals with Germany.

"It was indicated to Lander that the government wanted all of its news to come exclusively from its official press bureau," Kluckhohn said.

"One news service was fined 5,000 pesos by the Mexican government and other correspondents were severely reprimanded by the Mexican government last week."

"I have conscientiously tried to present both the viewpoint of the Mexican government and other parties in an exceedingly controversial situation."

"I won't say it's what Mexico wants, but what some government wants is pure propaganda, and I am serving as a warning to other cor-

respondents in an attempt to cut off impartial news at its source."

Kluckhohn, the first American news correspondent to be expelled from Mexico in several years, said he would remain in Brownsville several days and continue to write on Mexican events.

His Mexican passport was taken from him at the Brownsville airport by Mexican miration officials when he arrived here by plane.

'Eagle Eye'

An "eagle eye" machine which speeds the finishing process in cotton manufacture almost four times has just been perfected. It turns out cotton goods at the rate of three to nearly five miles an hour, regardless of width of fabric.
