No law against stealing bothers
honest citizens.

Advertising, to bring results, must
be advertising.

There are some who think a joke
must be bad to be good.

Mixed-up babies are bad enough,
but mixed-up parents are worse.

Few people like "the truth, the
whole truth and nothing but the
truth."

System is a fine thing in business
even if it is a system to avoid a sys-
tem.

One thing about Herr Hitler—he
knows what he wants and how he ex-
pects to get it.

North Carolina has a wonderful
climate, but so claim the people of
every other State.

The presumption of war is a dan-
gerous attitude on the part of some
public officials.

When you pay your taxes do you
ever stop to think what you are con-
tributing to?

Forward-looking families are now
planning to spend Pa's money on a
vacation trip.

One trouble about being on time for
an appointment is that the other per-
son is late.

Home may be the castle of man but
some enter their castles very cautious-
ly and quietly.

Maybe, the world isn't going to the
dogs after all; the big leagues are
almost ready to play ball.

Farmville is your town don't fuss
over it unless you have done your
part to make it better.

If you want to find out what nice
people there are in the world, read
the marriage write-ups.

Few people are flattered when you
tell them where and how they mis-
played a hand of bridge.

If dodging work was paying busi-
ness, there would be a number of
millionaires in Pitt County.

Have you ever noticed how much
talking some people can do about
trifling affairs?

The man who learns to carry out
instructions will some day be the man
who gives them.

The best way to educate the chil-
dren properly is to begin on the pa-
rents when they are young.

If you state a thing loudly enough,
and long enough, somebody will be-
lieve it.

Even the smartest individual has
much to learn and the smarter they
get the better they know it.

A young man of exceptional abili-
ty may be a failure unless he knows
how to avoid "good excuses."

There are news that we could pub-
lish every week but a sense of Chris-
tian charity restrains us.

Some people like pickles sour and
some like 'em sweet but there is no
reason for them to fight about it.

Every man in Farmville ought to
buy a new hat every once in a while
whether he has lost the old one or
not.

There is much confusion over the
right of free speech; it does not guar-
antee anybody the right to speak any-
where.

Most speakers would think clearer
if they were sure that somebody in
the audience would ask a few ques-
tions.

Modern filing cases have accounted
for the accumulation of more junk
than any other invention except the
automobile.

Inasmuch as it is natural for hu-
man beings to have differences of
opinion it is not a crime to oppose
your proposal.

The Enterprise is usually glad to re-
ceive short letters giving views of
readers upon matters of public
interest. The real name of the au-
thor must be signed to such commu-
nications otherwise they go into the
waste basket.

SHOULD A WIFE WORK?

A bill, recently introduced in the
legislation of Illinois, would prohibit
employment in any gainful occupa-
tion of any woman whose husband
had an income of \$1,500 or more
yearly.

This is what we consider a danger-
ous measure. It might possibly be
declared unconstitutional, if passed,
as an infringement on the rights of
women, but, if not, should be killed
anyway.

While the question is open to seri-
ous differences of opinion we do not
think that any law should prohibit a
woman from having the right to work
if she desires to work. That her hus-
band has a job has nothing to do with
her rights.

CHILD HEALTH DAY

The President of the United States
has proclaimed May 1st as "Child
Health Day," calling upon citizens of
every community to consider best
methods of promoting health among
children.

Certainly the people of Pitt County
are interested in child health. In a
general sort of way, we think it a
desirable end and give it our perfu-
natory approval.

As far as the parents are concerned
they are quick to look after the
health of their own and make many
sacrifices that their offspring may
enjoy sound health. However, what
is our attitude toward the problem
of bringing good health to every boy
and girl who lives in Pitt County?

This is another proposition! It in-
volves expenses that have to be paid
very often by men and women whose
children do not directly benefit from
the money they must contribute.

It is a sad commentary upon the
selfishness of our generation that
men and women can look cold statis-
tics in the face, realizing that they
tell a story of juvenile suffering and
death, without a resolve to do some-
thing about it.

NO FIGHTING OVER TWO ISLANDS!

Readers may recall that a year or
so ago the United States and Great
Britain exchanged notes about the
ownership of a pair of tiny islands
in the Central Pacific, which had be-
come important with the development
of aviation.

Each nation claimed sovereignty
over Canton and Enderbury islands.
Such a dispute, in some circum-
stances, might caused bad feeling, or
even strife. Luckily, however, the United
States and Great Britain are anxious
to live peaceably and have no desire
to go to war over islands half way
between Hawaii and Australia.

As expected, they have worked out
an agreement for the joint control of
the isles, so important to aviation,
and both countries will share control
with equal rights accorded the citi-
zens of each.

This is an illustration of how two
nations ought to get along. It is
worth noting that neither country is
the loser by the agreement.

FARMERS SUPPORT BUSINESS

We have never been able to un-
derstand the motive that inspires
some business men to constantly
criticize the farmers.

If these business men are half as
smart as they are supposed to be,
they know that the fortune of their
enterprise depends upon the ability
of farmers to buy their goods.

A large part of the population of
the United States derives its living
from agriculture. In some sections
the welfare of the area depends al-
most entirely upon the cash income
of the farmers in the surrounding
territory. In other sections the de-
pendence is less direct, because of
the presence of industry, just the
same, when the agricultural people
stop buying the wheels of many in-
dustries come to a stop.

We believe there is a general opin-
ion that national policies, in the past,
have not aided agriculture, or given
to the farmer a fair share of the na-
tional income. The tariff that pro-
tects industry is, to some extent, a
tax upon agriculture. So long as it
exists, the farmers are entitled to an
off-set, whether it be in the form of
conservation payments, crop subsid-
ies, crop loans or cash payments.

There are many keen business
men who appreciate fully the inter-
dependence of agriculture and indus-
try. There are local business lead-
ers who understand that the success
of their business year depends upon
crop income, just as the farmers' suc-
cess depends upon it. These men are

A REAL FAN

Frankfurt, Ind. — William Sibbia,
86-year-old farmer, is a real basket
ball fan. Recently, while witnessing
an exciting high school game, he fell
off his seat and didn't discover until
the game was over that the fall had
fractured one of his legs.

**Breath Bad, Lousy?
You May Need This**

Just as the lighthouse flashes a
friendly warning to sailors, so
Nature sends out headaches, bad
breath, biliousness, which often
warn of constipation.

Too many misunderstand or neglect
these symptoms and thereby may
invite a host of constipation's other
discomforts: sour stomach, belch-
ing, loss of appetite or energy.

Be wise. Take spicy, all vegetable
BLACK-DRAUGHT tonight by
simple directions and clear your
bowels gently, promptly, thoroughly.
This intestinal tonic-laxative helps
give tone to lousy bowels.

Its long life and popularity testify
to BLACK-DRAUGHT'S merit.
